companies in which money is invested and does not hesitate to exit the investment if necessary Sack the Startup is about the attitude you wear and carry to be successful in the startup ecosystem It emphasizes that you are on equal footing with the employer and have the same power and responsibilities When you work for a startup you also need to evaluate whether the startup works for you In Sack the Startup you get to know The attitude required to be successful in startups The need to work on yourself first before working on products or markets That being the right person is more important than doing the right things That you can be successful whether the startup is successful or not The startup offers you a journey that is exciting irrespective of the destination Cosmopolitan ,1989-10 **Papers ...** Manchester Literary Club,1913
