A History of Food Fears

Madeleine Ferrières

# Sacred Cow Mad Cow

**Cornelia Knab**

## **Sacred Cow Mad Cow:**

*Sacred Cow, Mad Cow* Madeleine Ferrières, 2006 Traces the history of consumers fear of certain foods beginning with accounts from the fourteenth century and describes legislative attempts to regulate meat processing in recent years

*Pathogens Crossing Borders* Cornelia Knab, 2022-07-29 The increasing globalization of trade travel and transport since the mid 19th century had unwelcome consequences one of them was the spread of contagious animal diseases over greater distances in a shorter time than ever before Borders and national control strategies proved to be insufficient to stop the pathogens Not surprisingly the issue of epizootics epidemics of animals was among the first topics to be addressed by international meetings from the 1860s onwards *Pathogens Crossing Borders* explores the history of international efforts to contain and prevent the spread of animal diseases from the early 1860s to the years after the Second World War As an innovative contribution to global history and the history of internationalism the book investigates how disease experts politicians and state authorities developed concepts practices and institutional structures at the international level to tackle the spread of animal diseases across borders By following their activities in dealing with a problem area which was and is today of enormous political social public health and economic relevance the book reveals the historical challenges of finding common international responses to complex and pressing global issues for which there are no easy solutions **Sacred**

**Cow? Canada's Response to the BSE Crisis** Christopher John Kukucha, Joanne Luu, 2007 *Stolen Harvest* Vandana Shiva, 2016-01-14 For the farmer the seed is not merely the source of future plants and food it is a vehicle through which culture and history can be preserved and spread to future generations For centuries farmers have evolved crops and produced an incredible diversity of plants that provide life sustaining nutrition In India alone the ingenuity of farmers has produced over 200 000 varieties of rice many of which now line store shelves around the world This productive tradition however is under attack as globalized corporate regimes increasingly exploit intellectual property laws to annex these sustaining seeds and remove them from the public sphere In *Stolen Harvest The Hijacking of the Global Food Supply* Shiva explores the devastating effects of commercial agriculture and genetic engineering on the food we eat the farmers who grow it and the soil that sustains it This prescient critique and call to action covers some of the most pressing topics of this ongoing dialogue from the destruction of local food cultures and the privatization of plant life to unsustainable industrial fish farming and safety concerns about corporately engineered foods The preeminent agricultural activist and scientist of a generation Shiva implores the farmers and consumers of the world to make a united stand against the genetically modified crops and untenable farming practices that endanger the seeds and plants that give us life *Eating History* Andrew F. Smith, 2009 Prologue Oliver Evans's automated mill The Erie Canal Delmonico's Sylvester Graham's reforms Cyrus McCormick's reaper A multiethnic smorgasbord Giving thanks Gail Borden's canned milk The homogenizing war The transcontinental railroad Fair food Henry Crowell's Quaker special Wilbur O Atwater's calorimeter The Cracker Jack snack

Svriz-Wucherer, 2021-06-28 Following a study on the world flows of American products during early globalization here the authors examine the reverse process By analyzing the imperial political economy the introduction adaptation and rejection of new food products in America as well as of other European Asian and African goods *American Globalization 1492 1850* addresses the history of consumerism and material culture in the New World while also considering the perspective of the history of ecological globalization This book shows how these changes triggered the formation of mixed imagined communities as well as of local and regional markets that gradually became part of a global economy But it also highlights how these forces produced a multifaceted landscape full of contrasts and recognizes the plurality of the actors involved in cultural transfers in which trade persuasion and violence were entwined The result is a model of the rise of consumerism that is very different from the ones normally used to understand the European cases as well as a more nuanced vision of the effects of ecological imperialism which was moreover the base for the development of unsustainable capitalism still present today in Latin America Chapters 1 3 4 7 8 11 and 13 of this book are freely available as a downloadable Open Access PDF under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license available at <http://www.taylorfrancis.com>

*Food in Time and Place* Paul Freedman, Joyce E. Chaplin, Ken Albala, 2014-11-24 Food and cuisine are important subjects for historians across many areas of study Food after all is one of the most basic human needs and a foundational part of social and cultural histories Such topics as famines food supply nutrition and public health are addressed by historians specializing in every era and every nation *Food in Time and Place* delivers an unprecedented review of the state of historical

research on food endorsed by the American Historical Association providing readers with a geographically chronologically and topically broad understanding of food cultures from ancient Mediterranean and medieval societies to France and its domination of haute cuisine Teachers students and scholars in food history will appreciate coverage of different thematic concerns such as transfers of crops conquest colonization immigration and modern forms of globalization

*Medical Consulting by Letter in France, 1665-1789* Robert Weston, 2016-04-29 Ailing seventeenth and eighteenth century French men and women members of their families or their local physician or surgeon could write to high profile physicians and surgeons seeking expert medical advice This study the first full length examination of the practice of consulting by letter provides a cohesive portrayal of some of the widespread ailments of French society in the latter part of the early modern period It explores how and why changes occurred in the relationships between those who sought and those who provided medical advice Previous studies of epistolary medical consulting have limited attention to the output of one or two practitioners but this study uses the consultations of around 100 individual practitioners from the mid seventeenth century to the time of the Revolution to give a broad picture of patients and physicians perceptions of illnesses and how they should be treated on a day to day basis It makes a unique contribution to the history of medicine as no other study has been undertaken in the consulting by letter of surgeons as opposed to physicians It is shown that the well known disputation between physicians and surgeons tells only a part of the history whereas in fact necessity required that these two professions had to work together for the patients good

**Discomfort Food** Marni Reva Kessler, 2021-02-02 An intricate and provocative journey through nineteenth century depictions of food and the often uncomfortable feelings they evoke At a time when chefs are celebrities and beautifully illustrated cookbooks blogs and Instagram posts make our mouths water scholar Marni Reva Kessler trains her inquisitive eye on the depictions of food in nineteenth century French art Arguing that disjointed senses of anxiety nostalgia and melancholy underlie the superficial abundance in works by Manet Degas and others Kessler shows how in their images food presented a spectrum of pleasure and unease associated with modern life Utilizing close analysis and deep archival research Kessler discovers the complex narratives behind such beloved works as Manet's *Fish Still Life* and Antoine Vollon's *Internet famous Mound of Butter* Kessler brings to these works an expansive historical review creating interpretations rich in nuance and theoretical implications She also transforms the traditional paradigm for study of images of edible subjects showing that simple categorization as still life is not sufficient *Discomfort Food* marks an important contribution to conversations about a fundamental theme that unites us as humans food Suggestive and accessible it reveals the very personal often uncomfortable feelings hiding within the relationship between ourselves and the representations of what we eat

Umami Ole Mouritsen, Klavs Styrbæk, 2014-06-03 In the West we have identified only four basic tastes sour sweet salty and bitter that through skillful combination and technique create delicious foods Yet in many parts of East Asia over the past century an additional flavor has entered the culinary lexicon umami a fifth taste impression that is savory

complex and wholly distinct Combining culinary history with recent research into the chemistry preparation nutrition and culture of food Mouritsen and Styrboe encapsulate what we know to date about the concept of umami from ancient times to today Umami can be found in soup stocks meat dishes air dried ham shellfish aged cheeses mushrooms and ripe tomatoes and it can enhance other taste substances to produce a transformative gustatory experience Researchers have also discovered which substances in foodstuffs bring out umami a breakthrough that allows any casual cook to prepare delicious and more nutritious meals with less fat salt and sugar The implications of harnessing umami are both sensuous and social enabling us to become more intimate with the subtleties of human taste while making better food choices for ourselves and our families This volume the product of an ongoing collaboration between a chef and a scientist won the Danish national Mad Medier Prisen Food and Media Award in the category of academic food communication

**Upsetting Food** Jeffrey Haydu, 2021-05-28 Compares U S food reform campaigns through historical social movements each driven by capitalism but shaped by activism

**Pomodoro!** David Gentilcore, 2010 Frankly I am amazed that no one has already written this book It is a fascinating topic and David Gentilcore does it justice covering five hundred years in scrutinizing detail There is probably no food so readily associated with Italy than the tomato and yet its origin is in the Americas KEN ALBALA University of the Pacific author of *Beans A History*

**Meals Matter** Michael Symons, 2020-06-02 Until the early nineteenth century political philosophy and economics were dining companions Both took up fundamental questions of how we should feed one another But with the rise of corporate capitalism modern economics lost sight of its primary task and turned away from the complexities of real people's sustenance in favor of the single minded pursuit of money In *Meals Matter* Michael Symons returns economics to its roots in the distribution of food and the labor required Setting the table with vivid descriptions of conviviality he offers a gastronomic rebuttal to the narrow worldview of mainstream economics Engaging with a wide variety of thinkers including Epicurus Enlightenment philosophers such as Thomas Hobbes and John Locke the gastronome Jean Anthelme Brillat Savarin and economic theorists from Francois Quesnay and Adam Smith through the neoliberals Symons traces how we went astray and how we can find our way back to a more caring sustainable way of life He finds hope for shared table pleasure in institutions like community gardens street markets and banquets and in eating fresh local and slow food An innovative historically based argument at the intersection of food history and social thought *Meals Matter* challenges us to reject the economics of greed in favor of a community based economics of sharing and gastronomic enjoyment
