Place, Memory, and Healing Ömür Harmanşah, 2014-12-05 Place Memory and Healing An Archaeology of Anatolian Rock Monuments investigates the complex and deep histories of places how they served as sites of memory and belonging for local communities over the centuries and how they were appropriated and monumentalized in the hands of the political elites Focusing on Anatolian rock monuments carved into the living rock at watery landscapes during the Late Bronze and Early Iron Ages this book develops an archaeology of place as a theory of cultural landscapes and as an engaged methodology of fieldwork in order to excavate the genealogies of places Advocating that archaeology can contribute substantively to the study of places in many fields of research and engagement within the humanities and the social sciences this book seeks to move beyond the oft conceived notion of places as fixed and unchanging and argues that places are always unfinished emergent and hybrid Rock cut monuments of Anatolian antiquity are discussed in the historical and micro regional context of their making at the time of the Hittite Empire and its aftermath while the book also investigates how such rock cut places springs and caves are associated with new forms of storytelling holy figures miracles and healing in their post antique life Anybody wishing to understand places of cultural significance both archaeologically as well as through current theoretical lenses such as heritage studies ethnography of landscapes social memory embodied and sensory experience of the world post colonialism political ecology cultural geography sustainability and globalization will find the case studies and research within this book a doorway to exploring places in new and rewarding ways **Troubling the Social** Jeremy Punt, 2024-09-25

These papers from the annual Summer Spring School of the IRTG revolve around the theme of troubling the social exploring the complex relationships between religion social worlds and transformation from the vantage point of the postcolony not so much as a geographical location but rather as a way to understand the world The contributions examine the coloniality inherent within the academic enterprises related to religion but also what how and why religious experiences worldviews and engagements count as knowledge and the implications this has for understanding examining and activating social transformation processes Processes of transformation have been prominent within the continent in the last decade and still animate crucial debates and knowledge production In these religion has figured paradoxically as the blind spot or occupied a default and marginal position However religion participates through a complex assemblage of practices subjectivities and meaning making processes in the creation of social worlds social imagination and social transformations They also explore how the decolonial renaissance is troubling the social and epistemic origins of religion and the social sciences as well as its imagined relation to social transformation Contributors are from Southern Africa and Germany societies with histories of colonialism and segregation both of which have experienced postcolonial transformations to the social fabric of their societies and both have increasingly seen calls also for critical research on coloniality religion and social transformation

A BRIEF HISTORY OF THE SIKHS (MULTIDIMENSIONAL SIKH STRUGGLES) Devinder Singh

Mangat,2023-02-11 A Brief History of the Sikhs attempts to highlight that the inhabitants of Punjab have been free spirited accommodating and companionate towards the peaceful settlers But they were not accommodating towards the invaders from the north west They accepted the new ideas like Sufism and the Bhakti movements with open arms Out of the synthesis of the two Sikhism was born The Sikhs carried on their free spirited approach towards the Punjabi nationalism and onwards to uncompromising nationalist approach for the independence of India from the British slavery in 1947 Unlike other communities the Punjabis fought against a common enemy not among themselves The Punjabis have been hard working honest peace loving and pushing irrespective of their ethnicity The Muslims Hindus and the Sikhs stood for the Punjabi That is what the A Brief History of the Sikhs stands for **The Garuda Puranam** Manmatha Nath Dutt,1908 The Church Missionary Gleaner ,1915 The Body, Mind, Spirit Miscellany Jane Alexander,2009 Spiritual adventurers will savor this book like a fine wine It features a vast assortment of collected wisdom and mystical miscellany from hundreds of varied sources all assembled here into a glorious anthology that will be dipped into and pored over again and again Topics include religion myth and symbolism alternative health the predictive arts the occult yoga and meditation and much more Readers will learn to understand the language of flowers how to live in tune with lunar cycles how to perform an Indian head massage and what the ancient Romans actually did at their Saturnalia You ll even see how to make your own crop circles **Science and Stewardship to Protect and Sustain Wilderness Values** ,2003 The Seventh World Wilderness Congress met in Port Elizabeth South Africa in 2001 The symposium on science and stewardship to protect and sustain wilderness values was one of several symposia held in conjunction with the Congress The papers contained in this proceedings were presented at this symposium and cover seven topics state of knowledge on protected areas issues in South Africa traditional and ecological values of nature wilderness systems and approaches to protection protection of coastal marine and river lake wilderness spiritual benefits religious beliefs and new stories personal and societal values of wilderness and the role of science education and collaborative planning in wilderness protection and restoration *Driving and Discovering Hawaii, Maui, and Molokai* Richard Sullivan,2007-11 Travel guide in photographs of Maui and Molokai Includes descriptions of various sites travel routes and maps *Island Rivers* John R. Wagner,Jerry K. Jacka,2018-06-19 Anthropologists have written a great deal about the coastal adaptations and seafaring traditions of Pacific Islanders but have had much less to say about the significance of rivers for Pacific island culture livelihood and identity The authors of this collection seek to fill that gap in the ethnographic record by drawing attention to the deep historical attachments of island communities to rivers and the ways in which those attachments are changing in response to various forms of economic development and social change In addition to making a unique contribution to Pacific island ethnography the authors of this volume speak to a global set of issues of immense importance to a world in which water scarcity conflict pollution and the degradation of riparian environments afflict growing numbers of people Several authors take a political ecology approach to their topic but the emphasis here is less on

hydro politics than on the cultural meaning of rivers to the communities we describe How has the cultural significance of rivers shifted as a result of colonisation development and nation building How do people whose identities are fundamentally rooted in their relationship to a particular river renegotiate that relationship when the river is dammed to generate hydro power or polluted by mining activities How do blockages in the flow of rivers and underground springs interrupt the intergenerational transmission of local ecological knowledge and hence the ability of local communities to construct collective identities rooted in a sense of place

Divine Rainbow M. Louise Heydt, 2020-02-24 In this uplifting book Louise Heydt weaves together a one year cycle of nature in a small valley in the Tecolote Mountains east of Pecos New Mexico and an inspirational spiritual journey as taught by nature The land and the spiritual path are interconnected the outer landscape of nature is the guide for the journey through the inner landscape The reader is shown how to find sacred places in the land and how these places are a gateway or threshold for quiet observation and meditation The realm of mystical experiences can be explored while in the embrace of nature The book also shows that it is a contemporary delusion that humans and nature are separate and how in the process of immersing oneself into experiences in nature one nourishes his or her inner nature In the process of this nurturing a spiritual awakening begins in which one also learns the power of prayer thus bringing to light one's
