Sacred Profane Beauty The Holy In Art:

Sacred and Profane Beauty Gerardus Leeuw, 2006 Gerardus van der Leeuw was one of the first to attempt a rapprochement between theology and the arts and his influence continues to be felt in what is now a burgeoning field Sacred and Profane is the fullest expression of his pursuit of a theological aesthetics surveying religion s relationship to all the arts dance drama literature painting sculpture architecture and music This edition makes this seminal work first published in Dutch in 1932 newly available A new foreword by Diane Apostolos Cappadona analyzes the continuing relevance of van der Leeuw s thought Van der Leeuw s impassioned and brilliant investigation of the relationship between the holy and the beautiful is founded upon the conviction that for too long the religious have failed to seriously contemplate the beautiful associating it as they do with the kingdom of sensuality and impermanence Similarly it has been alien to literati and aesthetes to reflect upon the holy for they choose to consider this physical world to be permanent and therefore to be glorified through beauty alone In truth as van der Leeuw undertakes to show in Sacred and Profane Beauty the holy has never been absent from the arts and the arts have never been unresponsive to the holy Whether one considers the Homeric epics the dancing Sivas and Vedic poems the sacred wall paintings of ancient Egypt the primitive mask or the range of sacred arts developed out of Latin and Byzantine Christianity primordial creation in the arts was always directed toward the symbolization and interpretation of the holy The fact that in our day this original connection is obscured and the artistic impulse is more generally regarded as wholly individualistic and autonomous does not contradict van der Leeuw s thesis indeed the breakdown of the unity of the holy and the arts is central to his thesis Van der Leeuw was the rare thinker who combined profundity of insight grace of style and a willingness to take daring intellectual chances In Sacred and Profane he describes each of the arts in its original unity with the religious and then analyzes its historical disjunction and alienation After a penetrating investigation of the structural elements within the arts which illumines a crucial dimension of the religious experience van der Leeuw points toward the reemergence of an appropriate theological aesthetics on which a reunification of the arts could be founded Sacred and Profane Beauty [Wegen en Grenzen. Engl.] The Holy in Art. Pref. by Mircea Eliade. Transl. by David E. Green. (1. Ed.) Gerardus Van der Leeuw, 1963 Saints in the Limelight Siglind Bruhn, 2003 Table of contents Vom Heiligen in Der Kunst. Sacred and Profane Beauty. The Holy in Art ... **Translated by David E. Green** Gerardus van der LEEUW,1963 Hermeneutics, Politics, and the History of Religions Christian Wedemeyer, Wendy Doniger, 2010-03-08 This volume comprises papers presented at a conference marking the 50th anniversary of Joachim Wach's death and the centennial of Mircea Eliade's birth Its purpose is to reconsider both the problematic separate legacies of these two major twentieth century historians of religions and the bearing of these two legacies upon each other Shortly after Wach's death in 1955 Eliade succeeded him as the premiere historian of religions at the University of Chicago As a result the two have been associated with each other in many people s minds as the successive

leaders of the so called Chicago School in the history of religions In fact as this volume makes clear there never was a monolithic Chicago School Although Wach reportedly referred to Eliade as the most astute historian of religions of the day the two never met and their approaches to the study of religions differed significantly Several dominant issues run through the essays collected here the relationship between the two men's writings and their lives and in Eliade's case the relationship between his political commitments and his writings in fiction history of religions and autobiography Both men s contributions to the field continue to provoke controversy and debate and this volume sheds new light on these controversies and what they reveal about these two scholars legacies Creation's Beauty as Revelation L. Clifton Edwards, 2014-03-05 With an interdisciplinary approach Edwards utilizes literature aesthetics world religions and continental philosophy as avenues into the theology of natural beauty This is an epistemological look at our aesthetically charged knowing of God through nature Emphasizing our embodied experience of the world Edwards examines the phenomenon of perceptual beauty while questioning traditional notions of God's metaphysical beauty Drawing upon Michael Polanyi's philosophy of science Edwards explores the human aesthetic and religious interface with the natural world This philosophical approach is then linked to the poetic Polanyi s tacit knowledge and Jean Luc Marion s saturated phenomena give support to Wordsworth s pregnant vision of the natural world This approach culminates in a re envisaging of John Ruskin's typology of natural beauty Ruskin's vision of the world can be adapted toward an understanding of natural revelation Edwards brings this Romantic theology back across the Atlantic in dialogue with American nature writers and the uniquely American experience of wilderness and The Oxford Handbook of Natural Theology Russell Re Manning, 2013-01-17 The Oxford Handbook of Natural frontier Theology is the first collection to consider the full breadth of natural theology from both historical and contemporary perspectives and to bring together leading scholars to offer accessible high level accounts of the major themes The volume embodies and develops the recent revival of interest in natural theology as a topic of serious critical engagement Frequently misunderstood or polemicized natural theology is an under studied yet persistent and pervasive presence throughout the history of thought about ultimate reality from the classical Greek theology of the philosophers to twenty first century debates in science and religion Of interest to students and scholars from a wide range of disciplines this authoritative handbook draws on the very best of contemporary scholarship to present a critical overview of the subject area Thirty eight new essays trace the transformations of natural theology in different historical and religious contexts the place of natural theology in different philosophical traditions and diverse scientific disciplines and the various cultural and aesthetic approaches to natural theology to reveal a rich seam of multi faceted theological reflection rooted in human nature and the environments within which we find ourselves Theological Aesthetics Gesa Elsbeth Thiessen, 2005 While interest in the relationship between theology and the arts is on the rise there are very few resources for students and teachers let alone a comprehensive text on the subject This book fills that lacuna by providing an anthology of readings on theological aesthetics

drawn from the first century to the present A superb sourcebook Theological Aesthetics brings together original texts that are relevant and timely to scholars today Editor Gesa Elsbeth Thiessen has taken a careful inclusive approach to the book including articles and extracts that are diverse and ecumenical as well as representative of gender and ethnicity The book is organized chronologically and each historical period begins with commentary by Thiessen that sets the selections in context These engaging readings range broadly over themes at the intersection of religion and the arts including beauty and revelation the vision of God artistic and divine creation God as artist images of God the interplay of the senses and the intellect human imagination mystical writings meanings of signs and symbols worship liturgy doxology the relationship of word and image icons and iconoclasm the role of the arts in twentieth century theology and much more Theological Aesthetics after von Balthasar James Fodor,2016-02-17 This collection of essays by distinguished authors explores the present day field of theological aesthetics from von Balthasar's contribution and parallel developments to correctives and alternatives to his approach A tribute to von Balthasar's own project expands into a dialogue with ancient and medieval traditions in search of revelatory aesthetics The contributors outline challenges to his approach including Protestant perspectives and introduce new ways of viewing the field of theological aesthetics which ultimately opens up to the idea of concrete cultural contexts and practical human needs determining the use of the arts and aesthetic sensibilities in theology

The Oxford Handbook of Religion and the Arts Frank Burch Brown,2018 This volume offers 37 original essays from leading scholars on the crucial topics issues methods and resources for studying and teaching religion and the arts

Authorship and Authority in Kierkegaard's Writings Joseph Westfall, 2018-11-15 Authorship is a complicated subject in Kierkegaard's work which he surely recognized given his late attempts to explain himself in On My Work as an Author From the use of multiple pseudonyms and antonyms to contributions across a spectrum of media and genres issues of authorship abound Why did Kierkegaard write in the ways he did Before we assess Kierkegaard s famous thoughts on faith or love or the relationship between the aesthetic the ethical and the religious we must approach how he expressed them Given the multi authored nature of his works can we find a view or voice that is definitively Kierkegaard s own Can entries in his unpublished journals and notebooks tell us what Kierkegaard himself thought How should contemporary readers understand inconsistencies or contradictions between differently named authors We cannot make definitive claims about Kierkegaard s work as a thinker without understanding Kierkegaard's work as an author This collection by leading contemporary Kierkegaard scholars is the first to systematically examine the divisive question and practice of authorship in Kierkegaard Reel Spirituality Robert K. Johnston, 2006-12 A comprehensive from philosophical literary and theological perspectives study of theology and film that explores how the Christian faith is portrayed in film throughout history The Theory of the Arts Francis Edward Sparshott, 2014-07-14 In a systematic overview of classical and modern contributions to aesthetics Professor Sparshott argues that all four lines of theory and no others are necessary to coherent thinking about art Originally

published in 1982 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Spiritus Loci Bert Daelemans, S.J.,2015-01-08 In Spiritus Loci Bert Daelemans who graduated as an architect and a theologian provides an interdisciplinary method for the theological assessment of church architecture Rather than a theory this method is based on case studies of contemporary buildings 1995 2015 which are often criticized for lacking theological depth In a threefold method the author brings to light the ways in which architecture can be theology or theotopy by focusing on topoi places rather than logoi words Churches reveal our relationship with God by engaging our body mind and community This method proves relevant not only for the way we perceive these buildings but also for the way we use them especially in our prophetic engagement for a better world

Ascent Tzachi Zamir, 2017-11-01 Paradise Lost has never received a substantial book length reading by a philosopher This however should surprise no one for Milton himself despised philosophers He associated philosophy with deceit in his theological writings and made philosophizing into one of the activities of fallen angels in hell Yet in this book philosopher and literary critic Tzachi Zamir argues that Milton's disdain for their vocation should not prevent philosophers from turning an inquisitive eye to Paradise Lost Because Milton's greatest poem conducts a multilayered examination of puzzles that intrigue philosophers instead of neatly breaking from philosophy it maintains a penetrating rapport with it Paradise Lost sets forth bold claims regarding the meaning of genuine knowledge or acting meaningfully or taking in the world fully or successfully withdrawing from inner deadness Other topics touched upon by Milton involve some of the most central issues within the philosophy of religion the relationship between reason and belief the uniqueness of religious poetry the meaning of gratitude and the special role of the imagination in faith This tension disparaging philosophy on the one hand but taking up much of what philosophers hope to understand on the other turns Milton's poem into an exceptionally potent work for a philosopher of literature Ascent is a philosophical reading of the poem that attempts to keep audible Milton's anti philosophy stance The picture of interdisciplinarity that emerges is accordingly neither one of a happy percolation among fields philosophy literature nor one of rigid boundaries Overlap and partial agreement clash against contestation and rivalry It is these conflicting currents which Ascent aims to capture if not to reconcile **Religious Aesthetics** Frank Burch Brown,1993-05-09 In this groundbreaking work Brown shows how aesthetics no less than ethics can play a central role in the study of religion and in the practice of theology An important book wide ranging often very witty showing an impressive grasp of the current state of aesthetics and possible new directions Nick McAdoo British Journal of Aesthetics

Theological Aesthetics Richard Viladesau, 1999-03-25 This book explores the role of aesthetic experience in our

perception and understanding of the holy Richard Viladesau s goal is to articulate a theology of revelation examined in relation to three principal dimensions of the aesthetic realm feeling and imagination beauty or taste and the arts After briefly considering ways in which theology itself can be imaginative or beautiful Viladesau concentrates on the theological significance of aesthetic data provided by each of the three major spheres of aesthetic perception and response Throughout the work the underlying question is how each of these spheres serves as a source however ambiguous of revelation Although he frames much of his argument in terms of Catholic theology from the Church Fathers to Karl Rahner Hans urs von Balthasar Bernard Lonergan and David Tracy Viladesau also makes extensive use of ideas from the Protestant theologian of the arts Gerardus van der Leeuw and draws insights from such diverse thinkers as Hans Goerg Gadamer Wolfhart Pannenberg and Iris Murdoch His analysis is enlivened by the artistic examples he selects the music of Mozart as contemplated by Karl Barth Schoenbergs opera Moses und Aron the sculptures of Chartres Cathedral poems by Rilke and Michelangelo and many others What emerges from this study is what Viladeseau terms a transcendental theology of aesthetics In Thomistic terms he finds that beauty is not only a perfection but a transcendental That is any instance of beauty rightly perceived and rightly understood can be seen to imply divinely beautiful things as well In other words Viladesau argues God is the absolute and necessary condition for the possibility of beauty The Iconic Imagination Douglas Hedley, 2016-02-25 Is it merely an accident of English etymology that imagination is cognate with image Despite the iconoclasm shared to a greater or lesser extent by all Abrahamic faiths theism tends to assert a link between beauty goodness and truth all of which are viewed as Divine attributes Douglas Hedley argues that religious ideas can be presented in a sensory form especially in aesthetic works Drawing explicitly on a Platonic metaphysics of the image as a bearer of transcendence The Iconic Imagination shows the singular capacity and power of images to represent the transcendent in the traditions of Christianity Judaism Hinduism and Islam In opposition to cold abstraction and narrow asceticism Hedley shows that the image furnishes a vision of the eternal through the visible and temporal **The Ecumenism of Beauty** Timothy Verdon, 2017-05-01 The last fifty years have seen a rediscovery of the role of the visual arts in the lives of all Christians In tune with this ecumenical age this book shares the belief that beauty and art can bridge differences unite people in shared admiration and possibly become an instrument of communion among separated Christians The authors of this book are Catholic Orthodox Anglican and Protestant artists scholars and clergy who in 2017 will take part in a symposium organized to commemorate the Reformation which began when Martin Luther published his 95 theses in 1517 With sessions in Paris Strasburg Florence New Haven CT and Orleans MA the symposium is promoted by Catholic and Protestant schools of theology together with Mount Tabor Centre for Art and Spirituality in Barga Italy Music, Theology and Worship ,2014-01-10 This book offers a representative collection of insightful essays about devotional music from nineteenth century scholars and practitioners Addressing the social and theological import of church music this text also explores the divine

quality of the human voice the spiritual efficacy of congregational singing and a host of topics pertinent to church life Those interested in the relationship of music and religion will find value in the descriptions opinions and analyses
