### **Toward More**

**Family-Centered Family Sciences** Howard M. Bahr,Kathleen S. Bahr,2009-03-16 Much academic writing on families reflects the ideal of non involvement and distanced subject matter *Toward More Family Centered Family Sciences* suggests that the family sciences in their effort to be scientific have perpetuated this distance between researcher and subject to the detriment of both The authors argue that family and kinship ties are transcendent ties boundary crossing in numerous ways They place an emphasis on family love in contrast and in addition to romantic love and criticize current approaches for neglecting the importance of transcendent concepts such as love commitment respect and sacrifice in the development and well being of family structures Drawing from insights both inside and outside of academia the authors seek to reincorporate transcendent concepts into the study of the family as a unit of society They argue for a more collaborative family centered family science and offer recommendations for how family researchers might work to change the scientific monologue about families to a systemic dialogue with families *Nurturing Child and Adolescent Spirituality* Karen-Marie Yust,2006

Nurturing Child and Adolescent Spirituality Perspectives from the World's Religious Traditions provides a forum for prominent religious scholars to examine the state of religious knowledge and theological reflection on spiritual development in childhood and adolescence. Featuring essays from thinkers representing the world's major religious traditions, the book introduces new voices, challenges assumptions, raises new questions, and broadens the base of knowledge and investment in this important domain of life. It specifically and intentionally focuses on theological and philosophical perspectives from within religious traditions, creating space for the religious traditions to find their voices. Nurturing Child and Adolescent Spirituality is firmly grounded in the language and priorities of religious studies and helps stimulate explorations of whether and how religious communities are tapping their own wisdom and strengths in nurturing today's young people in a complex and changing world. Nurturing Child and Adolescent Spirituality will set the stage for new waves of scholarship and dialogue within and across traditions, disciplines, and cultures that will enrich understanding and strengthen how the world's religious traditions and others understand and cultivate the spiritual lives of children and adolescents around the globe.

**What We Have Seen and Heard** Michael E. Connors, 2017-05-11 One of the chief challenges of the Second Vatican Council was to reclaim the meaning of baptism, especially as the foundation of service and mission in the world. Fifty years after the close of that watershed gathering, nineteen distinguished religious leaders and scholars reexamine that challenge and its implications for preaching and ministry today. This book reinvigorates an important conversation.

**Children's Perceptions of the Role of Biblical Narratives in Their Spiritual Formation** Annie George, 2017-02-28 In the Bible, storytelling is an important means to pass on the revelation of God. God repeatedly commanded the people of Israel to tell his mighty acts to the next generation. Invariably, churches follow this mandate and use biblical narratives as a means to transmit God's self-revelation to enable transformation. The author, Dr. Annie George, listens to the voices of children in order to understand their perceptions of how storytelling of biblical narratives helps them in their spiritual formation. Dr. George's research highlights the importance of evaluating the impact of biblical narratives from a child's perspective, as well as emphasising the need to give the same priority to the spiritual transformation of children as with other areas of study and ministry.

Stan Chu Ilo, 2019-07-30 There is no papal document that has generated as much interest controversy and debate in recent times as Pope Francis's *Amoris Laetitia*. This document which came out of two very divisive synods of Catholic bishops and leaders in Rome in 2014 and 2015 will probably be the most discussed document ever produced by a pope in modern Catholicism on marriage and family life. This volume has gathered seminal commentaries on *Amoris Laetitia* by African Catholic theologians, social scientists and pastoral workers. They offer African theological and pastoral responses to the principles and practices proposed by Pope Francis and the Synod on the family on such contested issues as same sex relations, divorce and remarriage and reception and denial of Holy Communion in the church among other divisive issues. These important essays and commentaries show the strengths and weaknesses of this papal commentary and point out the missing link in the global conversation on marriage, family and same sex relations. Their argument for the inclusion of African perspectives and moral traditions in the search for a third way in finding an inclusive and integrated pastoral art of accompaniment is very compelling. The authors here also call for the inclusion of Africa's own unique challenges like polygamy, childless marriages and the impact of migration, civil conflict, diseases, ecological and population crises and the rights of African women in the global discussion on marriage and family life. They also challenge uncritical clichés in world Christianity that Africa's opposition to same sex marriages or Western propaganda about population or birth control and contraception are conservative while showing diverse African conversations on these topics in the search for abundant life on this beautiful continent.
