Sacrificing The Self Martyrdom In World Religions:

Sacrificing the Self Margaret Cormack, 2002-07-18 Acts of martyrdom have been found in nearly all the world's major religious traditions. Though considered by devotees to be perhaps the most potent expression of religious faith, dying for one's god is also one of the most difficult concepts for modern observers of religion to understand. This is especially true in the West where martyrdom has all but disappeared and martyrs in other cultures are often viewed skeptically and dismissed as fanatics. This book seeks to foster a greater understanding of these acts of religious devotion by explaining how martyrdom has historically been viewed in the world's major religions. It provides the first sustained cross-cultural examination of this fascinating aspect of religious life. Margaret Cormack begins with an introduction that sets out a definition of martyrdom that serves as the point of departure for the rest of the volume. Then scholars of Christianity, Judaism, Hinduism, and Islam examine martyrdom in specific religious cultures. Spanning 4000 years of history and ranging from Saul in the Hebrew Bible to Sati immolations in present-day India, this book provides a wealth of insight into an often noted but rarely understood cultural phenomenon.

Martyrdom, Self-Sacrifice, and Self-Immolation Margo Kitts, 2018-05-01 Suicide in the forms of martyrdom, self-sacrifice, or self-immolation is perennially controversial. Should it rightly be termed suicide? Does religion sanction it? Should it be celebrated or anathematized? At least some idealization of such self-chosen deaths is found in every religious tradition treated in this volume, from ascetic heroes who conquer their passions to save others by dying to righteous warriors who suffer and die valiantly while challenging the status quo. At the same time, there are persistent disputes about the concepts used to justify these deaths, such as altruism, heroism, and religion itself. In this volume, renowned scholars bring their literary and historical expertise to bear on the contested issue of religiously sanctioned suicide. Three examine contemporary movements with disputed classical roots, while eleven look at classical religious literatures which variously laud and disparage figures who invite self-harm to the point of death. Overall, the volume offers an important scholarly corrective to the axiom that religious traditions simply and always embrace life at any cost.

Political Self-Sacrifice K. M. Fierke, 2013 This book examines a variety of different forms of political self sacrifice including hunger strikes self burning and non violent martyrdom

A Fatal Addiction Thomas Block, 2012 America one of the most religious countries in the world is also the most violent Do God and war define the American spirit as much as apple pie and baseball This unsettling book illustrates how bellicose war like language is used to explain the spiritual quest It explores the violence of God tradition as it exists in all religions including Buddhism and then examines how this dynamic is flipped with political leaders using spiritual and religious language to sell war to the general public Although God and religion have often been used to sell war in the United States this has been especially true since 9 11 After surveying the relationship of war and the spiritual quest in the major world religions this study concludes with an overview of how that dynamic has affected the contemporary American public discourse on war Does this intermingling of war and spirituality prepare the population for the coming of war The institutional blending of the sacred and human aggression appear to be fundamental to human society The second section of the book concentrates on the political language and speeches of American politicians since 2002 following the run up to the Iraq war and its continuation over the past decade showing how this mystical war conflation permeates American society

Religion and Violence Dominic Arcamone,2016-02-25 The aim of Religion and Violence is to engage dialectically key symbols of religiously motivated violence through the insights of Bernard Lonergan Sociologists and psychologists argue the link between religion and violence but religion is viewed more as part of the problem and not part of the solution to violence Bernard Lonergan s insights have helped the author arrive at a number of conclusions regarding the link between religion and violence He argues that there is a difference between distorted religion and genuine religion between authenticity and inauthenticity of the subject Distorted religion has the capacity to shape traditions in ways that justify violence while genuine religion helps persons helps them make different moral decisions when confronted with situations of conflict and aims to explore new ways of understanding themselves as shaping history toward progress

The Bahá'í Magazine ,1928 **Star of the West** ,1928 **Philosophy and Religion** James Hinton,1881 **Martyrdom and Sacrifice in Islam** Meir Hatina,2016-11-14 Over the years the belief system around self sacrifice has become key to understanding the Middle East and its political relationships with the West although much of the literature and conversation has been restricted to modern concepts of jihadism The recent spate of scholarship relating to suicide bombers and jihadists studies these concepts without a broader understanding of the principle of martyrdom This book expands on the chronology of self sacrifice within Islam and contextualises the use of suicide bombings using details of the rise of martyrdom in places such as Iraq Lebanon Chechnya and Pakistan It historicises the background in which jihad has been glorified while also exploring contemporary methods of recruitment like the use of the internet The authors pay close attention to the different sects and factions of Islam and the differing interpretations of jihad that accompany these ideologies In the current political climate a book that explores martyrdom within the framework of historical perspectives geographical regions and the influence of outside cultures is essential

Jewish and Christian Women in the Ancient Mediterranean Sara Parks,Shayna Sheinfeld,Meredith J. C. Warren,2021-12-30 Winner of the 2023 CSBS Frank W Beare Award This engaging and accessible

Ultimate Sacrifice Clayton Fordahl,2020-03-05 This book presents an interpretive macro historical and sociological account of martyrdom Moving away from the notion of martyrdom as an object of individual behavior and seeing it instead as a significant cultural work performed by communities in the wake of a violent death it provides a novel interpretation of Western political and religious history In addition to thus redressing the disproportionate attention given to the concept s relationship to Islam the author offers a new perspective on two defining historical processes secularization and the rise of modern sovereignty in the form of the nation state An innovative analysis of the role of sacrifice in contemporary culture which constitutes a timely critique of long dominant theories of disenchantment and the privatization of religion The Ultimate Sacrifice will appeal to sociologists and social theorists with interests in religion politics and the connection between the two

Philosophy and religion; selections from the MSS. of J. Hinton, ed. by C. Haddon James Hinton,1881 **The Global Resurgence of Religion and the Transformation of International Relations** S. Thomas,2005-02-04 This book is about the global resurgence of culture and religion in international relations and how these social changes are transforming our understanding of International Relation theory and the key policy related issue areas in world politics It is evident in the on going debates over the root causes of 9 11 that there are many scholars journalists and members of the public who still believe culture and religion can be explained away by appeals to more basic economic social or political forces in society Therefore The Global Resurgence of Religion and the Transformation of International Relations presents an argument for taking culture and particularly religion as social forces that are important for understanding world politics in the post Westphalian era **Self-Harm** Fiona Gardner,2013-07-04 Self harm is worryingly common in young women and is often used

as a way of easing emotional suffering Self Harm A Psychotherapeutic Approach explores the issues involved from the perspective of a psychoanalytical psychotherapist Fiona Gardner examines these issues through extensive clinical material and an analysis of the social and cultural influences behind self harm This book will be of interest to all those working with those who are harming themselves including psychotherapists school counsellors social workers and mental health clinicians

U.S. War-Culture, Sacrifice and Salvation Kelly Denton-Borhaug, 2014-10-20 The military industrial complex in the United States has grown exponentially in recent decades yet the realities of war remain invisible to most Americans The U S has created a culture in which sacrificial rhetoric is the norm when dealing in war This culture has been enabled because popular American Christian understandings of redemption rely so heavily on the sacrificial U S War Culture *Sacrifice and Salvation* explores how the concept of Christian redemption has been manipulated to create a mentality of necessary sacrifice The study reveals the links between Christian notions of salvation and sacrifice and the aims of the military industrial complex
