in Japan Steve Rabson, 2012-01-31 The experiences of Okinawans in mainland Japan like those of migrant minorities elsewhere derive from a legacy of colonialism war and alien rule Okinawans have long coped with a society in which differences are often considered strange or wrong and with a central government that has imposed a mono cultural standard in education publicly priding itself on the nation s mythical homogeneity They have felt strong pressures to assimilate by adopting mainland Japanese culture and concealing or discarding their own Recently however a growing pride in roots has inspired more Okinawan migrants and their descendants to embrace their own history and culture and to speak out against inequities Their experiences like those of minorities in other countries have opened them to an acute and illuminating perspective given voice in personal testimony literature and song Although much has been written on Okinawan emigration abroad this is the first book in English to consider the Okinawan diaspora in Japan It is based on a wide variety of secondary and primary sources including interviews conducted by the author in the greater Osaka area over a two year period The work begins with the experiences of women who worked in Osaka s spinning factories in the early twentieth century covers the years of the Pacific War and the prolonged U S military occupation of Okinawa and finally treats the period following Okinawa s reversion to Japan in 1972 Throughout it examines the impact of government and corporate policies along with popular attitudes for a compelling account of the Okinawan diaspora in the context of contemporary Japan s struggle to acknowledge its multiethnic society The Okinawan Diaspora in Japan will find a ready audience among students of contemporary Japanese history and East Asian societies as well as general readers interested in Okinawans and other minorities living in Japan More than Cricket and Football Joel Nathan Rosen, Maureen M. proliferation of stars imported and now exported to and from North America provides some better examples of sport s international power It also creates a very new kind of sport celebrity albeit one that often shows a rather limited reach beyond that star s own country or continent Thus rather than focusing on the Western Hemisphere this collection of some of world sport s most heralded celebrities including stars of Motocross surfing distance running and more serves as a sort of passport to many places that make up our global sporting environment *Gaijin Yokozuna* Mark Panek,2006-05-31 At the age of eighteen Chad Rowan left his home in rural Hawai i for Tokyo with visions of becoming a star athlete in Japan s national sport sumo But upon his arrival he was shocked less by the city crowds and the winter cold than by having to scrub toilets and answer to fifteen year olds who had preceded him at the sumo beya Rowan spoke no Japanese Of Japanese culture he knew only what little his father a former tour bus driver in Hawai i had been able to tell him as they drove to the airport And he had never before set foot in a sumo ring Five years later against the backdrop of rising U S Japan economic tension Rowan became the first gaijin non Japanese to advance to sumo s top rank yokozuna His historic promotion was more a cultural accomplishment than an athletic one since yokozuna are expected to embody highly prized Japanese values such as hard work patience strength and hinkaku a special kind of dignity thought to be available only to Japanese He was promoted ahead of his two main rivals the brothers Koji and Masaru Hanada who had been raised in the sumo beya run by their father the former sumo great Takanohana I Perhaps the defining moment of the gaijin s unique success occurred at the 1998 Nagano Olympics when Rowan chosen to personify Japanese to one of the largest television audiences in history performed a sacred sumo ritual at the opening ceremony *Gaijin Yokozuna* chronicles the events leading to that improbable scene at Nagano and beyond tracing Rowan s life from his Hawai i upbringing to his 2001 retirement ceremony Along the way it briefly examines the careers of two Hawai i born sumotori who paved the way for Rowan Jesse Kuhaulua Takamiyama and Salevaa Atisanoe Konishiki The author shares stories from family members coaches friends fellow sumo competitors and of course Rowan himself whom he accompanied on three Japan wide exhibition tours The work is further informed by volumes of secondary source material on sumo Japanese culture and local Hawai i culture **Japanese Taiwan** Andrew D. Culture in Mind Bradd Shore, 1998-10-29 Despite the recognized importance of cultural diversity in understanding the modern world the emerging science of cognitive psychology has relied far more on experimental psychology neurobiology and computer science than on cultural anthropology for its models of how we think In this exciting new book anthropologist Bradd Shore has created the first study linking multi culturalism to cognitive psychology exploring the complex relationship between culture in public institutions and in mental representations In so doing he answers in a completely new way the age old question of whether humans are basically the same psychologically independent of cultures or basically diverse because of cultural differences The first half of the book emphasizes cultural models from Australian Aboriginal rituals and Samoan comedy skits to more familiar terrain including a study of baseball as a cultural model for Americans Along the way the author sheds new and novel light on many familiar institutions from educational curricula and shopping malls to modular furniture and cyberpunk fiction These observations are then linked to theoretical developments in linguistics semiotics and neuroscience creating a bold new approach to understanding the role of culture in everyday meaning making The author argues that culture must be considered an intrinsic component of the human mind to a degree that most psychologists and even many anthropologists have not recognized This new position of cultural models will make absorbing reading for psychologists anthropologists linguists and philosophers and to anyone interested in the issues of cultural diversity multiculturalism or cognitive science in general
