

RUSSELL BEDFORD - THOUGHT LEADERSHIP: ESG RISK AND REPORTING

The impact of climate change and how organisations can move towards sustainability

Senior leaders at Russell Bedford International analyse risks associated with climate degradation and evaluate how a hard-hit insurance industry can prepare, respond and educate through Centres of Excellence to protect communities and economies towards a sustainable future.

Climate change is no longer a distant threat. The past decade included the hottest years on record, with an increase in extreme weather events such as floods, heat waves, wildfires, and rising sea levels. The World Economic Forum's Global Risks Perception Survey (GRPS) of nearly 1,500 global experts ranked extreme weather events as the second-most significant risk in the short term and predicted it would be the top risk in ten years.

Lattuca, 2001 Interdisciplinarity a favorite buzzword of faculty and administrators has been appropriated to describe so many academic pursuits that it is virtually meaningless With a writing style that is accessible fluid and engaging Lisa Lattuca remedies this confusion with an original conceptualization of interdisciplinarity based on interviews with faculty who are engaged in its practice Whether exploring the connections between apparently related disciplines such as English and women s studies or such seemingly disparate fields as economics and theology Lattuca moves away from previous definitions based on the degrees of integration across disciplines and instead focuses on the nature of the inquiry behind the work She organizes her findings around the processes through which faculty pursue interdisciplinarity the contexts institutional departmental and disciplinary in which faculty are working and the ways in which those contexts relate to and affect the interdisciplinary work Her findings result in useful suggestions for individuals concerned with the meaning of faculty work the role and impact of disciplines in academe today and the kinds of issues that should guide the evaluation of faculty scholarship **Studies on Industrial Productivity** Various Authors, 2018-07-31 Originally published between 1994 and 2000 the volumes in this set discuss the successful implementation of radical technological innovations within business organizations issues of Chinese rural rural and rural urban migration a number of subjects of significance for labor and economic policy especially the role of U S tax policy in the relocation of jobs from the continental USA to Puerto Rico the impact an immigrant community in the USA has on the type and quantity of foreign goods available the relation between technology and the exercise of sea power problems related to investment planning capacity additions and choice of technology in dynamic manufacturing systems OECD Food and Agricultural Reviews Innovation, Agricultural Productivity and Sustainability in Sweden OECD, 2018-06-08 Agricultural innovation in Sweden has sought to improve the competitiveness and sustainability of the agri food sector by ensuring a high level of environmental and animal welfare standards while raising the productivity and financial viability of farms **Essentials of Business Research Methods** Joe F.
