Herbert,1879 The Hero and the Misfit Albert Rosenberg,2020-01-29 The future of man and society rests with man himself Just as our technological future depends on our understanding of the working of nature so our social future depends largely on our scientific understanding of the future of the workings of society If we are to control and direct social life toward ends we believe to be worthwhile we must first be able to explain and understand the mechanism of society in general and for our own society in particular This study called social science is obviously of vital importance today and for this reason it has been selected as the subject of this book Virtual Selves, Real Persons Richard S. Hallam,2012-04-19 This book looks at how to

define persons and selves and the ways in which different disciplines have dealt with this topic The Scientist as Philosopher Friedel Weinert,2004-11-25 Explores the interaction between science and philosophy by illustrating how we have had to reconsider time honored notions in light of scientific discoveries Back cover God, Science, and the Buddha

Wijeratne Weerakkody,2010-07-30 Here in this book God Science and the Buddha my genuine effort is to present the reader with some insight into the existence of life and matter within the concept of universal space time in order to understand how and why mind is declared by the Buddha as the forerunner of all existence in eternity and infinity of the concept of space time Learning to understand the culmination of all the energies contained within the concept of space time would unify theology science and the nature in the noble name of God without division into mind based diverse theological images The rare opportunity in human form of life is too precious to be neglected and wasted within the short span of existence in this sensual realm of life In order to be comfortable with this understanding the author seeks to discuss scientific revelations in cosmology physics and physiology along with theology religions philosophy and Buddhism which explains the existence of the nature in its true form
