Eve of Destruction John Hughes-Wilson, 2021-04-22 It is certainly a good thing for the world that Hitler s crowd or Stalin s did not discover this atomic bomb It seems to be the most terrible thing ever discovered US President Harry S Truman Truman evidently understood the terrifying power of atomic weaponry but no one could have realised its full potential when he ordered the bombings of Hiroshima and Nagasaki in August 1945 Those military attacks along with the disasters at the Fukushima and Chernobyl nuclear reactors might immediately spring to mind at the mention of nuclear destruction but the vast majority of the events recorded in this book are entirely unknown to most people This book records the facts many of them still shrouded in secrecy which show a worrying truth we have teetered precariously on the brink of Armageddon far more frequently than the general public realises Since that first and last atomic war in 1945 there have been a terrifying number of nuclear accidents and mishaps from the careless or accidental to the genuinely intentional and only narrowly averted Despite the catastrophic nature of any nuclear conflict we have come to the very borders of such a situation ten times since the 1960s Most people know about the Cuba Missile Crisis and a few about Operation Able Archer in 1984 which if anything was even more frightening than Cuba but there have been eight other occasions that might easily have toppled over into outright war These were potential conflicts but there have been other accidents such as the reactor
