Scots Law And The Mentally Handicapped:

The Care and Training of the Mentally Handicapped Charles Henry Hallas, William I. Fraser, Ronald Charles MacGillivray, 1978 **Scots Law and the Mentally Handicapped** Adrian D. Ward, 1984 The Modern Management of Mental Handicap G.B. Simon, 2012-12-06 The aim of this book is to provide parents staff and others involved with mentally handicapped children and adults with up to date basic information and advice in their management Methods of care treatment and management of a heterogeneous group of people such as the mentally handicapped must of necessity include many disciplines if they are to be given an adequate service This book is an attempt to bring the knowledge and experience of many people together The size of the book could have been increased to include more detail on other aspects of the subject but this might easily have diminished its value as a convenient reference to as wide a readership as possible both professional and non professional The contents deal essentially with the needs of the severely mentally handicapped and should have an application in most parts of the world Much of the information and advice on services and on treatment and management is based on the experience of specialists working in the United Kingdom this now being standard practice in most parts of the world The Learning Society and people with learning difficulties Riddell, Sheila, Baron, Stephen, 2001-05-16 There is a growing concern about the social exclusion of a range of minority groups including people with learning difficulties Lifelong learning is seen as one of the central means of challenging the exclusion of this group but also of enhancing their economic status This book demonstrates that policy based on human capital premises has produced forms of lifelong learning which exacerbate the marginalisation of people with learning difficulties The Learning Society and people with learning difficulties reviews the range of policy fields which increasingly intervene in the lifelong learning arena maps the agencies involved in service delivery and describes their sometimes conflicting ethos provides in depth accounts of the lived experiences of individuals with learning difficulties as they navigate lifelong learning options Its exploration of the links between community care education training employment housing and benefits policies in the context of lifelong learning is unique This book makes a significant contribution to debates about how people with learning difficulties may achieve social inclusion and the part which lifelong learning may play in this It is therefore invaluable reading for policy makers practitioners and academics interested in these issues **Aggression and Violence** Brodie Paterson, John Turnbull, 1999-11-11 Aggression and violence directed towards staff in the caring services is a growing problem and one that is receiving increasing attention Despite the interest and concern few successful approaches to the subject have been devised leaving the majority of staff feeling vulnerable This book addresses the issue of violence from a theoretical organisational legal and practice perspective in order to provide a framework for future practice in this area Particular attention is paid to the provision of support for victims **SCOLAG** ,1993 *The Scottish Law Reporter* ,1885 The Scots Law Times ,1919 *New Medicalism and the Mental Health Act* John Fanning, 2018-08-09 Ten years have passed

since the Mental Health Act MHA 2007 came into force in England An amending statute the Act reformed the MHA 1983 and reshaped the law governing the compulsory care and treatment of people suffering from mental disorders Primarily driven by concerns about risk it sought to remove legalistic obstacles to civil commitment and extend the law s coercive reach into the community At the time of its introduction the 2007 Act was written off as a retrograde step and a missed opportunity for radical rights focused reform Despite this little attention has been paid to its impact in the years since Published to coincide with the tenth anniversary of the 2007 Act this book offers a timely evaluation of mental health law and policy in England It argues that the current MHA defies easy categorisation within any of the descriptive models which have customarily narrated the mechanics of civil commitment namely legalism new legalism and medicalism It therefore makes the case for a new model new medicalism to account for the 2007 Act s enhancement of the discretion of mental health professionals for the express purposes of facilitating the management of situations of risk In doing so the book critically examines the problems inherent in civil commitment frameworks organised around the concept of risk explores the theoretical foundations of new medicalism considers the challenges facing proponents of future reform in the era of the UN Convention on the Rights of Persons with Disabilities and reflects on the 2007 Act s practical impact *England and Wales, Ireland, Scotland, Cyprus*

Wolfgang Faber,Brigitta Lurger,2009-04-27 This is the second volume of a series of national reports on basic issues concerning the acquisition and loss of ownership of movable assets The series is planned to cover 27 European legal systems distributed over six volumes Starting with general property law issues like the concepts of ownership and possession employed in the different legal systems and the means by which they are protected the reports primarily focus on the derivative transfer of ownership but their scope extends to good faith acquisition from a non owner acquisitive prescription processing and commingling and further related issues The reports prepared by national property law experts provide the reader with detailed information about the rules case law and legal literature in the jurisdictions concerned They serve as a starting point for further comparative research in property law and also as a tool for practitioners searching for information on foreign legal systems
