Scottish Invention Of English Literature:

The Scottish Invention of English Literature Robert Crawford, 1998-06-28 The Scottish Invention of English Literature explores the origins of the teaching of English literature in the academy It demonstrates how the subject began in eighteenth century Scottish universities before being exported to America and other countries The emergence of English as an institutionalised university subject was linked to the search for distinctive cultural identities throughout the English speaking world This book explores the role the discipline played in administering restraints on the expression of indigenous literary forms and shows how the growing professionalisation of English as a subject offered a breeding ground for academics and writers with an interest in native identity and cultural nationalism This book is a comprehensive account of the historical origins of the university subject of English literature and provides a wealth of new material on its particular Scottish provenance

The Scottish Invention of English Literature Robert Crawford, 1998 **Edinburgh History of Scottish Literature: From Columba to the Union (until 1707)** Ian Brown, 2006-11-13 The History begins with the first full scale critical consideration of Scotland s earliest literature drawn from the diverse cultures and languages of its early peoples The first volume covers the literature produced during the medieval and early modern period in Scotland surveying the riches of Scottish work in Gaelic Welsh Old Norse Old English and Old French as well as in Latin and Scots New scholarship is brought to bear not only on imaginative literature but also law politics theology and philosophy all placed in the context of the evolution of Scotland s geography history languages and material cultures from our earliest times up to 1707

Scottish Literature Gerard Carruthers, 2009-04-17 This guide combines detailed literary history with discussion of contemporary debates about Scottishness The book considers the rise of Scottish Studies the development of a national literature and issues of cultural nationalism Beginning in the medieval period during a time of nation building the book goes on to focus on the Scots revival of the eighteenth and nineteenth centuries before moving on to discuss the literary renaissance of the twentieth century Debates concerning Celticism and Gaelic take place alongside discussion of key Scottish writers such as William Dunbar Robert Burns Walter Scott Thomas Carlyle Margaret Oliphant Hugh MacDiarmid Alasdair Gray Janice Galloway and Liz Lochhead The book also considers emigre writers to Scotland Scottish literature in relation to England the United States and Ireland and postcolonialism and other theories that shed fresh light on the current status and future of Scottish literature
