Savage,2013-06-26 The Guided Reader to Teaching and Learning Music draws on extracts from the published work of some of the most influential education writers to provide insight guidance and clarity about key issues affecting Music teachers The book brings together key extracts from classic and contemporary writing and contextualises these in both theoretical and practical terms The extracts are accompanied by a summary of the key ideas and issues raised questions to promote discussion and reflective practice and annotated further reading lists to extend thinking Taking a thematic approach and including a short introduction to each theme the chapters cover Analysing your own work as a music teacher Concepts of musicality Notions of musical development and progression Pedagogies for teaching music musically Music inside and outside the school Formal informal and non formal approaches to music education Productive methods of assessment and transition for music education Creativity and music education Supporting the gifted and talented in music Using ICT within music education Aimed at trainee and newly qualified teachers including those working towards Masters level qualifications as well practicing teachers this accessible but critically provocative text will be an essential resource for all teachers that wish to deepen their understanding of Music Education      Children's Drawing and Writing Diane Mavers,2011-06-23 Children s everyday drawing and writing are paradoxical charmingly engaging yet seemingly unremarkable in their ordinariness This book takes a very close look at what passes by largely unnoticed at home and in school copying texts fleetingly present then gone a picture drawn after the valued work of writing has been completed Examining features of children s text making that are commonly disregarded because of their very ordinariness or dismissed as mistakes because they are flawed or lacking the book examines features such as shading arrangement and forms of shorthand and uncovers an intensity of effort in the making of meaning In decisively shifting the focus away from insufficiency to what children can do and to the work they invest in the texts they make the lens taken here reveals resourcefulness and purposiveness The unremarkable turns out to be remarkable This has the most profound implications for what takes place at school and beyond
