*Rethinking Our Story* G. Douglas Hammack,2014-01-13 If it ain t broke don t fix it But it s no secret that the Christian church is broke and does need fixing Despite great effort things are going badly for us We ve tried trendy and tech savvy entrepreneurial and coffee house gritty They re not helping Our problem is deeper than that Our problem is our instincts instincts informed by our story There was a time when the Christian church was a powerfully transformative presence in society It can be again but it will require radical rethinking of the story that informs our instincts And it s time It s been five hundred years since the Reformation our last major update Today is a pivotal moment in history With our worldview upended by quantum physics history is demanding we renew the Christian story for our times Rethinking Our Story reframes the elements of the Christian narrative for the new era It explores quantum ways of thinking about God human nature Jesus salvation and the afterlife The

future of the church and the health of our society depend on our willingness to rethink retell and live out a better story We will either update our instincts and contribute to the earth s well being or disappear into oblivion **The Revelational Knowledge of God** Francis Elijah Ndunagum,2021-08-26 Many today in Christianity frequently talk about having revelation knowledge of God In a biblically related topic it is common to find many angles to the same topic This leaves one with the belief that there is no singular interpretation to any aspect of the word of God The angle from which the word of God is portrayed can be said to be right if basically it does not contradict known passages of the scriptures but seeks to present it in a hitherto unknown angle Many outside of the body of Christ have used this diverse presentation of the word of God negatively against the church saying that the Bible contradicts itself which is not true It is my aim in this publication to try and shed more light on the revelation of God so that people will open up their hearts to the truth instead of debating on things that are unprofitable Blind people who have to rely on the sense of touch and a guide to identify things around them It is impossible for a blind man to accurately describe an object because of his blindness At best they can put across what they believe they have felt by way of touch If blind men are gathered an animal and asked to describe a specific part they are made to feel the descriptions given will vary according to the part they touch All put together the various descriptions will depict the animal touched but they may not be able to name the animal Every animal has parts common to them such as the head body and legs etc The varied descriptions they give will nonetheless be correct but not being able to physically see the animal will lead to some measure of limitation in their descriptions God reveals Himself diversely to his people and this predominant revelation of God in a particular manner determines the understanding of the one to whom God has chosen to reveal himself to in such manner These revelations are directly related to His attributes
