Knight,2022-02-03 The destruction and deposition of metalwork is a widely recognised phenomenon across Bronze Age Europe Weapons were decommissioned and thrown into rivers axes were fragmented and piled in hoards and ornaments were crushed contorted and placed in certain landscapes Interpretation of this material is often considered in terms of whether such acts should be considered ritual offerings or functional acts for storing scrapping and recycling the metal This book approaches this debate from a fresh perspective by focusing on how the metalwork was destroyed and deposited as a means to understand the reasons behind the process To achieve this this study draws on experimental archaeology as well as developing a framework for assessing what can be considered deliberate destruction Understanding these processes not only helps us to recognise how destruction happened but also gives us insights into the individuals involved in these practices Through an examination of metalwork from south west Britain it is possible to observe the complexities involved at a localised level in the acts of destruction and deposition as well as how they were linked to people and places This case study is used to consider the social role of destruction and deposition more broadly in the Bronze Age highlighting how it transformed over time and space     **LIFE** ,1956-03-19 LIFE Magazine is the treasured photographic magazine that chronicled the 20th Century It now lives on at LIFE com the largest most amazing collection of professional photography on the internet Users can browse search and view photos of today s people and events They have free access to share print and post images for personal use     **LIFE** ,1956-03-19 LIFE Magazine is the treasured photographic magazine that chronicled the 20th Century It now lives on at LIFE com the largest most amazing collection of professional photography on the internet Users can browse search and view photos of today s people and events They have free access to share print and post images for personal use
