Seurat At Gravelines The Last Landscapes:

Seurat at Gravelines Ellen Wardwell Lee, Georges Seurat, Jonathan Crary, William M. Butler, 1990 a powerful lesson in what a museum can do when it draws on its own resources The Washington Times Seen individually or as an ensemble these compositions represent a culminating phase of Seurat's development at once lucid subtle and strong In its clear focus upon an important aspect of Seurat's work it nevertheless stands as a welcome addition to the literature on that preeminent master of Neo Impressionism Choice This illuminating introduction to Seurat's unusual art explores the four different views of Gravelines a small seaport in Normandy which Seurat painted in 1890 the summer before his death The book contains reproductions and full documentation of Seurat's Gravelines works and analyzes Seurat's distinctive approach to color design and perception

Georges Seurat Michelle Foa, 2015-07-14 This revelatory study of Georges Seurat 1859-1891 explores the artist's profound interest in theories of visual perception and analyzes how they influenced his celebrated seascape urban and suburban scenes While Seurat is known for his innovative use of color theory to develop his pointillist technique this book is the first to underscore the centrality of diverse ideas about vision to his seascapes figural paintings and drawings Michelle Foa highlights the importance of the scientist Hermann von Helmholtz whose work on the physiology of vision directly shaped the artist's approach Foa contends that Seurat's body of work constitutes a far reaching investigation into various modes of visual engagement with the world and into the different states of mind that visual experiences can produce Foa's analysis also brings to light Seurat's sustained exploration of long standing and new forms of illusionism in art Beautifully illustrated with more than 140 paintings and drawings this book serves as an essential reference on Seurat

Seurat, 1859-1891 Robert L. Herbert, Georges Seurat, 1991 A volume which embodies an entire generation of scholarship on the artist Seurat's brief but brilliant career is traced from his early academic drawings of the 1870s to the paintings of popular entertainments and the serene landscapes of his final years

Seurat Robert L. Herbert, 2001-01-01 This collection of the most influential of Herbert's writings on Seurat long out of print bear out the praise he has received for his ability to mix a deep knowledge of paintings and drawings as physical objects with an acute awareness of the way they embody ideas and can be understood as social documents This book will appeal both to the general reader and to the student of French nineteenth century art

Neo-Impressionist Painters Russell T. Clement, Annick Houzé, 1999-09-30 This reference provides biographical historical and critical information on Neo Impressionist painting and its most significant painters Neo Impressionism also called Divisionism and Pointillism was one of the most innovative and startling late 19th century French avant garde styles Over 2 000 books articles manuscripts and audiovisual materials as well as chronologies biographical sketches and exhibition lists are cited Also provided are both primary and secondary bibliographies for each artist Secondary bibliographies capture details about each artist's life and career relationships with other artists work in various media iconography critical reception and interpretation archival sources and more Art scholars will appreciate the

comprehensive bibliographic research contained in this one volume Entries on Neo Impressionism in general on exhibitions and the primary and secondary bibliographies of artists follow an introduction about Neo Impressionism and a Neo Impressionism chronology that spans the years 1881 to 1905 An index of art works and an index of personal names complete the volume

Pissarro, Neo-Impressionism, and the Spaces of the Avant-Garde Martha Ward, 1996-07 Martha Ward tracks the development and reception of neo impressionism revealing how the artists and critics of the French art world of the 1880s and 1890s created painting's first modern vanguard movement Paying particular attention to the participation of Camille Pissarro the only older artist to join the otherwise youthful movement Ward sets the neo impressionists individual achievements in the context of a generational struggle to redefine the purposes of painting She describes the conditions of display distribution and interpretation that the neo impressionists challenged and explains how these artists sought to circulate their own work outside of the prevailing system Paintings Ward argues often anticipate and respond to their own conditions of display and use and in the case of the neo impressionists the artists relations to market forces and exhibition spaces had a decisive impact on their art Ward details the changes in art dealing and chronicles how these and new freedoms for the press made artistic vanguardism possible while at the same time affecting the content of painting She also provides a nuanced account of the neo impressionists engagements with anarchism and traces the gradual undermining of any strong correlation between artistic allegiance and political direction in the art world of the 1890s Throughout there are sensitive discussions of such artists as Georges Seurat and Paul Signac as well as Pissarro Yet the touchstone of the book is Pissarro's intricate relationship to the various factions of the Paris art world

Suspensions of Perception Jonathan Crary, 2001-08-24 *Suspensions of Perception* decisively relocates the problem of aesthetic contemplation within a broader collective encounter with the unstable nature of perception in psychology philosophy neurology early cinema and photography *Suspensions of Perception* is a major historical study of human attention and its volatile role in modern Western culture It argues that the ways in which we intently look at or listen to anything result from crucial changes in the nature of perception that can be traced back to the second half of the nineteenth century Focusing on the period from about 1880 to 1905 Jonathan Crary examines the connections between the modernization of subjectivity and the dramatic expansion and industrialization of visual auditory culture At the core of his project is the paradoxical nature of modern attention which was both a fundamental condition of individual freedom creativity and experience and a central element in the efficient functioning of economic and disciplinary institutions as well as the emerging spaces of mass consumption and spectacle Crary approaches these issues through multiple analyses of single works by three key modernist painters Manet Seurat and Cezanne who each engaged in a singular confrontation with the disruptions vacancies and rifts within a perceptual field Each in his own way discovered that sustained attentiveness rather than fixing or securing the world led to perceptual disintegration and loss of presence and each used this discovery as the basis for a reinvention of representational practices *Suspensions of Perception* decisively

relocates the problem of aesthetic contemplation within a broader collective encounter with the unstable nature of perception in psychology philosophy neurology early cinema and photography In doing so it provides a historical framework for understanding the current social crisis of attention amid the accelerating metamorphoses of our contemporary technological culture

A Theory of the Tache in Nineteenth-Century Painting ?stein Sj?ad,2017-07-05 Without question the tache blot patch stain is a central and recurring motif in nineteenth century modernist painting Manet's and the Impressionists rejection of academic finish produced a surface where the strokes of paint were presented directly as patches or blots then indirectly as legible signs C nne Seurat and Signac painted exclusively with patches or dots Through a series of close readings this book looks at the tache as one of the most important features in nineteenth century modernism The tache is a potential meeting point between text and image and a pure trace of the artist's body Even though each manifestation of tacheism generates its own specific cultural effects this book represents the first time a scholar has looked at tacheism as a hidden continuum within modern art With a methodological framework drawn from the semiotics of text and image the author introduces a much needed fine tuning to the classic terms index symbol and icon The concept of the tache as a crossing of sign types enables finer distinctions and observations than have been available thus far within the Peircean tradition The sign crossing theory opens onto the whole terrain of interaction between visual art art criticism literature philosophy and psychology

Making It Modern: Essays on the Art of the Now Linda Nochlin,2022-03-08 A selection of key essays on art from the nineteenth century to the present day by one of the most influential voices in art history This illustrated collection of essays brings together some of art historian Linda Nochlin's most important writings on modernism and modernity from across her six decade career Before the publication of her seminal essay on feminism in art *Why Have There Been No Great Women Artists* she had already firmly established herself as a major practitioner of a politically sophisticated and class conscious social art history Nochlin was part of an important cohort of scholars writing on modernity determined to rethink the narratives of the subject under the pressure of contemporary events such as student uprisings the women's liberation movement and the Vietnam War with the help of politically engaged literary criticism that was emerging at the same time Nochlin embraced Charles Baudelaire's conviction that modernity is meant to be of one's time and that the role of an art historian was to understand the art of the past not only in its own historical context but according to the urgencies of the contemporary world From academic debates about the nude in the eighteenth century to the work of Robert Gober in the twenty first whatever she turned her analytic eye to was conceived as the art of the now Including seven previously unpublished pieces this collection highlights the breadth and diversity of Nochlin's output across the decades including discussions on colonialism fashion and sex
