Crime and Deviance Edwin McCarthy Lemert, 2000 This volume brings together the significant essays and previously unpublished writings of Edwin M Lemert Lemert was one of the first authors to establish the foundations of the modern sociology of crime and social deviance and wrote with empirical insight on various related topics *Lost Souls* James Wright, 2018-05-11 What is the state of contemporary American morality From their original conception in Christian scripture to their assimilation into Western culture the Seven Deadly Sins lust greed envy pride and all the rest have guided human morality steering human behavior and psychology away from evil and toward a full embrace of the good But their hold on modern life is increasingly tenuous Indeed one may observe that these days deadly sin is far more common and more commonly practiced than its virtuous counterparts humility charity kindness industriousness and chastity Without greed there is no economy without anger no politics and without pride and envy surely less motivation and competition would exist James D Wright carefully examines the complexities and ambiguities in modern society in the context of the seven deadly sins and their corresponding virtues Are we all lost souls condemned by our immoral deeds or are the trappings of older sin deteriorating Is it time finally to reconsider the classifications of evil and good Wright uses each chapter to consider how the social sciences have operationalized each sin how they have been studied and what lessons have been learned over time He reviews recent trends and contemplates the societal costs and benefits of the behaviors in question *Lost Souls* emerges then as a meditation on contemporary sin concluding that the line between guilt and innocence right and wrong is often very thin

God & Culture D. A. Carson, John Woodbridge, 2020-07-30 This book examines a number of facets of contemporary culture and sets forth what thoughtful Christians have been and should be thinking about each one Written in honor of Carl F H Henry on the occasion of his eightieth birthday the essays in *God and Culture* are on these topics and by these contributors hermeneutics Kevin J Vanhoozer pluralism D A Carson eschatology Geoffrey W Bromiley anthropology Robert J Priest psychology Warren J Heard Jr philosophy George I Mavrodes history Lewis W Spitz economics Ian Smith law Phillip E Johnson politics Sir Fred Catherwood literature Leland Ryken art Edmund P Clowney media Larry W Poland science Charles B Thaxton environment Loren Wilkinson bioethics Nigel M de S Cameron human sexuality Armand M Nicholi Jr personal life style and leisure J I Packer Each of these authors has demonstrated a profound interest in thinking Christianly about his

subject Some of the essays scan the ways previous Christians have tried to evaluate each cultural slice all of them offer some guidance regarding what Christians need to bear in mind as our culture rushes on Some contributors adopt the well known grid of H Richard Niebuhr in his classic Christ and Culture others cut fresh paths The aim throughout is to foster fidelity to Christ and his gospel while encouraging a comprehensive Christian outlook on our rapidly changing world **Sociological Noir** Kieran Flanagan,2016-10-04 Contrary to secular claims regarding the expulsion of religion modernity does in fact produce unprecedented forms whose understanding re casts the relationships between sociology and theology This book explores irruptions which disturb modernity from without fragments or deposits of history that have spectral or noir properties whether ruins collective memories or the dark Gothic or the Satanic as manifested in culture The study investigates what irrupts from these depths to unsettle our understanding of modernity so as to reveal its theological roots A ground breaking and extensive work Sociological Noir explores literature history and theology to re cast the sociological imagination in ways that inspire reflection on new configurations in modernity As such it will have wide spread appeal to sociologists and social theorists with interests in religion theology and debates on postsecularism and culture **Spiritual Theology** Simon Chan,1998-04-29 Simon Chan surveys the little explored landscape where systematic theology and godly praxis meet and he highlights the connections between Christian doctrine and Christian living **Star Trek Visions of Law and Justice** Robert H. Chaires,Bradley Stewart Chilton,2003 Star Trek Visions of Law and Justice collects fourteen articles connecting popular media with academic inquiry illustrating the connections between the future world of Star Trek and current issues in international law law and justice and the American legal system It makes an ideal text to teach students interdisciplinary academic concepts using a familiar popular media phenomenon **Guilt** Herant Katchadourian,2011-07-06 This is the first study of guilt from a wide variety of perspectives psychology psychiatry psychoanalysis evolutionary psychology anthropology six major religions four key moral philosophers and the law Katchadourian explores the ways in which guilt functions within individual lives and intimate relationships looking at behaviors that typically induce guilt in both historical and modern contexts He examines how the capacity for moral judgments develops within individuals and through evolutionary processes He then turns to the socio cultural aspects of guilt and addresses society s attempts to come to terms with guilt as culpability through the legal process This personal work draws from and integrates material from extensive primary and secondary literature Through the extensive use of literary and personal accounts it provides an intimate picture of what it is like to experience this universal emotion Written in clear and engaging prose with a touch of humor Guilt should appeal to a wide audience **Militarism, Imperialism, and Racial Accommodation** (c) ,1992 1993 Mid South Sociological Association Book Award Robert E Park has long been recognized as one of the most influential thinkers in early American sociology yet virtually all of his works appearing before 1913 were published in popular magazines and were dismissed as nonsociological muckraking In Militarism Imperialism and Racial Accommodation An Analysis and Interpretation of the Early

Writings of Robert E. Park. Stanford M. Lyman examines and reprints many of these little known works including Park's essays on German military organization, his exposé of the atrocities committed by Belgium's Leopold II in the Congo State, his studies of the black community in Winston-Salem, North Carolina, and of Booker T. Washington's agricultural education program at Tuskegee, Alabama. Lyman shows clearly that Park's essays, written outside the academy, formulated a far more complex perspective on modern modes of evil than any proposed by his contemporaries, thereby influencing sociological debates for decades to come. By writing his essays on topical subjects and by publishing them for a public audience, Park dramatized his profound belief that the struggle to achieve racial accommodation and to establish a true and lasting democracy is a concern for all. *Monsters in and Among Us* Caroline Joan Picart, Cecil E. Greek, 2007. Rather than assuming that film and the media tell us little about the reality of criminological phenomena, Gothic criminology as instantiated in this collection of essays recognizes the complementarity of critical academic and aesthetic accounts of deviant behavior as intersecting with the public policy in complex, non-reductive ways. **Logic and Sin in the Writings of Ludwig**

Wittgenstein Philip R. Shields, 1998-02-28. Demonstrates that ethical and religious concerns inform even the most technical writings on logic and language. This text also shows that for Wittgenstein the need to establish clear limitations is both a logical and an ethical demand, revealing a religious view of the world in his philosophy. *Food and Society* William C. Whit, 1995. The importance of food is undeniable. Yet because it is so close and obvious, we often fail to pay attention to it. In *Food and Society: A Sociological Approach*, author William C. Whitt attempts to develop a multi-level, multidisciplinary approach to the relationship between food and the larger world. Organized from the experiences of food consumption through its preparation, distribution, storage, and production, this book discusses the role of food in past societies, the basics of nutrition, contemporary issues including body size, food and culture, food production, world hunger, and food innovation. Pride, Manners, and Morals Andrea Branchi, 2021-11-29. In *Pride, Manners, and Morals*, Bernard Mandeville's *Anatomy of Honour*, Andrea Branchi offers a reading of the Anglo-Dutch physician and thinker's philosophical project from the hitherto neglected perspective of his lifelong interest in the theme of honour. Through an examination of Mandeville's anatomy of early eighteenth-century beliefs, practices, and manners in terms of motivating passions, the book traces the development of his thought on human nature and the origin of sociability. By making honour and its roots in the desire for recognition the central thread of Mandeville's theory of society, Andrea Branchi offers a unified reading of his work and highlights his relevance as a thinker far beyond the moral problem of commercial societies, opening up new perspectives in Mandeville's studies.

Postmodernism & a Sociology...(c), In the fifth volume in the *Studies in American Sociology Series*, Stanford M. Lyman offers commentaries on and critiques of postmodernism, poststructuralism, and deconstruction, posing questions concerning theoretical and epistemological problems arising from what appears to be a *nouvelle vague*. Postmodernism, poststructuralism, and deconstructionism are interrelated aspects of the newest theoretical development in sociology and the social sciences.

This new wave of thought challenges virtually all paradigms currently in use. In this his fifth volume in the Studies in American Sociology Series, Stanford M. Lyman offers commentaries on and critiques of this new perspective, posing questions concerning theoretical and epistemological problems arising from what appears to be a *nouvelle vague*. Among the basic themes and issues explored are the allegation that modernity has defaulted on the promise of the Enlightenment, the question of whether the rational basis for knowledge and action is still valid, the controversy over the place of metanarratives and macrosociological outlooks, and newer concerns over race, gender, sexual preferences, the self, and the Other. Professor Lyman provides empirically based and historically specific analyses of the relation of the race question to the problem of otherness and to the legal construction of racial identity in American court proceedings. Focusing on the issues of citizenship affecting European, Middle Eastern, and Asian immigrants, African Americans, and the special cases of the Chinese and Native Americans, he relates major public problems to the modern as well as the postmodern perspectives on justice. The debate over assimilation and multiculturalism, the dynamics of gender-specific emotions as expressed in six decades of Hollywood films, and the postmodern approach to deviance are each examined. He also offers proposals for a social science attuned to but critical of postmodernism and poststructuralism. Such a sociology might offer a perspective that treats the drama of social relations in the routine as well as the remarkable aspects of everyday life. Professor Lyman provides not only a new understanding of postmodernism but also a program of how to proceed with respect to its challenges.

Christian Theology
 Peter Crafts Hodgson, Robert Harlen King, 1994-01-01. This highly acclaimed and widely used volume, now in its third edition, is a collaborative presentation of the chief Christian doctrines in light of their traditional theological formulations, their historical development, and contemporary challenges. Joined by David Tracy, Langdon Gilkey, Edward Farley, Sallie McFague, and many others, Hodgson and King explore the task of theology: method, scripture, and traditions; God, revelation, creation, human being, sin, and evil; Christ and salvation; church, sacraments, the Spirit, and Christian life; the reign of God; other religions; and the Christian paradigm. Each chapter sets forth the primary shape and substance of a doctrine, its historical development, how that tradition has been challenged and transformed under the pressures of modern thought, and new and persistent issues that set the agenda for future theological work. Written with intelligence and verve, and newly updated, *Christian Theology* has proven a superlative introduction to Christianity's classical heritage and its future theological horizons. Companion volumes include *Readings in Christian Theology* and *Reconstructing Christian Theology*.

Monsters, Law, Crime
 Caroline Joan "Kay" S. Picart, 2020-11-18. *Monsters, Law, Crime* is an edited collection composed of essays written by prominent U.S. and international experts in Law, Criminology, Sociology, Anthropology, Communication, and Film. It constitutes a rigorous attempt to explore fertile interdisciplinary inquiries into monsters and monster talk and law and crime. This edited collection explores and updates contemporary discussions of the emergent and evolving frontiers of monster theory in relation to cutting-edge research on law and crime as extensions of a Gothic Criminology. This theoretical framework was

initially developed by Caroline Joan Kay S Picart a Philosophy and Film professor turned Attorney and Law professor and Cecil Greek a Sociologist Picart and Greek 2008 Picart and Greek proposed a Gothic Criminology to analyze the fertile synapses connecting the real and the reel in the flow of Gothic metaphors and narratives that abound around criminological phenomena that populate not only popular culture but also academic and public policy discourses Picart s edited collection adapts the framework to focus predominantly on law and the social sciences **Forbidden Relatives** Martin Ottenheimer,1996 CONTENIDO Laws prohibiting the marriage of relatives The reasons for U S laws against first cousin marriage European laws prohibiting the marriage of relatives European views of cousin marriage The evolutionary factor Biogenetics and first cousin marriage Culture and cousin marriage *Renewal* Colbert Rhodes,2017-07-11 Offering a deep look into the moral uncertainty in the contemporary social sciences and American society this book explores an in depth solution This solution as articulated by Pitirim A Sorokin in the 20th century is the theory of Integralism a perspective dating back to Plato Aristotle and Aquinas Sorokin initially applied Integralism by locating and analyzing three dominant super socio cultural systems over 2500 years of Graeco Roman and Western history Each super system was unified by a central philosophical principle based either on materialism the senses or the rational or the supersensory super rational A super system declines when it reaches the limits of its potential to achieve its true reality and value to be replaced by another super system Sorokin described a trendless rotation of the three super socio cultural systems The current dominant super socio cultural system in the West is a materialist version emphasizing science and technology with little thought given to supersensory super rational reality Sorokin asserted contemporary materialist culture was in a state of collapse due to the breakup of its moral values As a consequence he saw a struggle for power occurring between egoistic individuals and groups often resulting in revolutions wars and inter human strife In response to the one sided materialist view of reality the goal of Integralism is to unify all three forms of reality into an integral culture that harmoniously balances materialist and supersensory super rational orientations A solution to the contemporary moral confusion Sorokin argued can be found in the application of supra conscious intuition that would enable a human to know what is eternal in the ordinary and reach the transcendent an experience not accessible to the senses or the rational intellect alone The supra conscious is the source for reaching the supreme moral value creative unselfish altruism which can be shared by all cultures to produce peace and harmony in the world Faith without Dogma Franco Ferrarotti,2020-07-26 We live in a time of high Church membership but low Church attendance Franco Ferrarotti arguably the most important sociologist of religion alive captures the source of this paradox In the title of his new book Faith without Dogma For it is belief that propels membership while the absence of dogma results in a reticence to accept hierarchical direction from above or beyond Basing much of his analysis on the postwar struggles within Roman Catholicism Ferrarotti views the demand for religious renewal and revival as part and parcel of the emergence of broad social agendas agendas to which not even the Roman curia could remain impervious The former

easy relationships between Church and State especially authoritarian states in Europe and Latin America gave way to a critical defense of individual rights within a context of a broadened vision of Christian doctrine In addition to issues Involved in internal affairs of religion Ferrarotti explores a series of developments that have changed for all time the nature of Church survival The critical element one that goes beyond specific doctrinal accommodations is the new primary connection of Church to people rather than Church to State This came about through the widespread acceptance of science and technology as frames of intellectual reference the emergence of secularization as mediating religious claims and the creation from the Enlightenment to the Postmodern eras of civil religions The volume concludes with a set of chapters on the nature of sacred events and objects the emergence of new varieties of prayer and concludes with a chapter on the relationship of ideology to theology prepared especially for the English language edition of Faith without Dogma This is a book likely to attract a broad audience among religionists and culturologists as well as social scientists
