Knowing the Facts about Yoga John Ankerberg, John Weldon, 2012-08-30 The physical exercises of yoga are believed to prevent diseases and maintain health through bodily regulation of prana or mystical life energy Because the body is viewed as a crude layer of mind various manipulations of the physical body can affect the mind bringing enlightenment Can yoga

really bring you enlightenment Can Yoga positions used as exercise be separated from the spiritual practice What are some of the physical psychological and spiritual effects of Yoga Are there potential dangers and occult potential This book answers these questions **Houses of the Holy** Robert M. Price, 2025-02-25 In a shrinking world in which religion has become as much a motivation for war and terror as an inspiration for saintliness and benevolence it is more important than ever that we understand faiths other than our own Where did they come from How did they begin Were their legended founders real historical individuals How do their beliefs shape their actions Which faiths are mutations of older ones Many otherwise helpful introductory volumes cover only the most populous religions and fearing most readers will shy away from going deeply into important detail they wind up grossly oversimplifying By contrast Robert M Price s Houses of the Holy fills in these blanks comprehensively and does so in clear straightforward language without cheating the necessary complexity Here you will find fascinating coverage of a full dozen religious faiths including several you have likely never even heard of

Life Eunice Layton, 1988-10-25 Formerly published as Theosophy Key to Understanding this book is based on the many lectures presented by this husband and wife team addressing such questions as Is there some meaning to existence Is there life after death Will we live again How can we find inner peace The Laytons bring a common sense approach to the metaphysical concepts of Theosophy and relate them to the problems of people in their everyday lives **The Theosophist**, 1894 Guide to Indian Periodical Literature, 1976 Tibetan Yoga and Secret Doctrines, Or, Seven Books of Wisdom of the Great Path, According to the Late Lāma Kazi Dawa-Samdup's English Rendering Walter Yeeling Evans-Wentz, 2000 Focusing on the principal meditations used by Hindu and Tibetan gurus and philosophers this companion volume to Tibetan Book of the Dead contains seven authentic Tibetan yoga texts each accompanied by introductory notes and commentary Includes photos and reproductions of yoga paintings and manuscripts 9 halftones **Simplified Course of Hatha Yoga** Wallace Slater, 1966 Hatha Yoga deals with the care health and well being of the physical body through the conscious control of the vibrations of matter The Hatha yogi proceeds in consciousness from the physical to the mental to the spiritual leading to the development of the inner spiritual self manifesting through thoughts feelings and actions in the outer world Hatha Yoga comprehensively reveals the ancient wisdom of yoga or union of spirit and matter including asanas or yogic postures pranayama and the life principle and meditation from concentration to contemplation *The Publishers Weekly*, 1897

Back to One Sheldon Kopp, 1977 The author writes that he offers this detailed description of how I do therapy as a guide to encourage you to become ever clearer about the fundamentals of your own style of work *Modern Transnational Yoga* Hannah K. Bartos, 2021-03-22 This is the first book to address the social organisation of modern yoga practice as a primary focus of investigation and to undertake a comparative analysis to explore why certain styles of yoga have successfully transcended geographical boundaries and endured over time whilst others have dwindled and failed Using fresh empirical data of the different ways in which posture practice was disseminated transnationally by Krishnamacharya Sivananda and

their leading disciples the book provides an original perspective The author draws upon extensive archival research and numerous fieldwork interviews in India and the UK to consider how the field of yoga we experience today was shaped by historic decisions about how it was transmitted The book examines the specific ways in which a small group of yogis organised their practices and practitioners to popularise their styles of yoga to mainstream audiences outside of India It suggests that one of the most overlooked contributions has been that of Sivananda Saraswati 1887 1963 for whom this study finds his early example acted as a cornerstone for the growth of posture practice Outlining how yoga practice is organised today on the world stage how leading brands fit into the wider field of modern yoga practice and how historical developments led to a mainstream globalised practice this book will be of interest to researchers in the field of Yoga Studies Religious Studies Hindu Studies South Asian History Sociology and Organisational Studies Yoga and Western Psychology Geraldine Coster,1998-12-31 The present work is the product of author s profound studies in India s yogic system The author has worked out this abstruse subject in a peculiarly comprehensible way The comparison of the Eastern system of Yoga with the system of analytical psychology **Hinduism** Syed Mohammed Ali,H. S. Sharma,1984 **Book University Journal** ,1977
