Nieto,2011-01-04 In *Masters of War* Clara Nieto adeptly presents the parallel histories of the countries of Latin America histories that are intertwined each reflecting the United States coherent policy of intervention set into motion by the Monroe Doctrine As the value of this continued policy comes increasingly into question Nieto argues for the need to evaluate the alarming precedent set in Latin America the institution of client dictatorships the roles played by the interests of U S corporations the enormous tolls taken on civilian populations and the irreversible disruption of regional stability Drawing from an impressive array of documents and sources as well as from her unique first hand insights as a participant in crucial meetings and negotiations in the region from the mid 1960s through the mid 1980s Nieto chronicles the Cuban Revolution the CIA sponsored coup against popularly elected President Allende in Chile the U S invasions of Panama and Grenada U S support for the cultivation and training of paramilitary death squads in Nicaragua El Salvador and Colombia as well as similarly severe but less well known situations in other countries such as Uruguay Venezuela Argentina Peru Bolivia Honduras and Guatemala *Masters of War* offers from an informed perspective perhaps for the first time a distanced objective analysis of recent Latin American history Clara Nieto s depth of knowledge and understanding is an invaluable resource at a time when the media is seen as unapologetically aligned with the interests of major corporations and policymakers and the American public has reached a new height of apprehension regarding the intentions behind and consequences of its government s policies News Media Coverage of Environmental Challenges in Latin America and the Caribbean Bruno

Venator-Santiago, 2015-03-05 Drawing on a postcolonial legal history of the United States territorial expansionism this book provides an analysis of the foundations of its global empire Charles R Venator Santiago argues that the United States has developed three traditions of territorial expansionism with corresponding constitutional interpretations namely colonialist imperialist and global expansionist This book offers an alternative interpretation of the origins of US global expansion suggesting it began with the tradition of territorial expansionism following the 1898 Spanish American War to legitimate the annexation of Puerto Rico and other non contiguous territories The relating constitutional interpretation grew out of the 1901 Insular Cases in which the Supreme Court coined the notion of an unincorporated territory to describe the 1900 Foraker Act s normalization of the prevailing military territorial policies Since then the United States has invoked the ensuing precedents to legitimate a wide array of global policies including the war on terror Puerto Rico and the Origins of US Global Empire The Disembodied Shade combines a unique study of Puerto Rican legal history with a new interpretation of contemporary US policy As such it provides a valuable resource for students and scholars of the legal and historical disciplines especially those with a specific interest in American and postcolonial studies      American Propaganda from the Spanish-American War to Iraq Steven R. Brydon, 2021-11-01 In this book Steven R Brydon analyzes American war propaganda spanning from the Spanish American War through the wars in Afghanistan and Iraq Brydon argues that many of these wars were fought based on false or misleading narratives beginning with blaming Spain for the sinking of the Maine and continuing most recently with charges that Saddam Hussein had weapons of mass destruction and was involved in the terrorist attacks of September 11 Research has shown that well told stories can affect the public s beliefs attitudes and actions and Brydon has identified some of these recurring stories that have been told to support and sustain each war during this time period Using Fisher s narrative paradigm Brydon critically evaluates these war stories to determine if they possessed narrative coherence and fidelity that provided good reasons to go to war rather than simply the appearance of these qualities The responsibility Brydon stresses is on the media and on academics to view future war narratives through a critical lens in order to best inform the American people Scholars of media studies history military studies American studies and international relations will find this book particularly useful      Climate and Culture Change in North America AD 900-1600 William C.
