Nerve Endings of the Soul E. Stan Lennard M.D. Sc.D., 2018-01-22 It is a common belief that personal communion from the Holy Spirit to mankind ceased at the closure of the canon of scripture The information presented in this book shows that interaction between the Holy Spirit and the mind of man enabled by the human spirit is bidirectional and continues in our time Evidence presented from theological and scientific resources confirms the duality of the immaterial mind and the physical brain of man and substantiates the personal interaction between the Holy Spirit and the mind of human beings The model for study is the neural synaptic network incorporating the microsite hypothesis of Sir John C Eccles Dualist interaction has been substantiated by contemporary theologians and investigators in the neurosciences and information theory building on advances in quantum wave theory A hypothesis is offered by this author for a mechanism for dualist interaction involving probabilistic quantum tunneling across synaptic clefts Transmission of specified information with meaning and purpose occurs within neural codes in spike trains of action potentials in synaptic networks Through a lifetime of learning archived in memory the mind of humans interprets neural codes enabled by the unique capacity for language Communication from the Holy Spirit as sender to human minds as recipients draws upon current understandings of information and communication theory The trigger for initiating spike trains as codes is postulated as an immaterial energy source by which the Holy Spirit communicates with the mind of man Evidence presented in this book provides a compelling rationale for the reality of bidirectional communication with the living personal Holy Spirit in our time That Jesus Christ indwells those who accept his truth as a personal living spirit is confirmation of the promise in John 14 1521 Interaction with God by his atoning grace through Jesus Christ by the power of the Holy Spirit gives receptive mankind comfort and counsel today to his glory

Untimely Matter in the Time of Shakespeare Jonathan Gil Harris, 2010-11-24 Selected by Choice magazine as an Outstanding Academic Title The New Historicism of the 1980s and early 1990s was preoccupied with the fashioning of early modern subjects But Jonathan Gil Harris notes the pronounced tendency now is to engage with objects From textiles to stage beards to furniture objects are read by literary critics as closely as literature used to be For a growing number of Renaissance and Shakespeare scholars the play is no longer the thing the thing is the thing Curiously the current wave of thing studies has largely avoided posing questions of time How do we understand time through a thing What is the time of a thing In Untimely Matter in the Time of Shakespeare Harris challenges the ways we conventionally understand physical objects and their relation to history Turning to Renaissance theories of matter Harris considers the profound untimeliness of things focusing particularly on Shakespeare's stage materials He reveals that many Renaissance objects were actually survivals from an older time the medieval monastic properties that post Reformation were recycled as stage props in the public playhouses or the old Roman walls of London still visible in Shakespeare's time Then as now old objects were inherited recycled repurposed they were polytemporal or palimpsested By treating matter as dynamic and temporally hybrid Harris
