Strindberg and the Five Senses

Hans-Goran Ekman, 2000-10-01 In this book Dr Ekman considers Strindberg's four Chamber plays of 1907 *Thunder in the Air* *The Burned Site* *The Ghost Sonata* and *The Pelican* *Canones: The Art of Harmony* Alessandro Bausi, Bruno

Reudenbach, Hanna Wimmer, 2020-11-23 The so called Canon Tables of the Christian Gospels are an absolutely remarkable feature of the early late antique and medieval Christian manuscript cultures of East and West the invention of which is commonly attributed to Eusebius and dated to first decades of the fourth century AD Intended to host a technical device for structuring organizing and navigating the Four Gospels united in a single codex and in doing so building upon and bringing to completion previous endeavours the Canon Tables were apparently from the beginning a highly complex combination of text numbers and images that became an integral and fixed part of all the manuscripts containing the Four Gospels as Sacred Scripture of the Christians and can be seen as exemplary for the formation development and spreading of a specific Christian manuscript culture across East and West AD 300 and 800 In the footsteps of Carl Nordenfalk's masterly publication of 1938 and few following contributions this book offers an updated overview on the topic of Canon Tables in a comparative perspective and with a precise look at their context of origin their visual appearance their meaning function and their usage in different times domains and cultures **The Sèvres Porcelain Manufactory** Beatrice Pannequin, Tamara Préaud, Karole

Bezut, Antoine D'Albis, Bard Graduate Center for Studies in the Decorative Arts, Laurie Dahlberg, Anne Lajoix, Sylvie Millasseau, 1997-01-01 The tumultuous years of the French Revolution left France's prestigious decorative arts industries poised on the brink of ruin It was not until after the fall of the monarchy and the ascendancy of the Consulat and Empire under Napoleon that they began to recover so that by the middle of the nineteenth century they stood at the pinnacle of their achievement This book is the first in depth study of the renowned porcelain works at Sèvres during its virtual rebirth under the 47 year direction of the scientist teacher and administrator Alexandre Brongniart Some 110 working drawings from the Sèvres Archive are reproduced here for the first time in color They celebrate the high skill of the artists whose work often documented contemporary events in France There are table services in the Egyptian and Etruscan taste as well as individual pieces that recall Napoleonic military campaigns There are also exquisite Neoclassical decorations using motifs such as birds butterflies and insects that reflect the century's early fascination with the natural sciences The repertoire of nineteenth century eclecticism is evident in the output of Sèvres from the revival of Gothic and renaissance motifs to the outburst of naturalism Eleven essays by leading authorities assess this dynamic period **Concise Biographical Companion to Index**

Islamicus Wolfgang Behn, 2004-12-01 This third and last of the three volume *Who's Who in Islamic Studies* presents the scholarly world at long last with its own biographical encyclopaedia Taking as a starting point the inventory of authors from the renowned *Index Islamicus* the author Wolfgang Behn Berlin has systematically collected numerous data on the lives and

works of the tens of thousands of authors listed in the Index Islamicus from 1665 to 1980 This Biographical Companion will be an indispensable reference tool for the serious student and scholar of Islamic Studies It enables the user to quickly gain knowledge on the life work and professional background of almost every major and minor author and thus to place each author in his/her proper perspective A tremendous achievement and a true must for every library

Knowledge Lost Martin Mulsow, 2025-08-19 A compelling alternative account of the history of knowledge from the Renaissance to the Enlightenment Until now the history of knowledge has largely been about formal and documented accumulation concentrating on systems collections academies and institutions The central narrative has been one of advancement refinement and expansion Martin Mulsow tells a different story Knowledge can be lost manuscripts are burned oral learning dies with its bearers new ideas are suppressed by censors Knowledge Lost is a history of efforts from the Renaissance to the Enlightenment to counter such loss It describes how critics of ruling political and religious regimes developed tactics to preserve their views how they buried their ideas in footnotes and allusions how they circulated their tracts and treatises in handwritten copies and how they commissioned younger scholars to spread their writings after death Filled with exciting stories Knowledge Lost follows the trail of precarious knowledge through a series of richly detailed episodes It deals not with the major themes of metaphysics and epistemology but rather with interpretations of the Bible Orientalism and such marginal zones as magic And it focuses not on the usual major thinkers but rather on forgotten or half forgotten members of the knowledge underclass such as Pietro della Vecchia a libertine painter and intellectual Charles C sar Baudelot an antiquarian and numismatist and Johann Christoph Wolf a pastor Hebrew scholar and witness to the persecution of heretics Offering a fascinating new approach to the intellectual history of early modern Europe Knowledge Lost is also an ambitious attempt to rethink the very concept of knowledge
