Sex Awareness Among Rural Girls:

Sex Awareness Among Rural Girls M. S. R. Murthy, 1993 Study based on the survey in Chittoor District Andhra Pradesh *Sex Education In Schools* Pankaj Arora, 2009-01-01 In Indian context **Glimpses of Women Empowerment & ICT Revolution in Kerala** Dr. K. S. Ragini, Prof. K. Karnamaharajan, 2024-09-15 Dr. K. S. Ragini Assistant Professor School of Media Studies Malayalam University Tirur Kerala India Prof. K. Karnamaharajan Professor Centre for Film and Electronic Media Studies Madurai Kamaraj University Madurai Tamil Nadu India *SOUVENIR of 4th International Science Congress* Prof. Dipak Sharma, Dropout of Girl-child in Schools Lakshmi Jain, 2008 This book is a maiden publication based on research work in the field of women education. It has implications reaching far beyond the city of Bareilly U.P. the area of field investigation. A genuine attempt has been made to explore the diverse historical, demographical, socio-psychological, educational as well as economic dimensions of women education. Very simple everyday down to earth happenings have been cited which will propel the readers and leaders to a higher level of both purpose and commitment towards enhancing women education. A vivid description through ample illustrations like maps, graphs, tables and photographs has been made. A detailed Bibliography and Questionnaire would help readers in further research. A comprehensive subject index would facilitate easy reference. A detailed study of government initiatives, Five year plans and the current budget proposals has been made. The idea behind the book is to respond to the two challenges of increasing the availability of education by expanding the number of schools for girls or taking the schools to the un-reached girls thereby increasing supply and b) improving the accessibility of education by reducing costs thereby increasing demand **Resources in Education**, 1997 **Learning from Comparing: new directions in comparative education research** Robin Alexander, Marilyn Osborn, David Phillips, 2000-01-01 *Learning from Comparing* is a major two volume study which reassesses the contribution of comparative educational research and theory to our understanding of contemporary educational problems and to our capacity to solve them. At a time when educational research is under attack on the grounds of bias and irrelevance and under pressure to address only those questions which are acceptable politically as good a definition of bias as any this is a serious attempt to bridge the worlds of research policy and practice. The editors have put together a collection in terms of both perspective and nationality which ensures contrasting viewpoints on each topic *Action Against Child Labour* Nelien Haspels, Michele Jankanish, 2000 Comprehensive and timely this essential book provides a wealth of practical information on planning and carrying out action against child labor. Offering an array of effective strategies, instruments, methodologies and information it stresses a multi-pronged approach to combating child labor on several fronts: economic, educational, social and cultural. It provides striking examples of effective legislation, policies, programs and projects and offers step by step guidelines for their precise implementation. *Action Against Child Labor* examines in depth the vital functions of national policies and programs against child labor while providing valuable insight on developing and improving existing policy setting priorities for action.

capacity building and creating social alliances In addition it spotlights ways to improve the knowledge base on child labor provides technical and practical guidelines for designing and conducting surveys and offers insights on obtaining information on children Compiled by an array of child labor experts this invaluable resource will help governments employers and workers organizations and NGOs contribute to eliminating child labor

Revolutionary Struggles and Girls' Education

Thera Mjaaland,2021-07-27 Revolutionary Struggles and Girls Education At the Frontiers of Gender Norms in North Ethiopia argues that at the base of girls poorer performance than boys at secondary school level when puberty has set in is the symbolic violence entailed in sanctioned femaleness Informed by the modesty of Virgin Mary in Orthodox Christian veneration it instructs girls to internalize a holding back which impinges on her self efficacy and ability to be an active learner Neoliberally informed educational policies and plans which have co opted liberal feminism also in Ethiopia do not address hard lived gender norms and the power and domination dynamics entailed when parity between boys and girls in school continues to be the dominant measure for equity Despite women s courageous contribution at a literal frontier during the Tigrayan liberation struggle 1975 91 where they fought on equal terms with men and despite the tendency that girls outnumber boys at secondary level in the present context sanctioned femaleness constitutes a frontier for girls educational success and transition to higher education In fact when teaching learning continues to be based on memorization rather than critical thinking the very transformative potential of education is undermined also in a gendered sense

India Diversity

Hilda David,Francis Jarman,2017-01-31 The more you look around the world at the chaos conflict horror and repression in the name of religious ideology not least in the lands very close to India the more you realise how Nehru for all his imperfections got the biggest question right Now that India is finally positioning itself for a spectacular economic takeoff it is not the right time to endanger that by opening the can of worms that is communalism

Education and Reform in China

Emily Hannum,Albert Park,2012-11-12 Transformative market reforms in China since the late 1970s have improved living standards dramatically but have also led to unprecedented economic inequality During this period China s educational system was restructured to support economic development with educational reforms occurring at a startling pace Today the educational system has diversified in structure finance and content it has become more market oriented and it is serving an increasingly diverse student population These changes carry significant consequences for China s social mobility and inequality and future economic prospects In Education and Reform in China leading scholars in the fields of education sociology demography and economics investigate the evolution of educational access and attainment educational quality and the economic consequences of being educated Education and Reform in China shows that economic advancement is increasingly tied to education in China even as educational services are increasingly marketized The volume investigates the varying impact of change for different social ethnic economic and geographic groups Offering interdisciplinary views on the changing role of education in Chinese society and on China s educational achievements and policy challenges this book will

be an important resource for those interested in education public policy and development issues in China *Human Rights in Education, Science, and Culture : Legal Developments and Challenges* Yvonne Donders,Vladimir Volodin,2007-01-01

Human rights are at the heart of UNESCO s work in the fields of education science and culture Conceived from an international human rights legal framework Human Rights in Education Science and Culture Legal Developments and Challenges combines insights into the content scope of application and corresponding state obligations of these rights with analyses of issues relating to their implementation The volume begins by presenting the principles of the indivisibility interrelatedness and interdependence of all human rights It then turns to questions related to economic social and cultural rights including their justiciability their application between private parties and the development of indicators for measuring their implementation Finally it addresses the right to education the right to enjoy the benefits of scientific progress and its applications and the right to take part in cultural life the content and scope of application of the latter two rights being especially in need of further elucidation Dedicated to the sixtieth anniversary of the Universal Declaration of Human Rights this volume will be an invaluable resource for all those working in the area of human rights *Women Education* Radha

Dua, *Coerced Liberation* Zamira Abman,2024-05-01 In 1924 the Bolshevik regime began an unprecedented campaign to forcibly emancipate the Muslim women of Tajikistan The emancipatory reforms included unveiling women passing progressive family code laws and educating women By the 1950s the Soviet regime largely succeeded in putting an end to veiling child marriage polygamy and bride payments Yet today there is a resurgence in these practices the Bolsheviks claimed to have eliminated *Coerced Liberation* reveals that the Soviet regime transformed the lives of urban women within a single generation but without lasting effect Drawing on unique primary sources the book examines why this occurred It addresses questions that are pertinent to ongoing debates in the international arena What happens when an outside force attempts to modernize a society deeply rooted in centuries of patriarchal norms and values In what ways can a devout religious rural community respond to survive and adapt to such interventions And how does a state centred top down approach towards women s emancipation work *Coerced Liberation* presents critical insights for readers interested in gender dynamics within Muslim communities the roles of women in Islam the resurgence of Islam in former colonial territories the effectiveness of a top down approach towards women s movements and more **Encyclopedia of Gender and**

VV.,2012-10-05T00:00:00+02:00 1341 49 *Women Teachers in Africa* Nelly Stromquist,Steven Klees,Jing Lin,2017-02-10 Through qualitative research methods this book engages in a holistic understanding of cultural economic and institutional forces that interact to produce the underrepresentation of women as school teachers in four sub Saharan African countries Comparative case studies at the national level using a common research design show that teaching despite being

an attractive civil service job offers low salaries and many challenges especially when it takes place in rural areas Combining professional duties with demanding family responsibilities further diminishes women s ability to stay in the teaching profession The studies in this book attempt to bridge research findings with policy by developing action plans in cooperation with ministries of education of the respective countries Women Teachers in Africa will be of interest to academic researchers undergraduate and postgraduate students in the relevant fields as well as development professionals aid agency staff and education policy experts
