Hewitt,2020-01-01 It is common for teachers and students of education to feel disheartened about the profession and their own aims and purposes once they become conscious of the dehumanizing tendencies of the schooling institution As teacher educators we have also known many students who after studying critical perspectives aimed at exposing the power and privilege flowing through the public schools then look to us with the question Where s the hope Our attempt to answer our students questions has led us to consider what beauty and love in education look like Where can it be seen and how can we bring this forward so it can be instructive to those who are faced with similar questions about the incredibly important craft of teaching This collection of narratives essays and poetic expressions includes the perspectives of students and educators who in varying ways express gratitude toward those who came before them and a deep desire to keep the faith alive The authors share narrative accounts of someone or something in the public schools or learning experiences in general that inspired and nurtured the passionate desire to achieve goods internal to some shared practice that is some art at living such that there was a transformative readjustment to the very nature of experience itself We share with readers the stories and intellectual habits that have fueled us inspired us and that continue to push us to engage in the practice of cultivating educational dynamics that are meaningful and transformative for ourselves our students and our communities The book concludes with an exploration into how teachers might not only root their craft but the habit of love in general in a sense of freedom Living More Human(e)ly? Rebecca Leong,2025-04-22 Does it really matter who one chooses to marry and how one makes a choice as to who to marry or is it basically true that you always marry the wrong person Was Jane Austen right in her portrayals of couples marrying for love for comfort or for both What about arranged marriages Does the one exist How about soulmates Will getting involved in casual sex or hook up culture affect one s chances of eventually realizing happy lifelong monogamy Are promoters of purity culture basically right that their approach will help lead to happy lasting marriages Can there be a way forward through the culture wars Are dating apps any good Virtue ethics is sometimes drawn upon for a dependable approach to couple relationships But what does this approach consist of and which virtues as there are potentially very many should one focus on particularly when navigating dating culture in contemporary contexts What light might theology history and the human sciences including sociology and psychology shed on these matters Rebecca Leong offers findings from wide ranging interdisciplinary studies that address these questions and more in the process developing a five fold ethic and further building blocks for better approaches to dating in contemporary contexts
