*On Creating a Usable Culture* Maureen A. Molloy, 2008-02-20 Margaret Mead's career took off in 1928 with the publication of *Coming of Age in Samoa* Within ten years she was the best known academic in the United States a role she enjoyed all of her life In *On Creating a Usable Culture* Maureen Molloy explores how Mead was influenced by and influenced the meanings of American culture and secured for herself a unique and enduring place in the American popular imagination She considers this in relation to Mead's four popular ethnographies written between the wars *Coming of Age in Samoa* *Growing Up in New Guinea* *The Changing Culture of an Indian Tribe* and *Sex and Temperament in Three Primitive Societies* and the academic middle brow and popular responses to them Molloy argues that Mead was heavily influenced by the debates concerning the forging of a distinctive American culture that began around 1911 with the publication of George Santayana's *The Genteel Tradition* The creation of a national culture would solve the problems of alienation and

provincialism and establish a place for both native born and immigrant communities Mead drew on this vision of an integrated culture and used her primitive societies as exemplars of how cultures attained or failed to attain this ideal Her ethnographies are really about America the peoples she studied serving as the personifications of what were widely understood to be the dilemmas of American selfhood in a materialistic individualistic society Two themes subtend Molloy's analysis The first is Mead's articulation of the individual's relation to his or her culture via the trope of sex Each of her early ethnographies focuses on a character and his or her problems as expressed through sexuality This thematic ties her work closely to the popularization of psychoanalysis at the time with its understanding of sex as the key to the self The second theme involves the change in Mead's attitude toward and definition of culture from the cultural determinism in *Coming of Age* to culture as the enemy of the individual in *Sex and Temperament* This trend parallels the consolidation and objectification of popular and professional notions about culture in the 1920s and 1930s *On Creating a Usable Culture* will be eagerly welcomed by those with an interest in American studies and history cultural studies and the social sciences and most especially by readers of American intellectual history the history of anthropology gender studies and studies of modernism

Margaret Mead Nancy C. **Sex and Common Sense** Agnes Maude Royden, 1922      *The Gendered Society* Michael S. Kimmel, 2000 They say that we come from different planets men from Mars women from Venus that we have different brain chemistries and hormones and that we listen speak and even define our morals differently How is it then that men and women live together take the same classes in school eat the same food read the same books and receive grades according to the same criteria In *The Gendered Society* Michael S. Kimmel examines our basic beliefs about gender arguing that men and women are more alike

than we have ever imagined Kimmel begins his discussion by observing that all cultures share the notion that men and women are different and that the logical extension of this assumption is that gender differences cause the obvious inequalities between the sexes In fact he asserts that the reverse is true gender inequality causes the differences between men and women Gender is not simply a quality inherent in each individual it is deeply embedded in society's fundamental institutions the family school and the workplace The issues surrounding gender are complex and in order to clarify them the author has included a review of the existing literature in related disciplines such as biology anthropology psychology and sociology Finally with an eye towards the future Kimmel offers readers a glimpse at gender relations in the next millennium Well written well reasoned and authoritative *The Gendered Society* provides a thorough overview of the current thinking about gender while persuasively arguing that it is time to reevaluate what we thought we knew about men and women

*Sex And Personality Studies In Masculinity And Femininity* Lewis M. Terman, 2013-04-04 Lewis Madison Terman 1877-1956 was an American psychologist noted as a pioneer in educational psychology in the early 20th century at the Stanford University School of Education Sex differences in personality and temperament are matters of universal human interest Among all classes of people from the most ignorant to the most cultivated they provide an inexhaustible theme for light conversation and humorous comment They have always been and perhaps always will be one of the chief concerns of novelists dramatists and poets They are rapidly coming to be recognized as one of the central problems in anthropology sociology and psychology *Gender, Sex and Sexuality* Gerda Siann, 2013-05-24 For some time sex has been defined as the biological difference between men and women and gender as the manner in which culture defines and constrains these differences Feminine masculine male female women men boy girl terms of sexual and gender division like these permeate the way we think and talk about ourselves and each other On most occasions we find their use non problematic and people employ them easily at other times however particularly if we are interested in psychology we may wonder whether this ease is illusory One may speculate whether being a woman necessarily implies being feminine One may question why young women are often referred to as girls while men are seldom referred to as boys Is dressing in a stereotypically feminine manner a reliable indication that a woman is heterosexual What about cross dressing Why do these topics hold so much fascination for the media *Gender Sex and Sexuality* examines the effects that the inequalities experienced between men and women have had on the psychologies of both sexes and the battle to remove them It aims to introduce the reader to current research and theories drawing on novels theatre soap operas as well as research for case histories *Exotics at Home* Micaela di Leonardo, 2000-03-16 What is the exotic after all In this study Micaela di Leonardo reveals the face of power within the mask of cultural difference Focusing on the intimate and shifting relations between popular portrayals of exotic Others and the practice of anthropology that profession assumed to be America's Guardian of the Offbeat she casts new light on gender race and the public sphere in America's past and present Chicago's 1893 Columbian World Exposition and today's

college town ethnic boutiques frame di Leonardo s century long analysis      *Echoes of the Tambaran* Paul Roscoe, David Lipset, 2011-10-01 In the Sepik Basin of Papua New Guinea ritual culture was dominated by the Tambaran a male tutelary spirit that acted as a social and intellectual guardian or patron to those under its aegis as they made their way through life To Melanesian scholarship the cultural and psychological anthropologist Donald F Tuzin was something of a Tambaran a figure whose brilliant and fine grained ethnographic project in the Arapesh village of Ilahita was immensely influential within and beyond New Guinea anthropology Tuzin died in 2007 at the age of 61 In his memory the editors of this collection commissioned a set of original and thought provoking essays from eminent and accomplished anthropologists who knew and were influenced by his work They are echoes of the Tambaran The anthology begins with a biographical sketch of Tuzin s life and scholarship It is divided into four sections each of which focuses loosely around one of his preoccupations The first concerns warfare history the male cult and changing masculinity all in Melanesia The second addresses the relationship between actor and structure Here the ethnographic focus momentarily shifts to the Caribbean before turning back to Papua new Guinea in essays that examine uncanny phenomena narratives about childhood and messianic promises The third part goes on to offer comparative and psychoanalytic perspectives on the subject in Fiji Bali the Amazon as well as Melanesia Appropriately the last section concludes with essays on Tuzin s fieldwork style and his distinctive authorial voice

*Margaret Mead* Paul Shankman, 2021-07-16 This short volume is an ideal starting point for anyone wanting to learn about arguably the most famous anthropologist of the twentieth century Since her death a steady drip of books about Mead one of the most significant women in twentieth century social science and American society has appeared some interesting many quite a bit less so While Shankman s biography makes use of them it nevertheless stands out among the better ones not only for its well informed and balanced view of Mead but also for its concision Times Literary Supplement Tracing Mead s career as an ethnographer as the early voice of public anthropology and as a public figure this elegantly written biography links the professional and personal sides of her career The book looks at Mead s early career through the end of World War II when she produced her most important anthropological works as well as her role as a public figure in the post war period through the 1960s until her death in 1978 The criticisms of Mead are also discussed and analyzed From the introduction After her death she was awarded the Presidential Medal of Freedom by President Jimmy Carter On the other side of the world Mead s passing was remembered in a very different context On the island of Manus off the coast of New Guinea the people of Pere village also mourned her death Mead first studied the people of Pere in the late 1920s returning in the 1950s with further visits thereafter Over a span of five decades she touched their lives and they touched hers Such was Mead s stature that they commemorated her death with a ceremony befitting a great leader      Theorizing Backlash Anita M. Superson, Ann E. Cudd, 2002 Contrary to the popular belief that feminism has gained a foothold in the many disciplines of the academy the essays collected in *Theorizing Backlash* argue that feminism is still actively resisted in mainstream academia Contributors to

this volume consider the professional philosophical and personal backlashes against feminist thought and reflect upon their ramifications The conclusion is that the disdain and irrational resentment of feminism even in higher education amounts to a backlash against progress

**Sex and Gender** Hilary M. Lips, 2020-04-10 Are sex and gender really two different things How malleable is gender identity Do both gender and sex have to be conceptualized as binaries as having two distinct but complementary categories Should we emphasize gender differences or is that the wrong question When should we call a gender difference small Are women really nonaggressive or does that label stem from stereotyping How does subtle or modern sexism work on its targets Scholarship on these and other gender related questions has exploded in recent years Hilary Lips synthesizes that research for students in an accessible and readable way Concepts on sex and gender are presented with the social context in which they were developed As in previous editions Lips takes a multicultural approach discussing the gender experiences of people from a wide range of races cultures socioeconomic statuses and gender and sexual identities She emphasizes empirical research but takes a critical approach to that research
