Long Knives And Short Memories The Spandau Prison Story:

From Fear to Faith Fishman, Jack, 1986 **Long Knives and Short Memories** Jack Fishman, 1986 *Towards the Development of the International Penal System* Róisín Mulgrew, 2013-07-11 Based on extensive empirical research this groundbreaking book describes and analyses existing systems for enforcing sentences of imprisonment imposed by international criminal courts and makes recommendations for the strategic and structural development of the international penal system In particular it advocates a resocialisation focused international penal policy delivered using restorative justice modalities post conviction and the creation of an accountable international prison system Singly or combined these developments will contribute to the institutionalisation of the international penal system and enhance the international nature of the sanction the international control over the way international punishment is enforced and the equal treatment of international prisoners These developments will also help to ensure that international punishment is principled and progressive and implemented in a humane and effective system Messages of Murder Ronald Headland, 1992 Included among these are descriptions of the main features of the reports and the various stages in their compilation examples and methodology of presentation of the killings and comparisons of reporting procedures and totals of victims shot by each of the four Einsatzgruppen The study begins by noting the post war discovery of the reports and then assumes a roughly chronological sequence in its overall treatment An outline of the major National Socialist agencies and general reporting practices before the war is followed by the events of the war as reflected in the reports Then the postwar life of the reports is examined with particular reference to their use as legal evidence at Nuremberg as well as a consideration of their reliability as historical source material **Survey of Jewish Affairs, 1987** William Frankel, 1988 Addresses major issues of concern about Israel the Middle East the United States and world Jewry during the year 1986 such as the vulnerability and successes of the National Unity Government the peace process the Arab League American Middle East policy the Waldheim issue and world Jewish fundamentalism Contains a chronology of major events of 1985 and 1986 *Genocide on Trial* Donald Bloxham, 2001 When the Allies decided to try German war criminals at the end of World War II they were attempting not only to punish the guilty but also to create a record of what had happened in Europe This ground breaking new study shows how Britain and the United States went about inscribing the history of Nazi Germany and the effect their trial and occupation policies had on both long and short term memory in Germany and Britain Donald Bloxham here examines the actions and trials of German soldiers and policemen the use of legal evidence the refractory functions of the courtroom and Allied political and cultural preconceptions of both Germanism and of German criminality His evidence shows conclusively that the trials were a failure the greatest of all crimes against humanity the final solution of the Jewish question was largely written out of history in the post war era and the trials failed to transmit the breadth of German criminality Finally with reference to the historiography of the Holocaust *Genocide on Trial* illuminates the function of the trials in perpetuating misleading

generalizations about the course of the Holocaust and the nature of Nazism
