Professor Timothy A Johnson

Long March To Power:

Wealth and Power Orville Schell, John Delury, 2014-09-09 Through a series of lively and absorbing portraits of iconic modern Chinese leaders and thinkers two of today's foremost specialists on China provide a panoramic narrative of this country's rise to preeminence that is at once analytical and personal How did a nation after a long and painful period of dynastic decline intellectual upheaval foreign occupation civil war and revolution manage to burst forth onto the world stage with such an impressive run of hyperdevelopment and wealth creation culminating in the extraordinary dynamism of China today *Wealth and Power* answers this question by examining the lives of eleven influential officials writers activists and leaders whose contributions helped create modern China This fascinating survey begins in the lead up to the first Opium War with Wei Yuan the nineteenth century scholar and reformer who was one of the first to urge China to borrow ideas from the West It concludes in our time with human rights advocate and Nobel Peace Prize laureate Liu Xiaobo an outspoken opponent of single party rule Along the way we meet such titans of Chinese history as the Empress Dowager Cixi public intellectuals Feng Guifen Liang Qichao and Chen Duxiu Nationalist stalwarts Sun Yat sen and Chiang Kai shek and Communist Party leaders Mao Zedong Deng Xiaoping and Zhu Rongji The common goal that unites all of these disparate figures is their determined pursuit of fuqiang wealth and power This abiding quest for a restoration of national greatness in the face of a century of humiliation at the hands of the Great Powers came to define the modern Chinese character It's what drove both Mao and Deng to embark on root and branch transformations of Chinese society first by means of Marxism Leninism then by authoritarian capitalism And this determined quest remains the key to understanding many of China's actions today By unwrapping the intellectual antecedents of today's resurgent China Orville Schell and John Delury supply much needed insight into the country's tortured progression from nineteenth century decline to twenty first century boom By looking backward into the past to understand forces at work for hundreds of years they help us understand China today and the future that this singular country is helping shape for all of us NAMED ONE OF THE BEST BOOKS OF THE YEAR BY ST LOUIS POST DISPATCH Superb beautifully written and neatly structured Financial Times An engaging narrative of the intellectual and cultural origins of China's modern rise The New York Times Book Review Informative and insightful a must read for anyone with an interest in the world's fastest rising superpower Slate It does a better job than most other books of answering a basic question the rest of the world naturally asks about China's recent rise What does China want The Atlantic The portraits are beautifully written and bring to life not only their subjects but also the mood and intellectual debates of the times in which they lived Foreign Affairs Excellent and erudite The authors combine scholarly learning with a reportorial appreciation of colorful revealing details The National Interest *From People's War to People's Rule* Timothy J. Lomperis, 2000-11-09 Timothy Lomperis persuasively argues the ironic point that the lessons of American involvement in Vietnam are not to be found in any analysis of the war by itself Rather he proposes a comparison of the Vietnam experience

with seven other cases of Western intervention in communist insurgencies during the Cold War era China Indochina Greece the Philippines Malaya Cambodia and Laos Lomperis maintains that popular insurgencies are manifestations of crises in political legitimacy which occur as a result of the societal stresses caused by modernization Therefore he argues any intervention in a people's war will succeed or fail depending on how it affects this crisis The unifying theme in the cases Lomperis discusses is the power of land reform and electoral democracy to cement political legitimacy and therefore deflect revolutionary movements Applying this theory to the ongoing Sendero Luminoso insurgency in Peru Lomperis makes a qualified prediction of that conflict's outcome He concludes that a global trend toward democratization has produced a new era of people's rule

Space, Politics, and Cultural Representation in Modern China Enhua Zhang, 2016-12-08 Regarding revolution as a spatial practice this book explores modes of spatial construction in modern China through a panoramic overview of major Chinese revolutionary events and nuanced analysis of cultural representations Examining the relationship between revolution space and culture in modern China the author takes five spatially significant revolutionary events as case studies the territorial dispute between Russia and the Qing dynasty in 1892 the Land Reform in the 1920s the Long March 1934-36 the mainland Taiwan split in 1949 and the Cultural Revolution 1966-76 and analyses how revolution constructs conceives and transforms space Using materials associated with these events including primarily literature as well as maps political treatises historiography plays film and art the book argues that in addition to redirecting the flow of Chinese history revolutionary movements operate in and on space in three main ways maintaining territorial sovereignty redefining social relations and governing an imaginary realm Arguing for reconsideration of revolution as a reorganization of space as much as time this book will appeal to students and scholars of Chinese culture society history and literature

Harrison, 1972 **Revolution and Dictatorship** Steven Levitsky, Lucan Way, 2024-10-29 Why the world's most resilient dictatorships are products of violent revolution Revolution and Dictatorship explores why dictatorships born of social revolution such as those in China Cuba Iran the Soviet Union and Vietnam are extraordinarily durable even in the face of economic crisis large scale policy failure mass discontent and intense external pressure Few other modern autocracies have survived in the face of such extreme challenges Drawing on comparative historical analysis Steven Levitsky and Lucan Way argue that radical efforts to transform the social and geopolitical order trigger intense counterrevolutionary conflict which initially threatens regime survival but ultimately fosters the unity and state building that supports authoritarianism Although most revolutionary governments begin weak they challenge powerful domestic and foreign actors often bringing about civil or external wars These counterrevolutionary wars pose a threat that can destroy new regimes as in the cases of Afghanistan and Cambodia Among regimes that survive however prolonged conflicts give rise to a cohesive ruling elite and a powerful and loyal coercive apparatus This leads to the downfall of rival organizations and alternative centers of power such as armies churches monarchies and landowners and helps to inoculate revolutionary regimes against elite defection military coups and mass protest three principal sources of authoritarian breakdown Looking at a range of revolutionary and nonrevolutionary regimes from across the globe Revolution and Dictatorship shows why governments that emerge from violent conflict endure
