THE SAVOY SESSIONS

"11 performances

for the first time"

SAC 2211

Dexter Gordon is, of course, the man who first created an authentic bebop style on the tenor saxophone. He is also the man who profoundly influenced young John Coltrane (the roots of what became Coltrane's characteristic modality are plainly evident in Dexter's unusual and very personal harmonic accents) and, to a lesser but still significant degree, Sonny Rollins. But above and beyond such historical credits, Dexter Gordon is one of the great players in jazz, a man who makes music that is vital, direct and emotionally satisfying. This collection of some of his earliest recordings shows that from the start, Dexter was a great communicator. They stand up as music, not just as history.

Bebop to Cool Eddie Meadows,2003-06-30 Bebop music is more than a jazz movement that seemed to have burst suddenly upon the jazz scene it is an outgrowth of the sociocultural environment dating from the 1920s through the 1940s In this consideration of the period and its music noted jazz scholar Eddie S Meadows traces the cultural and ideological context that produced Bebop and advocates that Cool Jazz was a reaction to Bebop a natural outgrowth of its predecessor Unlike most jazz research on the subject IBebop to Cool R features insider perspectives on both the social context of the music and

the music itself as a means of capturing the musical aesthetics and the cultural spirit of the time The volume includes the perspectives of Marcus Garvey W E B DuBois and other leaders of the Harlem Renaissance also discussed here for the first time is the role that Islam played in the music s development Finally in identifying and discussing the work of such significant musicians as Miles Davis Dizzy Gillespie Thelonious Monk Charlie Parker and Stan Getz Meadows demonstrates their unique musical identities within the respective genres that compose the revolutionary Bebop and Cool Jazz movements
