The protection of the homeland is the top priority for U S national security strategy Strategic defense however has been an overlooked dimension in the vast literature on the U S strategic posture with even less attention given to the necessity and dynamics of security collaboration within North America Drawing on the expertise of scholars from the U S Canada and Mexico the book offers a wide range of perspectives on recent trends in and future prospects for the military and political evolution of North American strategic defense North American strategic defense is a topic too often taken for granted as this excellent book shows that is a mistake In the 21st century perhaps even more than the 20th it will be an issue of cardinal importance to both the United States and Canada Eliot A Cohen Robert E Osgood Professor of Strategic Studies Johns Hopkins School of Advanced International Studies NORAD s binational command is unique and this timely and ambitious book examines its continued relevance to North American defense against a host of new global threats It broadens the focus of what we mean by North American defense contemplates how we might include Mexico in various regional security arrangements and considers the dynamics of expanded North American interdependence in the Trump era Laura Dawson Director of the Canada Institute Woodrow Wilson International Center for Scholars *North American Strategic Defense in the 21st Century* is an important book This edited volume brings together a galaxy of stars both rising and established with outstanding credentials regarding NORAD and associated matter in the study of security This original and well written volume is the first of its kind since the Cold War long overdue and impressive in contents The chapters cover both panoramic issues and more specific matters and the collection is essential reading for academics policy makers and the general public Patrick James Dornsife Dean s Professor School of International Relations University of Southern California **Dependent America?** Stephen Clarkson, Matto Mildemberger, 2011-09-30 Following the acclaimed *Uncle Sam and Us* and the influential *Does North America Exist* Stephen Clarkson the preeminent analyst of North America s political economy and Matto Mildemberger turn continental scholarship on its head by showing how Canada and Mexico contribute to the United States wealth security and global power This provocative work documents how Canada and Mexico offer the United States open markets for its investments and exports massive flows of skilled and unskilled labour and vast resource inputs all of which boost its size and competitiveness more than does any other US partner They are also Uncle Sam s most important allies in supporting its anti terrorist and anti narcotics security Clarkson and Mildemberger explain the paradox of these two countries simultaneous importance and powerlessness by showing how the US government has systematically neutralized their potential influence Detailing the dynamics of North America s power relations *Dependent America* is a fitting conclusion to Clarkson s celebrated trilogy on the contradictory qualities of its regionalism asymmetrical economic integration thickened borders and emasculated governance **Canadian Foreign Policy, 1945-1954** R.A. Perils of Plenty Jonathan N. Markowitz, 2020-04-02 Climate change is rapidly melting Arctic ice unlocking natural resources in contestable areas This disruption has led to warnings of a return of the Great Game in which states scramble to project power to the ends of the earth to engage in militarized resource competition Which states will have the strongest interest in securing control over these resources and will they pursue these interests by projecting military force In *Perils of Plenty* Jonathan N Markowitz answers this question and sheds light on the prospects for the future of resource competition in the Arctic and beyond from the deserts of the Middle East to the tropic of the South China Sea **The Nuclear North**

Susan Colbourn, Timothy Andrews Sayle, 2020-10-01 Since the first atomic weapon was detonated in 1945 Canadians have debated not only the role of nuclear power in their uranium rich land but also their country's role in a nuclear world The Nuclear North investigates critical questions in these ongoing debates Should Canada belong to international alliances that depend on the threat of using nuclear weapons for their own security Should Canadian produced nuclear technologies be exported to potential proliferators Does the country's championing of arms control and disarmament on the global stage matter What about the domestic costs of nuclear technologies and atomic research including their impact on local communities and the environment The contributors to this important collection consider how the atomic age has shaped Canadian policies at home and abroad Their incisive assessment of the country's nuclear history engages with much larger debates about national identity Canadian foreign policy contradictions during the Cold War and Canada's place in the international order **National Defense Resources Conference** Industrial College of the Armed Forces (U.S.), 1963

Makers of the United States Air Force John L. Frisbee, 1987 This volume commemorates the contributions of twelve officers who played important roles in the building of our Air Force *Securing the Continental Skies* Matthew Paul Trudgen, 2025-03-04 During the early years of the Cold War Canada and the United States began to develop a peacetime

defence relationship Initial co operation was limited to the construction of minor installations and the creation of joint plans But in 1950 both countries began to develop an air defence system to protect North America from the Soviet threat Securing the Continental Skies uses archival sources that have become available since the end of the Cold War to offer new insights into the development of the North American air defence system during the 1940s and 1950s Matthew Trudgen analyzes the negotiations behind several recommendations from the Permanent Joint Board on Defence three early warning radar lines and the North American Air Defence Command NORAD He argues that in Canada air defence policy was shaped by different conceptions of the national interest among the Cabinet the Department of External Affairs the Royal Canadian Air Force and the departments of Transport Defence Production and Northern Affairs and Natural Resources In the United States air defence policy reflected differing assessments of the importance of continental defence by the Truman and Eisenhower administrations Ultimately North America s air defences were the outcome of a variety of factors including Canadian political considerations and emerging nationalism the state of Canada s electronics industry the relationship between both countries air forces and American nuclear strategy Securing the Continental Skies challenges assumptions about Canadian foreign relations in the 1940s and 1950s and offers a new assessment of military co operation between Canada and the United States

Defense Policy Formation Clark A. Murdock,1974-01-01 When Robert McNamara became U S Secretary of Defense he introduced a new mode of making policy decisions systems analysis In Defense Policy Formation Clark Murdock examines what effects this systems analysis had on policy making process both in theory and the actual practice of military innovation

Diplomacy and its Discontents James Eayrs,1971-01-01 James Eayrs is a keen and articulate observer of international politics His incisive critiques of the moral turpitude and inefficiency of the diplomatic profession in Right and Wrong in Foreign Policy and Fate and Will in Foreign Policy provoked unflattering attention and attempts at rebuttal by the statesmen and politicians who shape our foreign policy This volume makes these two controversial studies available once more bringing them up to date with discussions of the October crisis in Quebec and other recent events and incorporating the author s selection of his recent writings on the irrelevance or deliquescence of modern diplomacy All three parts of the book hold to a single theme the decay of diplomatic method In the incisive prose characteristic of all Eayrs writing these discourses present a convincing view of the tragi comedy of foreign affairs The general reader and the student of politics and international affairs will find this a perceptive analysis of statecraft full of insights into the workings of government Scholars,

Missionaries, and Counter-Imperialists Andrew C. Holman,Brian Payne,2022-03-13 For more than half a century the field of Canadian Studies has attracted North American scholars of the highest caliber to examine Canada its distinctive social makeup its fascinating colonial and postcolonial history its intriguing literature its political structure and its changing place in the world Scholars Missionaries and Counter Imperialists The American Review of Canadian Studies 1971 2021 traces the birth and growth of that field by reproducing 15 exemplary articles published in the pages of that journal from its

establishment until the present day For five decades the American Review of Canadian Studies ARCS acted as a bellwether for the field revealing its strengths projecting new directions and inquiries and reflecting the changing topics and methods that scholars used to study Canada This book captures the history of that field in one robust volume Carefully selected by the co editors of ARCS the chapters in this edited volume are prefaced by an introductory essay that assesses the accomplishments of the field and brief chapter introductions that place them into context *Cold War Fighters* Randall Wakelam,2011-11-03 The cancellation of the CF 105 Arrow in 1959 holds such a grip on the imagination of Canadians that earlier developments in defence procurement remain in the shadows Randall Wakelam corrects this oversight and offers fresh insight into the AVRO saga and contemporary procurement issues by detailing the complexities Canada s air force faced in buying fighter aircraft and by showing how the RCAF grew by leaps and bounds Wakelam shows that cabinet members chiefs of staff and air marshals were forced to negotiate competing pressures to arm the air force please allies and save money Their decisions resulted in the CF 100 Canuck and the F 86 Sabre Canada s front line defensive aircraft in the coldest years of the Cold War Although historians assume that the Arrow arrived on the heels of these successes Wakelam reveals that neither the air force nor the government believed AVRO could manufacture even the CF 100 on budget

Camelot and Canada Asa McKercher,2016-06-20 Camelot and Canada explores political economic and military elements in Canada US relations in the early 1960s Asa McKercher challenges the prevailing view that US foreign policymakers including President Kennedy were imperious in their conduct toward Canada Rather he shows that the period continued to be marked by the special diplomatic relationship that characterized the early postwar years At the same time McKercher illustrates that there were significant strains on the bilateral relationship which occurred as a result of mounting doubts in Canada about US leadership in the Cold War growing Canadian nationalism and Canadian concern over their country s close economic military and cultural ties with the United States *External Research List* ,1962 *FEA Nomination* United States. Congress. Senate. Interior and Insular Affairs Committee,1974 **In Defence of Canada Volume III** James Eayrs,1972-01-01 The first two volumes of this outstanding history of Canada s defence and foreign policy have drawn unanimous acclaim from scholars and critics alike Richard Preston said of the first volume that it opens up a new chapter in Canadian historiography and of the second that it amply lives up to the promise of the earlier epoch making book Kenneth McNaught stated There could not be more important reading for anyone trying to apprehend the tenacious traditions underlying our present position in world affairs The third volume has been described in *Political Science Quarterly* as a first class book learned in content lucid and witty in style **Presentation Outlines and Reading List** ,1963 **Essence of Indecision** Patricia I. McMahon,2009-04 The nuclear issue was a minor political matter when John Diefenbaker became prime minister in 1957 By 1963 it served as a catalyst for his defeat with many attributing his demise to the indecision with which he handled it Patricia McMahon tells a more nuanced story in *Essence of Indecision*
