until the present **The Longman Handbook of Modern British History, 1714-1995** Chris Cook, John Stevenson, 1996 A thoroughly revised and updated edition of this comprehensive text What Happened Where Chris Cook, 2014-04-23 First published in 1997 This work aims to assemble within a concise volume a wide ranging guide to the places and events that have featured in twentieth century world history The book also sets out to provide the background information on the places behind the headlines Thus conflicts over territory or disputed boundary claims have been at the origin of many modern wars Hence this volume provides both teacher and student with concise and informative entries on the many hundreds of places of major historical significance *International Who's Who of Authors and Writers 2004* Europa Publications, 2003 Accurate and reliable biographical information essential to anyone interested in the world of literature The International Who's Who of Authors and Writers offers invaluable information on the personalities and organizations of the literary world including many up and coming writers as well as established names With over 8 000 entries this updated edition features Concise biographical information on novelists authors playwrights columnists journalists editors and critics Biographical details of established writers as well as those who have recently risen to prominence Entries detailing career works published literary awards and prizes membership and contact addresses where available An extensive listing of major international literary awards and prizes and winners of those prizes A directory of major literary organizations and literary agents A listing of members of the American Academy of Arts and Letters **The Battle for Britain** Anthony J Cumming, 2015-05-15 The Battle for Britain is a provocative reinterpretation of both British air and naval power from 1909 to 1940 Anthony Cumming challenges the view that the Battle of Britain was a decisive victory won solely by the Royal Air Force through independent airpower operations By re evaluating the early stage of the Mediterranean conflict and giving special emphasis to naval battles such as Calabria and Taranto Cumming argues that the Royal Navy played an equally important role in defeating Hitler's early advances buying critical time until the Americans could make a decisive contribution His argument holds that the RAF's role as an independent arm has been exaggerated and that contemporary strategists can learn from investing too much confidence in independent airpower *Race to the Front* Kevin D. Stubbs, 2002-09-30 When war broke out in Europe in 1914 nearly every combatant foresaw a short decisive conflict Experience would soon prove however that this belief was sorely misplaced Eventually excessive economic dislocations would topple every authoritarian regime Only the intervention of the United States would save the British and the French from collapse This book traces the trilateral struggle between the Entente the Central Powers and the United States to determine the outcome of the war Stubbs focuses on a few essential factors vital to understanding this three way race the acquisition of war materiel food human resources and the movement of each In an analysis of coalition strategies it is not enough to study the memoirs and memoranda of General Staffs or political figures engaged in war One must also examine the roles played by each population their industries economy means of transportation and the financial decisions that make such strategies possible In short the material foundations of war set the

boundaries within which strategic maneuvers occur Ultimately the United States determined the outcome of the First World War not simply because it provided the last untapped reservoir of manpower but due to its overall economic contributions to the allied effort
