political motivations behind why women finally won the right to vote In the 1880s women were barred from voting in all national level elections but by 1920 they were going to the polls in nearly thirty countries What caused this massive change Why did male politicians agree to extend voting rights to women Contrary to conventional wisdom it was not because of progressive ideas about women or suffragists pluck In most countries elected politicians fiercely resisted enfranchising women preferring to extend such rights only when it seemed electorally prudent and in fact necessary to do so Through a careful examination of the tumultuous path to women's political inclusion in the United States France and the United Kingdom Forging the Franchise demonstrates that the formation of a broad movement across social divides and strategic alliances with political parties in competitive electoral conditions provided the leverage that ultimately transformed women into voters As Dawn Teele shows in competitive environments politicians had incentives to seek out new sources of electoral influence A broad based suffrage movement could reinforce those incentives by providing information about women's preferences and an infrastructure with which to mobilize future female voters At the same time that politicians wanted to enfranchise women who were likely to support their party suffragists also wanted to enfranchise women whose political preferences were similar to theirs In contexts where political rifts were too deep suffragists who were in favor of the vote in principle mobilized against their own political emancipation Exploring tensions between elected leaders and suffragists and the uncertainty surrounding women as an electoral group Forging the Franchise sheds new light on the strategic reasons behind women's enfranchisement **Longman Companion to the Formation of the European Empires, 1488-1920**

Kavanagh, 2005-09-29 Tony Blair's strong start to his third term with his role in capturing the Olympic Games for Britain his statesman like handling of the aftermath of the terrorist attacks on London his promise of a new start to the European Union and his leadership of the G8 summit at Gleneagles has brought his relatively lacklustre second term into sharp relief The second term should have been the time when New Labour fulfilled its manifesto promises So what changed between 2001 and 2005 and what was achieved How far was Blair himself responsible and what was Gordon Brown's influence What was the impact of the Iraq war And what of Blair's policy towards Europe Anthony Seldon and Dennis Kavanagh gather together leading academics and journalists to provide an authoritative assessment of Blair's second term including a review of New Labour in government from 1997 to the present **Focus On: 100 Most Popular Knights of the Garter** Wikipedia contributors,
