1887 Julian West is hypnotized and falls into a deep sleep He awakens at the dawn of a new millennium in an America where war crime and inequality no longer exist In this brave new world goods are delivered in the blink of an eye public kitchens ensure that no one goes hungry and the retirement age is forty five It sounds too good to be true but Julian soon learns that this socialist utopia is not the stuff of dreams it is a carefully planned wondrously liberating reality One of the bestselling American novels of the nineteenth century Looking Backward launched a vibrant political movement and sparked an enormous amount of debate Today it stands as an enduring testament to the power of imagination and the best of human nature This ebook has been professionally proofread to ensure accuracy and readability on all devices Looking Backward - If Socialism Comes, 2000-1887 Edward Bellamy,1925 **Landscape and Utopia** Jody Beck,2022-12-22 This book examines three landmark utopian visions central to 20th century landscape architectural planning and architectural theory The period between the 1890s and the 1940s was a fertile time for utopian thinking Significant geographic shifts of large populations radically altered relations between capital and labor rapid technological developments large investments in transportation and energy infrastructure and repetitive economic disruptions motivated many individuals to wholly reimagine society including the connections between social relations and the built environment Landscape and Utopia examines the role of landscapes in the political imaginations of the Garden City the Radiant City and Broadacre City Each project uses landscapes to propose a reconstruction of the relationships between land labor and capital but while the projects are well known the role played by landscapes has been largely left unexamined Similarly the radical anti capitalism that underpinned each project has similarly been for the most part left out of contemporary discussions This book sets these projects within a historical and philosophical context and opens a discussion on the role of landscapes in society today This book will be a must read for instructors students and researchers of the history and theory of landscape architecture planning and architecture as well as utopian studies cultural and social history and environmental theory Moving Forward, Looking Back Sarah M. Misemer,2010 Many critical shifts in concepts of time and society s consciousness of modernity were derived from the railway and World Standard Time in the nineteenth century These innovations restructured the way people viewed the world and dealt with public and private time The forward projectile motion along a linear track mimicked the passage of public chronological time Conversely the train also invoked a private nostalgic view of time as the traveler was yanked from his her traditional view of the space time continuum via the train s velocity Travelers observed the landscape disappear in their backward glance from the window although the landscape and interior compartment s space remained stagnant This optical illusion caused passengers to perceive the world in new ways Thus the train unveils a conflictive blend of nostalgia and progress in the River Plate as these countries move forward but look back New Directions in American Reception Study Philip Goldstein,James L. Machor,2008-01-30 Contemporary reception study has developed a diversity of approaches and methods including the institutional textual historical authorial and reader response which to a greater or lesser extent

acknowledge the various ways in which readers have found texts literature television shows movies and newspapers meaningful This collection emphasizes that new diversity examining movies newspapers fans television shows and traditional American as well as modern Hispanic Black and Women s literature The essays on literature include James Machor on Melville s short fiction Kenneth Roemer on Edward Bellamy s utopian work *Looking Backward* Amy Blair on the popularity of Sinclair Lewis s *Main Street* Marcial Gonzalez on Danny Santiago and his Hispanic novel *Famous All Over Town* and Leonard Diepeveen on modernist fiction and criticism The theoretical essays on reader oriented criticism include Patsy Schweickart on interpretation and the ethics of care and Jack Bratich on active audiences Media versions of response criticism include Andrea Press and Camille Johnson s ethnographic analysis of fans of the Oprah Winfrey Show Janet Staiger on Robert Aldrich s film version of Mickey Spillane s *Kiss Me Deadly* and Rhiannon Bury on the fans of the HBO television show *Six Feet Under* History of the book versions include Barbara Hochman on the popularity of the 1890s editions of Harriet Beecher Stowe s *Uncle Tom s Cabin* Ellen Garvey on nineteenth century scrapbooks of newspaper and David Nord on early twentieth century newspapers relations to audience charges of bias and unfairness Poststructuralist studies include Philip Goldstein on Richard Wright s *Native Son* Steve Mailloux on *Reading Lolita in Tehran* and Tony Bennett on the cultural analyses of Pierre Bourdieu The collection concludes with essays by Janice Radway on the limits of these methods and on the possibility of new forms of sociological and anthropological reception study and by Toby Miller on the reception deception in relation to the worldwide distribution and reception of movies and television shows

Americans in Dissent
Steven L. Piott,2014-10-15 *Americans in Dissent* is designed as a collection of biographical essays written for general readers and undergraduates that focuses on the topic of American dissent during the period from 1830 to 1890 Centered on influential nineteenth century social critics this volume shifts the focus of American reform away from romantic attempts at reforming the individual to more pragmatic efforts aimed at confronting social economic and political problems Coexisting with what seemed to be a preponderance of romantic idealism during much of the period was an undercurrent of genuine realism Instead of looking through the prism of a pre modern society many of these dissenters focused on how society was

becoming increasingly acquisitive and entrepreneurial They were among the first to question laissez faire individualism and unrestrained industrial capitalism and anticipated the critiques of later Progressive Era reformers Representing a wide range of interests each of the selections features a fascinating and provocative man or woman who offered a fundamental critique of American society and made a significant contribution to the development of the reform ethos that characterized the period
