Lord Dunsany, H.P. Lovecraft, and Ray Bradbury William F. Touponce,2013-10-10 In his classic study Supernatural Horror in Literature H P Lovecraft discusses the emergence of what he called spectral literature literature that involves the gothic themes of the supernatural found in the past but also considers modern society and humanity Beyond indicating how authors of such works derived pleasure from a sense of cosmic atmosphere Lovecraft did not elaborate on what he meant by the term spectral as a form of haunted literature concerned with modernity In Lord Dunsany H P Lovecraft and Ray Bradbury Spectral Journeys William F Touponce examines what these three masters of weird fiction reveal about modernity and the condition of being modern in their tales In this study Touponce confirms that these three authors viewed storytelling as a kind of journey into the spectral Furthermore he explains how each identifies modernity with capitalism in various ways and

shows a concern with surpassing the limits of realism which they see as tied to the representation of bourgeois society The collected writings of Lord Dunsany H P Lovecraft and Ray Bradbury span the length of the tumultuous twentieth century with hundreds of stories By comparing these authors Touponce also traces the development of supernatural fiction since the early 1900s Reading about how these works were tied to various stages of capitalism one can see the connection between supernatural literature and society This study will appeal to fans of the three authors discussed here as well as to scholars and others interested in the connection between literature and society criticism of supernatural fiction the nature of storytelling and the meaning and experience of modernity **Film Bulletin** ,1978 **Aldous Huxley, from Poet to**

Third Series Library of Congress. Copyright Office,1973 Notional Identities Thomas Christie,2014-07-18 Notional Identities takes up the challenge of engaging with the popular genres of speculative fiction and crime fiction by Scottish authors from the mid 1970s until the beginning of the twenty first century examining a variety of significant novels from across the decades in the light of wider considerations of ideology genre and national identity The book investigates the extent to which the national political and cultural climate of this tumultuous era informed the narrative form and social commentary of such works and considers the manner in which and the extent to which a specific and identifiably Scottish response to these ideological matters can be identified in popular prose fiction during the period under discussion Although Scottish literary fiction of recent decades has been studied in considerable depth Scottish popular genre literature has

received markedly less critical scrutiny in comparison Notional Identities aims to help in redressing this balance examining popular Scottish texts of the stated period in order to reflect upon whether a significant relationship can be discerned between genre fiction and the mainstream of Scottish literary writing and to consider the characteristics of the literary connections which exist between these different modes of writing
