Psychopharmacology Abstracts ,1973 *Shattered States* Judy Yellin,Kate White,2018-06-14 This book is an outcome of the fourteenth John Bowlby Memorial Conference held in London The conference covers the theme of understanding and treatment of the extreme state experienced in psychosis and major dissociative disorders by clients who have not benefited from psychoanalytic psychotherapy *Progress in Psychiatric Drug Treatment* Donald F. Klein,Rachel G. Klein,1976

Guidelines for the Use of Psychotropic Drugs H.C. Stancer,P.E. Garfinkel,V.M. Rakoff,2012-12-06 to the Clinician Although huge quantities of drugs are dispensed daily by psychiatrists there appears to be insufficient concern about the short and long term effects of these exogenous agents on the recipients our patients Many clinicians have been trained at a time when knowledge of clinical psychopharmacology was superficial at best and recent trainees do not necessarily have access to newer constantly changing relevant information The busy clinician is frequently dependent upon the limited knowledge dispensed by the drug company representatives and naturally shys away from many of the more esoteric contributions appearing in the literature Because of the foregoing issues the Executive of the Clarke Institute of Psychiatry of the University of Toronto with the financial support of the Ministry of Health of the Government of Ontario organized an international symposium on May 14 17 1982 to bring together some of the acknowledged experts in clinical psychopharmacology This book is in part a reflection of that symposium The editors are aware that a contributed volume however tightly edited is not necessarily a textbook Notwithstanding this it was thought to be important to assemble expert opinion on current important issues of immediate concern to the practicing clinician With this in mind the chapters have been organized around five themes Schizophrenia Affective disorders and Anxiety are clearly important since they are the major targets of drug use

in psychiatry **What? Who? Me!!** Otto William “Bill” Wendel, PhD, 2014-09-19 The medical record is the single tangible tool that can be used to accurately access reflect the quality of medical care rendered to patients in a hospital Judgment of the medical record should be made only by qualified members of the Medical Staff who serve on its reviewing committees Medical Record Medical Audit and Tissue In addition the medical record should serve as a scientific teaching tool in the education of interns and residents as well as in the continuing education of practicing physicians To ensure quantitative and qualitative completeness of the medical record the medical staff of the Barberton Citizens Hospital has set forth in its Rules and Regulations policies governing these records The responsibilities of the attending and house physician are made explicit The reviewing committees are obliged to insure adherence to these policies The medical record librarian and her staff upon receipt of the chart from the floor grade it for clerical deficiencies Factors such as the quantity of progress notes presence or lack of consultation notes completeness of history or physical examination should not be left to the discretion of the medical record department personnel Such elements are only to be judged by physicians However in instances of obvious deficiency the medical record librarian should seek the opinion of the chairman of the Medical Record Committee He should then decide what steps if any should be taken The policies concerning Medical Records in the Rules and Regulations are set before the Medical Staff they need only be followed to produce good records that are a true picture of the care being rendered However it must be re emphasized that the ultimate responsibility for providing a good medical record rests with the physician of record Members of the house staff nursing service and many other paramedical personnel assist him in the care of his patient nevertheless it is he who must authenticate the accurate recording of this care Psychopharmacology Bulletin ,1974
