A History of American Literature Fred Lewis Pattee, 1896 **Brief History of English and American Literature** Henry Augustin Beers, 1897 *A History of American Literature, with a View to the Fundamental Principles Underlying Its Development* Fred Lewis Pattee, 1909

Brief History of English and American Literature Henry A. Beers, 2017-07-25. This book contains a brief history of English and American literature; it was written by Henry Augustin Beers and also contains an introduction and supplementary chapters on the Religious and Theological Literature of Great Britain and the United States by John Fletcher Hurst. *The Bulletin of the Hartford Public Library* Hartford Public Library, 1901 *General Catalogue* Belfast Free Library (Belfast, Me.), 1896

Schools of Fiction Morgan Day Frank, 2023-01-09. Throughout history, American literature has provided an escape from the classroom; yet authors like Twain, Melville, and Ellison remain key figures in high school and college curricula. This book offers an account of this paradox, examining the contentious but ultimately generative relationship between literary and scholastic culture in the US.

Unusable Past Russell J. Reising, 2013-11-05. First Published in 2002. Amongst a time of rapid and radical social change, *New Accents* is a positive response to change with each volume seeking to encourage rather than resist the process of change, to stretch rather than reinforce boundaries that currently define literature and its academic study. This study offers the authors' theories of American literature, and more specifically, his interest here is in how those theories define the canon of American literature and how those definitions influence our understanding and teaching of that canon.

Catalogue of the Free Public Library ... Decatur (Ill.). Free Public Library, 1894 *Predicting the Past* Michael Boyden, 2009. Drawing from the social theories of Niklas Luhmann and Mary Douglas, *Predicting the Past* advocates a reflexive understanding of the paradoxical institutional dynamic of American literary history as a professional discipline and field of study. Contrary to most disciplinary accounts, Michael Boyden resists the utopian impulse to offer supposedly definitive solutions for the legitimization crises besetting American literature studies by going beyond its inherited racist, classist, and sexist underpinnings. Approaching the existence of the American literary tradition as a typically modern problem generating diverse but functionally equivalent solutions, Boyden argues how its peculiarity does not, as is often supposed,

reside in its restrictive exclusivity but rather in its massive inclusivity which drives it to constantly revert to a self negating beyond perspective Predicting the Past covers a broad range of literary histories and reference works from Rufus Griswold's 1847 *Prose Writers of America* to Sacvan Bercovitch's monumental *Cambridge History of American Literature* Throughout Boyden focuses on particular themes and topics illustrating the self induced complexity of American literary history such as the early Anglocentric roots theories of American literature the debate on contemporary authors in the age of naturalism the plurilingual ethnocentrism of the pioneer Americanists of the mid twentieth century and the genealogical misrepresentation of founding figures such as Jonathan Edwards Emily Dickinson and Robert Lowell

Gender and Rhetorical Space in American Life, 1866-1910 Nan Johnson, 2002 Nan Johnson demonstrates that after the Civil War nonacademic or parlor traditions of rhetorical performance helped to sustain the icon of the white middle class woman as queen of her domestic sphere by promoting a code of rhetorical behavior for women that required the performance of conventional femininity Through a lucid examination of the boundaries of that gendered rhetorical space and the debate about who should occupy that space Johnson explores the codes governing and challenging the American woman's proper rhetorical sphere in the postbellum years While men were learning to preach practice law and set political policies women were reading elocution manuals letter writing handbooks and other conduct literature These texts reinforced the conservative message that women's words mattered but mattered mostly in the home Postbellum pedagogical materials were designed to educate Americans in rhetorical skills but they also persistently directed the American woman to the domestic sphere as her proper rhetorical space Even though these materials appeared to urge the white middle class women to become effective speakers and writers convention dictated that a woman's place was at the hearthside where her rhetorical talents were to be used in counseling and instructing as a mother and wife Aided by twenty one illustrations Johnson has meticulously compiled materials from historical texts no longer readily available to the general public and in so doing has illuminated this intersection of rhetoric and feminism in the nineteenth century The rhetorical pedagogies designed for a postbellum popular audience represent the cultural sites where a rethinking of women's roles becomes open controversy about how to value their words Johnson argues this era of uneasiness about shifting gender roles and the icon of the quiet woman must be considered as evidence of the need for a more complete revaluing of women's space in historical discourse
