Russia in the Age of the Enlightenment Roger Bartlett, Janet M Hartley, 1990-08-01 Russia in the Age of Enlightenment Erich Donnert, 1987-03 **Russia in the Age of the Enlightenment** Roger P. Bartlett, 1990 **War and Enlightenment in Russia** Eugene Miakinkov, 2020-07-09

War and Enlightenment in Russia explores how members of the military during the reign of Catherine II reconciled Enlightenment ideas about the equality and moral worth of all humans with the Russian reality based on serfdom a world governed by autocracy absolute respect for authority and subordination to seniority While there is a sizable literature about the impact of the Enlightenment on government economy manners and literature in Russia no analytical framework that outlines its impact on the military exists Eugene Miakinkov's research addresses this gap and challenges the assumption that the military was an unadaptable and vertical institution Using archival sources military manuals essays memoirs and letters the author demonstrates how the Russian militaires philosophes operationalized the Enlightenment by turning thought into reality

0Darkness is all in the past sunshine predicts happy days
Shining the way with the light mirrored off their rocky bluffs

through the corridors of power the battlefields of conquest and the souls of a people who shaped the destiny of their homeland Prepare to be enthralled by this epic saga of a nation s rise from adversity to greatness If you like this book write a review *Writing History in Late Imperial Russia* Frances Nethercott,2019-12-26 It is commonly held that a strict divide between literature and history emerged in the 19th century with the latter evolving into a more serious disciple of rigorous science Yet in turning to works of historical writing during late Imperial Russia Frances Nethercott reveals how this was not so rather she argues fiction lyric poetry and sometimes even the lives of artists consistently and significantly shaped historical enquiry Grounding its analysis in the works of historians Timofei Granovskii Vasilii Klyuchevskii and Ivan Grevs *Writing History in Late Imperial Russia* explores how Russian thinkers being sensitive to the social cultural and psychological resonances of creative writing drew on the literary canon as a valuable resource for understanding the past The result is a novel and nuanced discussion of the influences of literature on the development of Russian historiography which shines new light on late Imperial attitudes to historical investigation and considers the legacy of such historical practice on Russia today

Religion and Enlightenment in Catherinian Russia Elise Kimerling Wirtschafter,2013-03-15 This valuable study explores the Russian Enlightenment with reference to the religious Enlightenment of the mid to late eighteenth century Grounded in close reading of the sermons and devotional writings of Platon Levshin Court preacher and Metropolitan of Moscow the book examines the blending of European ideas into the teachings of Russian Orthodoxy Highlighting the interplay between Enlightenment thought and Orthodox enlightenment Elise Wirtschafter addresses key questions of concern to religious Enlighteners across Europe humanity s relationship to God and creation the distinction between learning and enlightenment the role of Christian love in authority relationships the meaning of free will in a universe governed by Divine Providence and the unity of church monarchy and civil society Countering scholarship that depicts an Orthodox religious culture under assault from European modernity and Petrine absolutism Wirtschafter emphasizes the ability of Russia s educated churchmen to assimilate and transform Enlightenment ideas The intellectual and spiritual vitality of eighteenth century Orthodoxy helps to explain how Russian policymakers and intellectuals met the challenge of European power while simultaneously coming to terms with the broad cultural appeal of the Enlightenment s universalistic human rights agenda *Religion and Enlightenment in Catherinian Russia* defines the Russian Enlightenment as a response to the allure of European modernity as an instrument of social control and as the moral voice of an emergent independent society Because Russia s enlightened intellectuals focused on the moral perfectibility of the individual human being rather than social and political change the originality of the Russian Enlightenment has gone unrecognized This study corrects images of a superficial Enlightenment and crisis ridden religious culture arguing that in order to understand the humanistic sensibility and emphasis on individual dignity that permeate Russian intellectual history and the history of the educated classes more broadly it is necessary to bring Orthodox teachings into the discussion of Enlightenment thought The result is a book that explains the

distinctive origins of modern Russian culture while also allowing scholars to situate the Russian Enlightenment in European and global history **Catherine the Great and the French Philosophers of the Enlightenment** Inna Gorbatov, 2006

This research monograph is the result of many years of archival investigation in Russia France and elsewhere into the nature of Catherine the Great's involvement with the French Enlightenment Professor Gorbatov's conclusions go far beyond the consensus of philosophic and cultural interests masking an authoritarian and at times barbarous emerging European power and delves instead into Catherine's fascination with French political and social ideals Catherine's thirty four year reign was marked by a furious wholesale consumption of French arts and objets as well as a lavish patronage of French artists and philosophers Even Rousseau the self proclaimed enemy of monarchs was seriously studied though detested and debated by Catherine and her circle as the Czarina attempted to reform the educational system It is this theme of reform and renewal along with Europeanization that provides the great impetus of interest and patronage towards the philosophes and their ideas Professor Gorbatov also shows the effect of Catherine's interest on the higher aristocracy writers and emergent professional classes that was to reach a intellectual and political crisis upon the outbreak of the French Revolution the rise of Napoleon and her grandson's battles with the Decembrists *The Bentham Brothers and Russia* Roger Bartlett, 2022-09-29

The jurist and philosopher Jeremy Bentham and his lesser known brother Samuel equally talented but as a naval architect engineer and inventor had a long love affair with Russia Jeremy hoped to assist Empress Catherine II with her legislative projects Samuel went to St Petersburg to seek his fortune in 1780 and came back with the rank of Brigadier General and the idea famously publicised by Jeremy of the Inspection House or Panopticon *The Bentham Brothers and Russia* chronicles the brothers later involvement with the Russian Empire when Jeremy focused his legislative hopes on Catherine's grandson Emperor Alexander I ruled 1801-25 and Samuel found a unique opportunity in 1806 to build a Panopticon in St Petersburg the only panoptical building ever built by the Benthams themselves Setting the Benthams projects within an in depth portrayal of the Russian context Roger Bartlett illuminates an important facet of their later careers and offers insight into their world view and way of thought He also contributes towards the history of legal codification in Russia which reached a significant peak in 1830 and towards the demythologising of the Panopticon made notorious by Michel Foucault the St Petersburg building still relatively unknown is described here in detail on the basis of archival sources *The Benthams* interactions with Russia under Alexander I constituted a remarkable episode in Anglo Russian relations this book fills a significant gap in their history **The Russian Empire 1450-1801** Nancy Shields Kollmann, 2017

Modern Russian identity and historical experience has been largely shaped by Russia's imperial past an empire that was founded in the early modern era and endures in large part today *The Russian Empire 1450-1801* surveys how the areas that made up the empire were conquered and how they were governed It considers the Russian empire a Eurasian empire characterized by a politics of difference the rulers and their elites at the center defined the state's needs minimally with control over defense criminal law

taxation and mobilization of resources and otherwise tolerated local religions languages cultures elites and institutions The center related to communities and religions vertically according each a modicum of rights and autonomies but didn't allow horizontal connections across nobilities townsmen or other groups potentially with common interests to coalesce Thus the Russian empire was multi ethnic and multi religious Nancy Kollmann gives detailed attention to the major ethnic and religious groups and surveys the government's strategies of governance centralized bureaucracy military reform and a changed judicial system The volume pays particular attention to the dissemination of a supranational ideology of political legitimacy in a variety of media written sources and primarily public ritual painting and particularly architecture Beginning with foundational features such as geography climate demography and geopolitical situation The Russian Empire 1450-1801 explores the empire's primarily agrarian economy serfdom towns and trade as well as the many religious groups primarily Orthodoxy Islam and Buddhism It tracks the emergence of an Imperial nobility and a national self consciousness that was by the end of the eighteenth century distinctly imperial embracing the diversity of the empire's many peoples and cultures

Russia's Age of Serfdom 1649-1861 Elise Kimerling Wirtschafter, 2008-02-11 Offering a broad interpretive history of the Russian Empire from the time of serfdom's codification until its abolition following the Crimean War Wirtschafter considers the institution of serfdom official social categories and Russia's development as a country of peasants ruled by nobles military commanders and civil servants

Historiography of Imperial Russia: The Profession and Writing of History in a Multinational State Thomas Sanders, 2015-02-12 This collection of the best new and recent work on historical consciousness and practice in late Imperial Russia assembles the building blocks for a fundamental reconceptualization of Russian history and history writing
