Russian Factory Women Workplace And Society 1880 1914:

Russian Factory Women Rose L. Glickman, 1984 A sophisticated detailed account of the lives of Russian factory women during the formative years of Russian industrial capitalism Glickman examines the interaction of class and gender that shaped the lives of women during this period of great often tumultuous social political and economic change Following women from the countryside into Russia's workshops and factories and describing their daily lives at work in the family and in society the author suggests that women's habits aspirations and expectations were scarcely altered in the transition from agrarian to industrial life Back cover Women and Work in Russia, 1880-1930 Jane McDermid, Anna Hillyar, 2014-09-19 This study considers the impact of industrialisation revolution and world war on women's working lives in Russia Unlike existing studies this new text looks at women from all social classes In the process the authors reveal how the stereotypical portrayal of Russian women's work as a struggle of endurance and sacrifice distorts and oversimplifies the reality of their experience between 1880 and 1930 Women Workers in the Soviet Interwar Economy M. Ilic, 1998-12-21 This book examines changes in official Soviet policy towards the labour protection of women workers 1917-41 Important legislative enactments are analysed In the 1920s emphasis was placed on the protection of female labour by the agencies responsible for regulating women's role in industrial production With the mass recruitment of women workers to the Soviet industrialisation drive by the early 1930s labour protection issues were often ignored as women were encouraged to play a more equal role in the production process Policing Prostitution Siobhán Hearne, 2021 Policing Prostitution examines the complex world of commercial sex in the late Russian Empire investigating the lives of women who sold sex the men who paid for it mediators the police and wider urban communities Social Identity in Imperial Russia Elise Kimerling Wirtschafter, 1997-10-01 A broad panoramic view of Russian imperial society from the era of Peter the Great to the revolution of 1917 Wirtschafter's study sets forth a challenging interpretation of one of the world's most powerful and enduring monarchies A sophisticated synthesis that combines extensive reading of recent scholarship with archival research it focuses on the interplay of Russia's key social groups with one another and the state The result is a highly original history of Russian society that illuminates the relationships between state building large scale social structures and everyday life Beginning with an overview of imperial Russia's legal and institutional structures Wirtschafter analyzes the ruling classes and service elites the land owning nobility the civil and military servicemen the clergy and then examines the middle groups the raznochintsy the commercial industrial elites the professionals the intelligentsia before turning to the peasants townspeople and factory workers Wirtschafter argues that those very social political and legal relationships that have long been viewed as sources of conflict and crisis in fact helped to promote integration and foster the stability that ensured imperial Russia's survival Midwives of the Revolution Jane McDermid, Anna Hillyar, 2024-11-01 The Bolshevik seizure of power in 1917 and the ensuing communist regime have often been portrayed as a man's revolution with women as bystanders or even victims

Midwives of the Revolution examines the powerful contribution made by women to the overthrow of tsarism in 1917 and their importance in the formative years of communism in Russia Focusing on the masses as well as the high ranking intelligentsia Midwives of the Revolution is the first sustained analysis of female involvement in the revolutionary era of Russian history The authors investigate the role of Bolshevik women and the various forms their participation took Drawing on the experiences of representative individuals the authors discuss the important relationship between Bolshevik women and the workers in the turbulent months of 1917 The authors demonstrate that women were an integral part of the revolutionary process and challenge assumptions that they served merely to ignite an essentially masculine revolt By placing women center stage without exaggerating their roles this study enriches our understanding of a momentous event in twentieth century history
