Corruption and the Russian Economy Yulia Krylova,2018-04-17 Corruption and the Russian Economy examines why the number of entrepreneurs is declining so rapidly in contemporary Russia how many economic opportunities are being irrevocably lost each year because of administrative corruption and why entrepreneurship has become one of the most dangerous occupations in the country over the last decade Based on extensive research including in depth interviews with entrepreneurs and case studies it reveals a corrupt system of government agencies at both the regional and local levels and the increasing involvement of public officials in unlawful seizures of businesses One major conclusion is that the vast majority of informal payments by entrepreneurs to regulatory agencies are made not to achieve illegal advantages but rather to secure the property rights that they are entitled to under the law **Essays in Russian and Soviet History in Honor of**

dissolved in June 1919 and its work assigned to the State Department As one of the first American attempts at foreign aid the bureau s program was necessarily tentative but Linda Killen shows that as a specific case the bureau offers an instructive example It reveals a widespread ignorance of Russian affairs both in government and in business circles More importantly it demonstrates the fatal weakness of an idealistic policy that was blind to political realities Perhaps the bureau s most tangible accomplishment came when its 5 million were finally transferred to the Trans Siberian Railroad to purchase new equipment Yet ironically it was the hated Bolsheviks who benefitted from this aid when they seized Siberia and used the new equipment to restore the rail line to efficient operation This detailed study of the Russian Bureau sheds new light on a turbulent and tragic area of American diplomacy Unfortunately the democratic Russia that Wilson sought to help may never have existed except in his mind and never came to be
