Popova, 1975      *Medieval Russian Fortresses AD 862-1480* Konstantin S Nossov, 2012-06-20 According to Russian legend in the year AD 862 the Slav tribes of what is now European Russia invited a number of Scandinavian princes to rule over them However on the death of these princes Prince Oleg seized Kiev and united the Northern and Southern Russian territories building extensive fortifications to protect its borders The rise of feudalism in the 11th century led to the development of individual fortified sites and the extended border defenses fell into disrepair Consequently Mongol hordes poured over the border introducing the siege warfare techniques of the East heavily influencing the fortification styles thereafter Using a wealth of archeological evidence and first hand sources Konstantin Nossov charts the history of the medieval Russian fortress from its early beginnings until the 14th century paying special attention to the development of one of the most iconic fortifications in the world the Kremlin      **Bibliographic Guide to Art and Architecture** New York Public Library. Art and Architecture Division, 1975      *Subject Catalog* Library of Congress,      **The Inner Cohesion Between the Bible and the Fathers in Byzantine Tradition** Stefan Mattheus Royé, 2007 Throughout the rich history of Bible research and patrology a palet of different traditions has always existed One of these which is based on an abundant manuscript tradition of biblical and patristic interpretation is the tradition of the Eastern Orthodox Church In this book a liturgico codicological approach to the Byzantine biblical and patristic manuscripts is set out This approach offers a key to understanding the position of the biblical and patristic writings in the Eastern Orthodox Churches It stems from what is termed a liturgical hypothesis and implies the necessity of a thorough reclassification of the extant manuscripts Characteristic of the Orthodox approach are the anchoring of the biblical writings in the liturgy of the Church and the close connection between the Scriptures and the interpretative framework of the fathers Special attention is paid to setting out a path of codicological research that could redirect study of the Byzantine codices to a system that allows for a more inclusive picture of the original biotope in which the manuscripts were created and evolved Once inside this biotope the reasons for and choices behind the content and codex formation of the biblical and patristic manuscripts become apparent      **The British Library General Catalogue of Printed Books 1976 to 1982** British Library, 1983      **The Petrine Revolution in Russian Culture** James Cracraft, 2009-07-01 The reforms initiated by Peter the Great transformed Russia not only into a European power but into a European culture a shift argues Cracraft that was nothing less than revolutionary The author of seminal works on visual culture in the Petrine era Cracraft now turns his attention to the changes that occurred in Russian verbal culture      *National Union Catalog* , 1978      *Library of Congress Catalogs* Library of Congress, 1979

[With] Atlas Francis Vinton Greene, 1880 *Russian Public Finance During the War* Alexander Michelson, Pavel Natanovich Apostol, 1928 *Old Russian Possessive Constructions* Hanne Martine Eckhoff, 2011-10-27 This book is a detailed study of the possessive semantic space within the framework of construction grammar Using corpus data from Old Church Slavonic and Old Russian the book uses semantic maps to document the relationship between form and meaning in a set of semantically closely related syntactic constructions that can all express adnominal possession and all partially overlap The book also traces the development of these constructions from the earliest Slavic attestations towards Modern Russian thus also using the semantic maps as a diachronic tool This approach results in a much improved analysis of the data at hand The competing possessive constructions are treated as partly synonymous constructions in the same semantic space Changes are then seen to follow paths in this space The constructionist perspective also allows discerning the relative contributions of the possessor nominal the possessee nominal and properties of the constructions themselves The book is a contribution to Slavic historical linguistics to the general understanding of adnominal possession and to forwarding functionalist approaches to syntactic change Ultra terminum vagari Carl Nylander, Börje Magnusson, 1997 The Literary Travelogue R.K. Wilson, 2012-12-06 The aim of this study is to trace the development of the literary travel memoir in Russia during the last decades of the eighteenth century and the first decades of the nineteenth Having indicated the provenances of this genre in Western Europe I shall evaluate its role in Russian literary history Because this study is not intended to be an historical survey of all significant travel works that appeared in Russia I shall pass over such early pioneer travelers as the Abbot Daniil who visited Palestine at the beginning of the twelfth century and recorded for his countrymen detailed descriptions of the Holy places or the merchant Afanasij Nikitin whose travel notes concerning a trip to India are preserved in a fifteenth century chronicle The travel genre which had become enormously popular in eighteenth century Western Europe was cleverly exploited by Fonvizin Radishchev and Karamzin to expound to the Russian reading public certain important notions on literary theory on society foreign and domestic on themselves and on nature The travel genre then as now a flexible instrument for transmitting by means of diary style narrative information about distant often exotic people and place had been adapted by Sterne and others to themes having little relation to a conventional journey The Russians were quick to grasp the genre's literary as well as its polemical possibilities and influenced by Western models they too used it to convey theoretical assertions on a variety of Subjects **The Coloured**

A wealth of knowledge For every incident chasing Kornilov or dealing with Admiral Kolchak the reader has a 360 degree view Roads to the Great War The Russian Civil War was one of the most fateful of the 20th century s military conflicts a bloody three year struggle whose outcome saw the establishment of a totalitarian communist regime within the former Russian Empire As such it commands the attention of the military specialist and layman alike as we mark the one hundredth anniversary of the war s end This work is the third volume of the three volume Soviet official history of the Russian Civil War which appeared during 1928 1930 just before the imposition of Stalinist orthodoxy While the preceding volumes focused on the minutiae of the Red Army s organizational development and military art this volume provides an in depth description and analysis of the civil war s major operations along the numerous fronts from the North Caucasus the Don and Volga rivers the White Sea area the Baltic States and Ukraine as well as Siberia and Poland It also offers a well argued case for the political reasons behind the Bolsheviks military strategy and eventual success against their White opponents And while it is a certainly a partisan document with a definite political bias it is at the same time a straightforward military history that manages to avoid many of the hoary myths that later came to dominate the subject As such it is easily the most objective account of the struggle to emerge from the Soviet Union before the collapse of the communist system in 1991
