Russian Talk:

Russian Talk Nancy Ries, 1997 As one of the first Western ethnographers working in Moscow Nancy Ries became convinced that talk is one crucial way in which Russian identity is constructed and reproduced Listening to the grim stories people used to characterize their lives during perestroika and encountering the florid pessimism with which Muscovites described the unraveling of Soviet governance Ries realized that these dire tales played a crucial role in fabricating a sense of shared experience and destiny While many of the narratives aptly depicted the chaotic social and political events they also promoted key images of Russianness and presented Russian society as an inescapable realm of injustice absurdity and suffering At the height of perestroika in the early 1990s Moscow residents commonly used the phrase complete ruin to refer to the disintegration of Russian society encompassing in that phrase the escalation of crime the disappearance of goods from stores the fall of production ecological catastrophes ethnic violence in the Caucasus the degradation of the arts and the flood of pornography Ries argues that such stories became a genre of folklore consistent in their lamenting portentous tone and their dramatic culturally poignant details

Russian language guide for travelers YouGuide Ltd, The Russian-speaking Populations in the Post-Soviet Space Ammon Cheskin, Angela Kachuyevski, 2021-05-13 In the wake of Russia's annexation of Crimea this volume examines the relationship Russia has with its so called compatriots abroad Based on research from Belarus Estonia Kazakhstan Latvia and Ukraine the authors examine complex relationships between these individuals their home states and the Russian Federation Russia stands out globally as a leading sponsor of kin state nationalism vociferously claiming to defend the interests of its so called diaspora especially the tens of millions of ethnic Russians and Russian speakers who reside in the countries that were once part of the Soviet Union However this volume shifts focus away from the assertive diaspora politics of the Russian state towards the actual groups of Russian speakers in the post Soviet space themselves In a series of empirically grounded studies the authors examine complex relationships between Russians their home states and the Russian Federation Using evidence from Belarus Estonia Kazakhstan Latvia and Ukraine the findings demonstrate multifaceted levels of belonging and estrangement with spaces associated with Russia and the new independent states in which Russian speakers live By focusing on language media politics identity and quotidian interactions this collection provides a wealth of material to help understand contemporary kin state policies and their impact on group identities and behaviour The chapters in this book were originally published as a special issue of Europe Asia Studies

Sidnell, 2009-09-17 Conversation analysis is an approach to the study of social interaction that focuses on practices of speaking that recur across a range of contexts and settings The early studies in this tradition were based on the analysis of English conversation More recently however conversation analysts have begun to study talk in a broader range of communities around the world Through detailed analyses of recorded conversations this book examines differences and similarities across a wide range of languages including Finnish Japanese Tzeltal Mayan Russian and Mandarin Bringing together interrelated methodological and analytic contributions it explores topics such as the role of gaze in question and answer sequences the organization of repair and the design of responses to assessments The emerging comparative perspective demonstrates how the structure of talk is inflected by the local circumstances within which it operates

Coercion to Speak Aaron Fogel, 1985 Novelists have individually distinctive ideas of dialogue Aaron Fogel argues In this

analysis of Conrad's narrative craft he explores with broad implications the theory and uses of dialogue Conrad's was a distinctive reading of the English language conditioned by his particular idea of forced speech and forced writing Fogel shows how Conrad shaped ideas and events and interpreted character and institutions by means of dialogues representing not free exchange but various forms of forcing another to respond He applied this format not only to the obvious political contexts such as inquisition or spying but also to seemingly more private relations such as marriage commerce and storytelling His idea of dialogue shaded the meanings he gave to words even to characters names Conrad is particularly interested in scenes in which a speech forcer is surprised repudiated or punished Fogel concludes that Conrad increasingly saw the punishment of the speech forcer as classically related to Oedipus inquiries in which the provoked answers rebound upon and destroy the forcer This punishment is as Shakespeare Scott and Wordsworth also dramatically intuited the classical Oedipal dialogue scene Fogel's analysis ranges widely over Conrad's fiction but focuses especially on *Nostromo* *The Secret Agent* and *Under Western Eyes* His readings offer a balanced critique of Mikhail Bakhtin's theories about dialogic Conrad's novels have many of the features Bakhtin identified as dialogical but he was preoccupied with coercion in dialogue form Fogel proposes that to understand this form is to begin to reconsider our political and aesthetic assumptions about what dialogue is or ought to be

Laitin,1998 Laitin portrays these Russian speakers as a beached diaspora since the populations did not cross international borders the borders themselves receded He asks what will become of these populations Will they learn the languages of the republics in which they live and prepare their children for assimilation Will they return to a homeland many have never seen Or will they become loyal citizens of the new republics while maintaining a Russian identity

Jewish Russians Sascha L. Goluboff,2012-03-06 The prevalence of anti-Semitism in Russia is well known but the issue of race within the Jewish community has rarely been discussed explicitly Combining ethnography with archival

research Jewish Russians Upheavals in a Moscow Synagogue documents the changing face of the historically dominant Russian Jewish community in the mid 1990s Sascha Goluboff focuses on a Moscow synagogue now comprising individuals from radically different cultures and backgrounds as a nexus from which to explore issues of identity creation and negotiation Following the rapid rise of this transnational congregation headed by a Western rabbi and consisting of Jews from Georgia and the mountains of Azerbaijan and Dagestan along with Bukharan Jews from Central Asia she evaluates the process that created this diverse gathering and offers an intimate sense of individual interactions in the context of the synagogue s congregation Challenging earlier research claims that Russian and Jewish identities are mutually exclusive Goluboff illustrates how post Soviet Jews use Russian and Jewish ethnic labels and racial categories to describe themselves Jews at the synagogue were constantly engaged in often contradictory but always culturally meaningful processes of identity formation Ambivalent about emerging class distinctions Georgian Russian Mountain and Bukharan Jews evaluated one another based on each group s supposed success or failure in the new market economy Goluboff argues that post Soviet Jewry is based on perceived racial class and ethnic differences as they emerge within discourses of belonging to the Jewish people and the new Russian nation

The Red Mirror Gulnaz Sharafutdinova, 2020 What explains Putin s enduring popularity in Russia In The Red Mirror Gulnaz Sharafutdinova uses social identity theory to explain Putin s leadership The main source of Putin s political influence she finds lies in how he articulates the shared collective perspective that unites many Russian citizens Under his tenure the Kremlin s media machine has tapped into powerful group emotions of shame and humiliation derived from the Soviet

transition in the 1990s and has politicized national identity to transform these emotions into pride and patriotism. Culminating with the annexation of Crimea in 2014, this strategy of national identity politics is still the essence of Putin's leadership in Russia. But victimhood-based consolidation is also leading the country down the path of political confrontation and economic stagnation. To enable a cultural, social, and political revival in Russia, Sharafutdinova argues, political elites must instead focus on more constructively conceived ideas about the country's future. Integrating methods from history, political science, and social psychology, *The Red Mirror* offers the clearest picture yet of how the nation's majoritarian identity politics are playing out.

Black Square: Adventures in Post-Soviet Ukraine Sophie Pinkham, 2016-11-01 A distinctive writer's fascinating journey into the heart of a troubled region tracing the origins of the war that is now tearing Europe apart. Each time Ukraine has rebuilt itself over the last century, it has been plagued by the same conflicts: corruption, poverty, and most of all, Russian aggression. Sophie Pinkham saw all this and more during ten years in Ukraine and Russia, a period that included the Maidan revolution of 2013-14, Russia's annexation of Crimea, and the ensuing war in Donbass. With a keen eye for the dark absurdities of post-Soviet society, Pinkham presents a dynamic account of contemporary Ukrainian life. She meets, among others, a charismatic doctor helping to smooth the transition to democracy even as he struggles with drug dependence; a band of Ukrainian, Russian, and Belarusian hippies in a Crimean idyll; and a Jewish clarinetist agitating for Ukrainian liberation. These fascinating personalities, rendered in a bold, original style, deliver an indelible impression of a country on the brink. *Black Square* is necessary reading for anyone who wishes to learn the roots of the current Russo-Ukrainian war and the stories of the people who live it every day.

A Belgian Perspective on International Affairs Gilbert Doctorow, 2019-11-21 The essays in this book deal with major political, social, and cultural events primarily in Europe and Russia during the period 2017-2019, in which the author was a participant or eyewitness and has personal impressions to share. Several of the essays are drawn from other genres, including travel notes, public lectures, and reviews of particularly insightful books on key issues of our times, like immigration, liberalism, and war with Russia, that have not received the broad public exposure they merit.

Hammer and Silicon Sheila M. Puffer, Daniel J. McCarthy, Daniel M. Satinsky, 2018-06-21 This deeply personal book tells the untold story of the significant contributions of technical professionals from the former Soviet Union to the US innovation economy, particularly in the sectors of software, social media, biotechnology, and medicine. Drawing upon in-depth interviews, it channels the voices and stories of more than 150 professionals who emigrated from 11 of the 15 former Soviet republics between the 1970s and 2015 and who currently work in the innovation hubs of Silicon Valley and Boston/Cambridge. Using the social science theories of institutions, imprinting, and identity, the authors analyze the political, social, economic, and educational forces that have characterized Soviet immigration over the past 40 years, showing how the particularities of the Soviet context may have benefited or challenged interviewees' work and social lives. The resulting mosaic of perspectives provides valuable insight into the impact of immigration on US economic development.
