Entangled Art Histories in Ukraine Stefaniia Demchuk,Illia Levchenko,2024-11-29 This book explores ideologies conflicts and ideas that underpinned art historical writing in Ukraine in the 20th century Disciplinary beginnings testify both to its deep connection to Krakow Saint Petersburg and especially Vienna with its school of art history and originality of theoretical thought Art history started as another imperial project in Ukraine but ultimately transformed into the means of assertion of national identity The volume looks closely at the continuity and ruptures in scholarship caused by the establishment of Soviet power and challenges a number of existing stereotypes like total isolation under Communist rule and strict adherence to a Marxist Leninist methodology It showcases intellectual exchanges through published work personal contacts and ways to resist the politically enforced methodology Despite keeping the focus on one country it contributes to understanding the development of art history as an academic discipline in Europe more generally It also uncovers unknown or little researched personal and academic connections between art historians from Ukraine and their peers abroad Starting with the 19th century quest for the method and proceeding by disentangling the complexities of the 20th century the authors move on to the specifics of historiography after the formal collapse of the USSR The volume transgresses purely academic boundaries and tackles the development of the discourse in periodicals exhibition spaces and public discussions Thus the findings will be pertinent to all interested in politics art history museum studies intellectual history historiography and Eastern European studies **Universal - International - Global** Antje Kempe,Beata Hock,Marina Dmitrieva,2023-01-23

This collection of articles explores a possible alternative beginning of Global Art History and World Art Studies two methodologies that set a worldwide focus in the study of art around the 2000s Teaching back to earlier efforts to conceive of the international community in a less Eurocentric way the volume proposes a tentative link between socialist internationalism as a political and cultural diplomatic principle in the Soviet Block and some new approaches to art and cultural historiography introduced there In the Second World universal art history or Weltkunstgeschichte were endorsed as frameworks for the teaching and writing of art history Authors in this book interrogate whether world art history as practiced by socialist scholars had aspirations and achievements comparable to today s Global Art History and World Art Studies Or was this knowledge production in an internationalist paradigm a mere foil for communist rhetoric behind which severed cultural relations to the Western world could also be recommenced *A History of Russia* George Vernadsky,1969-01-01

Art of Transition Elise Herrala, 2021-12-30 The dissolution of the Soviet Union brought a massive change in every domain of life particularly in the cultural sector where artists were suddenly free from party mandated modes of representation and now could promote and sell their work globally But in Russia the encounter with Western art markets was fraught The Russian field of art still remains on the periphery of the international art world struggling for legitimacy in the eyes of foreign experts and collectors This book examines the challenges Russian art world actors faced in building a field of art in a society undergoing rapid and significant economic political and social transformation and traces those challenges into the twenty first century Drawing on historical and ethnographic research Art of Transition traces the ways the field of art has developed evolved and been sustained in Russia after socialism It shows how Russia s art world has grappled with its Soviet past and negotiated its standing in an unequal globalized present By attending to the historical legacy of Russian art throughout the twentieth century this book constructs a genealogy of the contemporary field of postsocialist art that illuminates how Russians have come to understand themselves and their place in the world

Nineteenth-century Painters and Painting Geraldine Norman, 1977-01-01 *Art in the Cold War* Christine Lindey, 1990 This book which covers new ground is a study of high and

low art official and unofficial in the Soviet Union and the West in the Cold War years 1945-62 It is a paradox that the Soviet Union a nation born of revolution should have encouraged official art which was conservative and conformist whereas Western Europe and the USA in particular should preach traditional values but have a high art which spoke of dissent Other curious contradictions and parallels emerge Soviet official art was predominantly realist in style and popular with the general public as were popular prints in the West Both have largely been ignored by the western art establishment It is the unofficial art of the Soviet Union and the high art of the West for example Rothko Pollock Bacon and Dubuffet which have always attracted critical attention Christine Lindey's pioneering study examines these paradoxes and illustrates many artists notably those from the Soviet Union whose work has rarely been seen in the West As glasnost changes our perceptions of the contemporary Soviet Union here is the first history of all aspects of art there in the postwar years set in the political context and comparing it with developments in art in the West *Rilke's Russia* Anna A. H. G. Armytage, 2018-05-03 Originally published in 1969 British merchants first penetrated to Moscow in the early 16th century From that time until today developments in Russia have influenced Britain in innumerable ways sometimes unexpectedly In

this volume Professor Armytage traces this influence showing how Tolstoy Kropotkin and others better known for their activities in fields other than education have in fact had their effect on education in Britain The lively account of the way in which these ideas have found their way into the British system shows that recent influences have been more direct In particular the rapid development of higher technological education owes a great deal to the Russian example

Transcending the Borders of Countries, Languages, and Disciplines in Russian Émigré Culture Christoph Flamm, Ada Raev, 2018-12-17 The political changes at the end of the last century in the Soviet Union and later the Russian Federation had deep reaching repercussions on the interpretation of Russian culture in the time of division between Russia Abroad and Russia at Home Ever since scholars have tried to understand and to describe the interrelationship between the two Russias In spite of intensive research numerous conferences and publications there are still many discoveries to be made and a number of questions to be answered This volume presents a selection of articles based on papers presented at an international conference on Russian migr culture that was held at Saarland University Germany in 2015 The essays assembled here offer new insights into aspects of Russian migr culture already known to scholarship but also to explore new facets of it As such it is not the well known centres and leading figures of Russian emigration that are highlighted instead the authors give prominence to places of seemingly secondary importance such as Prague Istanbul or India and to such lesser known aspects as collections and collectors of Russian migr art and the impact of cultural activities of the Russian emigration on the culture of the respective host countries
