**Cultures of Confinement** Frank Dikötter, Ian Brown, 2018-07-05 Prisons are on the increase from the United States to China as ever larger proportions of humanity find themselves behind bars While prisons now span the world we know little about their history in global perspective Rather than interpreting the prison s proliferation as the predictable result of globalization *Cultures of Confinement* underlines the fact that the prison was never simply imposed by colonial powers or copied by elites eager to emulate the West but was reinvented and transformed by a host of local factors its success being dependent on its very flexibility Complex cultural negotiations took place in encounters between different parts of the world and rather than assigning a passive role to Latin America Asia and Africa the authors of this book point out the acts of resistance or appropriation that altered the social practices associated with confinement The prison in short was understood in culturally specific ways and reinvented in a variety of local contexts examined here for the first time in global perspective

**Stories on Skin** Terry Baxter, Libby Coyner-Tsosie, 2025-01-23 Helping expand archival studies into impermanent media like body art this book suggests that archiving must be considered a form of storytelling Tattoos are not merely decorative they contain deep meaning for individuals and communities They document their wearers personal histories and position in families or society and they engage with a communal understanding of symbols This unique book makes the case that archivists who want to preserve as full a human story as possible must recognize the rich documentation provided by tattoos It also argues in a broader sense that traditional archives are not representative of the ways human beings transmit information through time and that they must be augmented by other types of storytelling to provide a more complete record of our species Authors Baxter and Coyner touch on timely topics such as historical narratives storytelling cultural traditions the body as a text social control and memorialization by considering tattoos as a personal and community archive Discussing tattoos as a storytelling tool the authors also challenge how history is kept and who gets included **Stories on Skin** is committed to the rights of communities to tell their stories in their own way and to the power that right brings

 Horror films have exploded in popularity since the tragic events of September 11 2001 many of them breaking box office  
 records and generating broad public discourse These films have attracted A list talent and earned award nods while at the  
 same time becoming darker more disturbing and increasingly apocalyptic Why has horror suddenly become more popular  
 and what does this say about us What do specific horror films and trends convey about American society in the wake of  
 events so horrific that many pundits initially predicted the death of the genre How could American audiences after tasting  
 real horror want to consume images of violence on screen Horror after 9 11 represents the first major exploration of the  
 horror genre through the lens of 9 11 and the subsequent transformation of American and global society Films discussed

include the Twilight saga the Saw series Hostel Cloverfield 28 Days Later remakes of The Texas Chainsaw Massacre Dawn of the Dead and The Hills Have Eyes and many more The contributors analyze recent trends in the horror genre including the rise of torture porn the big budget remakes of classic horror films the reinvention of traditional monsters such as vampires and zombies and a new awareness of visual technologies as sites of horror in themselves The essays examine the allegorical role that the horror film has held in the last ten years and the ways that it has been translating and reinterpreting the discourses and images of terror into its own cinematic language
