Russias Plato Plato The Platonic Tradi:

Russia's Plato Frances Nethercott, 2019-07-31 This title was first published in 2000 This work identifies the differences between the Russian intellectual approach to reading Plato and that of other European countries This study offers a complex perspective on Russian philosophical learnings up to 1930 The book contains five chapters with the first aiming to provide the general institutional context in which Russian 19th century Plato scholarship developed caught as it were between the rise of the historical sciences and the heavy hand of state interference in standardizing the educational system in the name of nation building and modernization The second chapter attempts to illustrate how Plato served as a reference in Russian philosophical culture and the third deals with aspects of Russian philosophy of law In the fourth chapter the author shifts his approach to compare and contrast a number of reactions to a single dialogue the Republic and in the final concluding chapter addresses the question of whether it is legitimate to speak of a Russian Platonism *In Marx's Shadow* Costica

Bradatan, Serguei Oushakine, 2010-03-19 Despite its key role in the intellectual shaping of state socialism Communist ideas are often dismissed as mere propaganda or as a rhetorical exercise aimed at advancing socialist intellectuals on their way to power By drawing attention to unknown and unexplored areas trends and ways of thinking under socialism the volume examines Eastern Europe and Russian histories of intellectual movements inspired negatively as well as positively by Communist arguments and dogmas Through an interdisciplinary dialogue the collection demonstrates how various bodies of theoretical knowledge philosophical social political aesthetic even theological were used not only to justify dominant political views but also to frame oppositional and nonofficial discourses and practices The examination of the underlying structures of Communism as an intellectual project provides convincing evidence for questioning a dominant approach that routinely frames the post Communist intellectual development as a revival or at least as a return of the repressed intellectual traditions As the book shows the logic of a radical break suggested by this approach is in contradiction with historical evidence a significant number of philosophical theoretical and ideological debates in post Communist world are in fact the logical continuation of intellectual conversations and confrontations initiated long before 1989 **Philosophical Thought**

in Russia in the Second Half of the Twentieth Century Vladislav Lektorsky, Marina F. Bykova, 2019-01-10 Philosophical Thought in Russia in the Second Half of the 20th Century is the first book of its kind that offers a systematic overview of an often misrepresented period in Russia s philosophy Focusing on philosophical ideas produced during the late 1950s early 1990s it reconstructs the development of genuine philosophical thought in the Soviet period and introduces those non dogmatic Russian thinkers who saw in philosophy a means of reforming social and intellectual life Covering such areas of philosophical inquiry as philosophy of science philosophical anthropology the history of philosophy activity approach as well as communication and dialogue studies the volume presents and thoroughly discusses central topics and concepts developed by Soviet thinkers in that particular fields Written by a team of internationally recognized scholars from Russia and abroad it

examines the work of well known Soviet philosophers such as Mikhail Bakhtin Evald Ilyenkov and Merab Mamardashvili as well as those important figures such as Vladimir Bibler Alexander Zinoviev Yury Lotman Georgy Shchedrovitsky Genrich Batishchev Sergey Rubinstein and others who have often been overlooked By introducing and examining original philosophical ideas that evolved in the Soviet period the book confirms that not all Soviet philosophy was dogmatic and tied to orthodox Marxism and the ideology of Marxism Leninism It shows Russian philosophical development of the Soviet period in a new light as a philosophy defined by a genuine discourse of exploration and intellectual progress rather than stagnation and dogmatism In addition to providing the historical and cultural background that explains the development of the 20th century Russian philosophy the book also puts the discussed ideas and theories in the context of contemporary philosophical discussions showing their relevance to nowadays debates in Western philosophy With short biographies of key thinkers an extensive current bibliography and a detailed chronology of Soviet philosophy this research resource provides a new understanding of the Soviet period and its intellectual legacy 100 years after the Russian Revolution

The Later Solov'ev Thomas Nemeth, 2019-07-24 This volume offers a critical examination of the later philosophical views of Vladimir Solov'ev arguably Russia's most famous and most systematic philosopher It offers a philosophically informed approach to this pivotal figure and to his era Inside readers will discover a detailed portrait of the often overlooked evolution of the philosopher's views during the final two decades of his life The author explores Solov'ev's still evolving aesthetic philosophy and his entry into the lively Russian discussion of free will The work then turns to the philosopher's mature statements on many figures from within the history of philosophy This includes Kant and Hegel Next readers will learn about his disagreements with several contemporaries as well as contemporaneous movements These include positivism and materialism In addition the coverage includes an elucidation and examination of Solov'ev's final expression of his ethical philosophy as set forth in his major ethical treatise *Justification of the Moral Good* The overall picture that emerges is of a much more vibrant and heated philosophical community than typically portrayed in Western secondary literature The book ends with a reflection on the rise of Solov'ev as a religious mystic at the expense of a critical evaluation of his thought

Socrates in Russia, 2022-10-04 This volume explores the influence of the Socratic legacy in the Russian East European and Soviet contexts For writers philosophers and artists Socrates has served as a potent symbol of the human capacity for philosophical reflection as well as the tumultuous

and often dangerous reality in which Russian speaking and Soviet intellectuals found themselves The thirteen chapters include surveys of historical periods and movements the 18th century Nietzscheanism and the Greek Renaissance of Russian culture studies of individual writers and philosophers Skovoroda Herzen Dostoevsky Rozanov Bely Narbut and many others and investigations of Socratic subtexts e g in Bulgakov's Master and Margarita and Nosov's Neznaika series for children The volume concludes with a Socratic Texts section of new translations The plurality of these topics demonstrates the continued relevance of the Socratic myth not only for Russian speaking culture but for the world [Slavic Review](#) ,2002 American quarterly of Soviet and East European studies varies [Heidegger in Russia and Eastern Europe](#) Jeff Love,2017-07-17

Heidegger's influence in the twentieth century probably outstrips that of any other philosopher at least in the so called Continental tradition The revolution Heidegger brought about with his compelling readings of the broader philosophical tradition transformed German philosophy and spread quickly to most of Europe the United States and Japan This volume examines Heidegger's influence in a region where his reception has had a remarkable and largely hidden history Eastern Europe and Russia The book begins by addressing two important literary influences on Heidegger Dostoevsky and Tolstoy It goes on to examine Heidegger's philosophical influence and features three crucial figures in the reception of Heidegger's thought in Eastern Europe and Russia Vladimir Bibikhin Krzysztof Michalski and Jan Patocka Finally the volume deals with an often vexed issue in current treatments of Heidegger the importance of Heidegger's philosophy for politics The book includes essays by an international team of contributors including leading representatives of Heideggerian thought in Russia today Heidegger's thought plays a key role in debates over Russian identity and the geopolitical role Russia has to play in the world The volume surveys the complicated landscape of post Soviet philosophy and how the rise of widely differing appropriations of Heidegger exploit familiar fault lines in the Russian reception of Western thinkers that date back to the first stirrings of a distinctively Russian philosophical tradition **A History of Russian Philosophy 1830-1930** G. M. Hamburg,Randall A. Poole,2010-04-22 The great age of Russian philosophy spans the century between 1830 and 1930 from the famous Slavophile Westernizer controversy of the 1830s and 1840s through the Silver Age of Russian culture at the beginning of the twentieth century to the formation of a Russian philosophical emigration in the wake of the Russian Revolution This volume is a major history and interpretation of Russian philosophy in this period Eighteen chapters plus a substantial introduction and afterword discuss Russian philosophy's main figures schools and controversies while simultaneously pursuing a common central theme the development of a distinctive Russian tradition of philosophical humanism focused on the defence of human dignity As this volume shows the century long debate over the meaning and grounds of human dignity freedom and the just society involved thinkers of all backgrounds and positions transcending easy classification as religious or secular The debate still resonates strongly today *Vladimir Solov'ev* William Peter van den Bercken,Manon de Courten,Evert van der Zweerde,2000 Vladimir Solov'ev 1853 1900 is regarded as the most original and

systematic of the Russian philosophers in the 19th century He has once again become the subject of international scholarly attention both in Slavic countries and the West This volume contains selected papers presented at the international conference on Vladimir Solov'ev held at Nijmegen University the Netherlands in September 1998 The scope of this conference was wide ranging dealing with theological metaphysical philosophical and historical themes Though Solov'ev's broad intellectual activity defies any strict attempt at categorisation the editors have classified its major themes under the dual characteristic of reconciliation and polemics Solov'ev was passionately committed to the reconciliation of all beings under the idea of all unity which he attempted to achieve by engaging in uncompromising polemics with his contemporaries The thirty contributors to this volume are specialists from Russia Ukraine Bulgaria Western Europe and the United States The volume makes a significant contribution to the intellectual reassessment of Vladimir Solov'ev since the rediscovery of his philosophical heritage in his own homeland in the 1980s The British National Bibliography Arthur James Wells, 2001
