Productividad,

crecimiento y estancamiento de la economía mexicana (1950-2015) Enrique Hernández Laos, 2025-04-11 El presente libro hace una relevante aportación al análisis del crecimiento económico de México en un contexto de largo plazo (1950-2015). A partir de un acucioso estudio de la bibliografía existente, el libro examina preferentemente de manera cuantitativa la trayectoria de la productividad multifactorial agregada y sectorial de México, la acumulación de capital fijo y humano, el desarrollo tecnológico, las tendencias demográficas y las condiciones de operación de los mercados de factores, y plantea hipótesis de interés para entender la precaria ruta que el crecimiento de la economía nacional registra desde hace varias décadas y que en diversos aspectos ha revestido un carácter de franco estancamiento en términos per cápita.
