Psychoanalysis, Group Analysis, and Beyond Juan Tubert-Oklander, Reyna Hernández-Tubert, 2021-11-11. Psychoanalysis, Group Analysis, and Beyond presents an important new paradigm in psychoanalysis and group analysis, presenting the individual and the group as elements of a wider whole and taking socio-political and cultural contexts into account. Juan Tubert-Oklander and Reyna Hernández-Tubert explore the contributions of group analysis to this new perspective, which suggests a holistic conception of the respective status and nature of what the common-sense view of the world conceives as the individual and the community. Part I presents thoughts on the gelding of psychoanalysis, focuses on the limitations of classical psychoanalysis, and elaborates on key topics including epistemology, inclusion and exclusion, culture, and the real. Part II considers the reincorporation of what had formerly been excluded through the theory and practice of group analysis. Finally, Part III bridges the gap, presenting several approaches to the building of the new paradigm that is so sorely needed. Psychoanalysis, Group Analysis, and Beyond will be of great interest to group analysts, psychoanalysts, and psychotherapists in practice and in training, as well as other professionals specializing in group work.

Creativity Harriet Hawkins, 2016-10-04. Creativity, whether lauded as the oil of the 21st century, touted as a driver of international policy, or mobilised by activities, has been very much part of the zeitgeist of the last few decades. Offering the first accessible but conceptually sophisticated account of the critical geographies of creativity, this title provides an entry point to the diverse ways in which creativity is conceptualized as a practice, promise, force, concept, and rhetoric. It proffers these critical geographies as the means to engage with the relations and tensions between a range of forms of arts and cultural production, the cultural economy, and vernacular, mundane, and everyday creative practices. Exploring a series of sites, Creativity examines theoretical and conceptual questions around the social, economic, cultural, political, and pedagogic imperatives of the geographies of creativity, using these geographies as a lens to cohere broader interdisciplinary debates. Central concepts, cutting-edge research, and methodological debates are made accessible with the use of inset boxes that present key ideas, case studies, and research. The text draws together interdisciplinary perspectives on creativity, enabling scholars and students, within and without Geography, to understand and engage with the critical geographies of creativity, their breadth, and potential. The volume will prove essential reading for undergraduate and postgraduate students of creativity, cultural geography, the creative economy, cultural industries, and heritage.

Metaphor and Meaning in Psychotherapy Ellen Y. Siegelman, 1993-08-01. When therapists hear patients talk of feeling imprisoned, burning with rage, trapped, or unequipped,
