Farm Boy To Fly Boy Col[Ret] G. Brennand, 2018-01-15 From his childhood growing up in Depression era rural Manitoba to his rise through the ranks to become a colonel in the Royal Canadian Air Force RCAF Col Gordon Brennand's memoir Farm Boy to Flyboy is as much a history of the RCAF in the twentieth century as it is an account of his own life Born a bit too late to participate in WWII Gordon was inspired by Canada's involvement in the Korean War to pursue a life in the military After a failed start in the Navy he enlisted with the Air Force with faint hopes of perhaps becoming a fighter pilot Not only did he succeed he logged four thousand hours on various jet aircraft types including over 1100 hours on the F 86 Sabre which was the state of the art fighter jet throughout most of his thirty four year career not to mention hundreds of hours on various other types of aircraft He experienced several close calls during that time including one incident when he had to eject and another when he had to force land due to engine failure He went on to command two bases and has spent time living in most Canadian provinces as well as Germany where he served for three years during the Cold War Fascinating and insightful this book will appeal to those who are fascinated by the military and flying as well as those who are simply seeking a first person account of what life was really like for the men and women who served in the RCAF throughout one of the most pivotal periods of twentieth century history

9/11 And Canadian Special Operations Forces: How '40 Selected Men' Indelibly Influenced The Future Of The Force Lt.-Col Stephen J. Day, 2014-08-15 In less than two decades Canadian Special Operations Forces CANSOF grew from a 100 man hostage rescue unit to a 2 500 person Command capable of prosecuting missions across the special operations spectrum The seminal event causing this transformation is examined within this monograph The common narrative explaining the rise of Canadian Special Operations Forces Command CANSOFCOM states that 9 11 is the seminal event Herein a new narrative is proposed One that posits the 2001 02 deployment of a 40 man CANSOF Task Force to Operation Enduring Freedom OEF is the seminal event This Task Force's disproportionately positive impact on the Canadian national scene caused key national actors to take note of the strategic utility of special operations forces Twenty four interviews with defence and security subject matter experts from the political federal public service military and academic domains as well as two leading Canadian national journalists provide unique insights into CANSOF's ascendancy Analyzing published defence policy since

World War II and Canada's 20 year experience with her national counter terrorism task force prove two key points First defence policy is extant consistently expressing the requirement for an irregular capability for the conduct of operations in asymmetrical environments Therefore 9 11 did not change Government of Canada GoC expectations per se Second the one year CANSOF OEF commitment produces a highly positive national strategic effect for the GoC As a result in less than a decade CANSOF transitions from a single domestically focused national counter terrorism task force to where today CANSOFCOM is employed as a distinct element of national military power This transformation from a single strategic resource to a strategically relevant hard power option currently provides the GoC with greater strategic choice when she looks to deploy military forces alongside her allies

Bully Beef & Balderdash Graham Wilson, 2012-03-15 The Australian Imperial Force first raised in 1914 for overseas war service became better known by its initials the AIF There was a distinct character to those who enlisted in the earliest months and who were destined to fight on Gallipoli During the war the AIF took its place among the great armies of the world on some of history's oldest battlefields The Australians would attack at the Dardanelles enter Jerusalem and Damascus defend Amiens and Ypres and swagger through the streets of Cairo Paris and London with their distinctive slouch hats and comparative wealth of six shillings per day However the legend of the AIF is shrouded in myth and mystery Was Beersheba the last great cavalry charge in history Did the AIF storm the red light district of Cairo and burn it to ground while fighting running battles with the military police Was the AIF the only all volunteer army of World War I Graham Wilson's Bully Beef and Balderdash shines an unforgiving light on these and other well known myths of the AIF in World War I arguing that these spectacular legends simply serve to diminish the hard won reputation of the AIF as a fighting force Graham Wilson mounts his own campaign to rehabilitate the historical reputation of the force and to demonstrate that misleading and inaccurate embellishment does nothing but hide the

true story of Australia's World War I fighting army Bully Beef and Balderdash deliberately tilts at some well loved windmills and for those who cherish the mythical story of the AIF this will not be comfortable reading Yet given the extraordinary truth of the AIF's history it is certainly compelling reading

seemed a race for survival and America was losing On February 20 1962 when John Glenn blasted into orbit aboard Friendship 7 his mission was not only to circle the planet it was to calm the fears of the free world and renew America's sense of self belief Mercury Rising re creates the tension and excitement of a flight that shifted the momentum of the space race and put the United States on the path to the moon Drawing on new archival sources personal interviews and previously unpublished notes by Glenn himself Mercury Rising reveals how the astronaut's heroics lifted the nation's hopes in what Kennedy called the hour of maximum danger
