

The background of the entire image is a scenic landscape photograph. It depicts a deep, green valley with a river or stream winding through its center. In the distance, rugged mountain peaks are visible, some of which are covered in snow. The sky above is a pale blue with soft, white clouds. The overall tone is peaceful and natural.

Sacred Wells Gary R. materiality of foodstuffs past and present examining humanity's intriguingly complex relationships with and experiences of food The book also makes a fresh contribution to our understanding of materiality through a novel focus on material culture analysing objects used to prepare wrap serve and consume food and the tactile experiences involved in its production and consumption Considering a wide range of cultures spanning from ancient China to modern day Kenya this broad collection of interdisciplinary chapters reveal the multiple interplays between foods bodies material worlds rituals and embodied knowledge that emerge from these encounters and which in turn shape the material culture of food Exploring the Materiality of Food Stuff makes an important contribution to this burgeoning field and will be of interest to archaeologists and anthropologists working in the key area of food research *Chambers's Encyclopædia* ,1871 *The Sacred Tree* Carole M. Cusack,2011-05-25 The fundamental nature of the tree as a symbol for many communities reflects the historical reality that human beings have always interacted with and depended upon trees for their survival Trees provided one of the earliest forms of shelter along with caves and the bounty of trees nuts fruits and berries gave sustenance to gatherer hunter populations This study has concentrated on the tree as sacred and significant for a particular group of societies living in the ancient and medieval eras in the geographical confines of Europe and sharing a common Indo European inheritance but sacred trees are found throughout the world in vastly different cultures and historical periods Sacred trees feature in the religious frameworks of the Ghanaian Akan Arctic Altaic shamanic communities and in China and Japan The power of the sacred tree as a symbol is derived from the fact that trees function as homologues of both human beings and of the cosmos This study concentrates the tree as axis mundi hub or centre of the world and the tree as imago mundi picture of the world The Greeks and Romans in the ancient world and the Irish Anglo Saxons continental Germans and Scandinavians in the medieval world all understood the power of the tree and its derivative the pillar as markers of the centre Sacred trees and pillars dotted their landscapes and the territory around them derived its meaning from their presence Unfamiliar or even hostile lands could be tamed and made meaningful by the erection of a monument that replicated the sacred centre Such monuments also linked with boundaries and by extension with law and order custom and tradition The sacred tree and pillar as centre symbolized the stability of the cosmos and of society When the Pagan peoples of Europe adopted Christianity the sacred trees and pillars visible signs of the presence of the gods in the landscape were popular targets for axe wielding saints and missionaries who desired to force the conversion of the landscape as well as the people Yet Christianity had its own tree monument the cross on which Jesus Christ was crucified and which came to signify resurrected life and the conquest of eternal death for the devout As European Pagans were converted to Christianity their tree and pillar monuments were changed into Christian forms the great standing crosses of Anglo Saxon northern England played many of the same roles as Pagan sacred trees and pillars Irish and Anglo Saxons Christians often combined the image of the Tree of Life from the Garden of Eden with Christ on the cross to produce a Christian version of the tree as imago mundi *Holidays in North*
