## **Sacred Boundaries Religious Coexistence And Conflict In Early Modern France:**

*Sacred Boundaries* Keith P. Luria, 2005-08 Religious rivalry and persecution have bedeviled so many societies that confessional difference often seems an unavoidable source of conflict *Sacred Boundaries* challenges this assumption by examining relations between the Catholic majority and Protestant minority in seventeenth century France as a case study of two religious groups constructing confessional difference and coexistence *Living with Religious Diversity in Early-Modern Europe* Dagmar Freist, 2016-12-05 Current scholarship continues to emphasise both the importance and the sheer diversity of religious beliefs within early modern societies Furthermore it continues to show that despite the wishes of secular and religious leaders confessional uniformity was in many cases impossible to enforce As the essays in this collection make clear many people in Reformation Europe were forced to confront the reality of divided religious loyalties and this raised issues such as the means of accommodating religious minorities who refused to conform and the methods of living in communion with those of different faiths Drawing together a number of case studies from diverse parts of Europe *Living with Religious Diversity in Early Modern Europe* explores the processes involved when groups of differing confessions had to live in close proximity sometimes grudgingly but often with a benign pragmatism that stood in opposition to the will of their rulers By focussing on these themes the volume bridges the gap between our understanding of the confessional developments as they were conceived as normative visions and religious culture at the level of implementation The contributions thus measure the religious policies articulated by secular and ecclesiastical elites against the lived experience of people going about their daily business In doing this the collection shows how people perceived and experienced the religious upheavals of the confessional age and how they were able to assimilate these changes within the framework of their lives *Peace and Authority During the French Religious Wars c.1560-1600* P. Roberts, 2013-05-29 Through a wide ranging and close analysis of archival sources this book re evaluates both the role of royal authority and of local agency in the French religious wars in the lead up to the Edict of Nantes of 1598 Drawing on extensive research it provides a new perspective on the political religious social and cultural history of the conflict *Cultures of Conflict Resolution in Early Modern Europe* Stephen Cummins, Laura Kounine, 2017-05-15 Disputes discord and reconciliation were fundamental parts of the fabric of communal living in early modern Europe This edited volume presents essays on the cultural codes of conflict and its resolution in this period under three broad themes peacemaking as practice the nature of mediation and arbitration and the role of criminal law in conflicts Through an exploration of conflict and peacemaking this volume provides innovative accounts of state formation community and religion in the early modern period *Early Modern Toleration* Benjamin J. Kaplan, Jaap Geraerts, 2023-08-31 This book examines the practice of toleration and the experience of religious diversity in the early modern world Recent scholarship has shown the myriad ways in which religious differences were accommodated in the early modern era 1500 1800 This book propels this revisionist wave further by linking the accommodation of religious diversity in

early modern communities to the experience of this diversity by individuals. It does so by studying the forms and patterns of interaction between members of different religious groups including Christian denominations, Muslims, and Jews in territories ranging from Europe to the Americas and South East Asia. This book is structured around five key concepts: the senses, identities, boundaries, interaction, and space. For each concept, the book provides chapters based on new original research plus an introduction that situates the chapters in their historiographic context. *Early Modern Toleration: New Approaches* is aimed primarily at undergraduate and postgraduate students to whom it offers an accessible introduction to the study of religious toleration in the early modern era. Additionally, scholars will find cutting edge contributions to the field in the book's chapters.

**The Ashgate Research Companion to the Counter-Reformation** Alexandra Bamji, Geert H. Janssen, Mary Laven, 2016-03-23 In the last two decades the history of the Counter Reformation has been stretched and re-shaped in numerous directions. Reflecting the variety and innovation that characterize studies of early modern Catholicism today, this volume incorporates topics as diverse as life cycle and community science and the senses, the performing and visual arts, material objects and print culture, war and the state, sacred landscapes and urban structures. Moreover, it challenges the conventional chronological parameters of the Counter Reformation and introduces the reader to the latest research on global Catholicism. *The Ashgate Research Companion to the Counter Reformation* presents a comprehensive examination of recent scholarship on early modern Catholicism in its many guises. It examines how the Tridentine reforms inspired conflict and conversion and evaluates lives and identities, spirituality, culture, and religious change. This wide-ranging and original research guide is a unique resource for scholars and students of European and transnational history. **A Companion to**

**Multiconfessionalism in the Early Modern World** Thomas Max Safley, 2011-06-09 This volume brings together recent scholarship on early modern multiconfessionalism that challenges accepted notions of reformation, confessionalization, and state building, and suggests a new vision of religion, state, and society in early modern Europe. *Facing the Revocation*

Carolyn Chappell Lougee, 2016-10-03 Winner Best Scholarly Work National Huguenot Society 2018 The Edict of Nantes ended the civil wars of the Reformation in 1598 by making France a kingdom with two religions: Catholics could worship anywhere while Protestants had specific locations where they were sanctioned to worship. Over the coming decades, Protestants' religious freedom and civil privileges eroded until the Revocation of the Edict of Nantes issued under Louis XIV in 1685 criminalized their religion. The Robillard de Champagn, a noble family, were among those facing the Revocation. They and their co-religionists confronted the difficult decision whether to obey this new law and convert, feign conversion, and remain privately Protestant, or break the law and attempt to flee secretly in what was the first modern mass migration. In this sweeping family saga, Carolyn Chappell Lougee narrates how the Champagn family's persecution and Protestant devotion unsettled their economic advantages and social standing. The family provides a window onto the choices that individuals and their kin had to make in these trying circumstances: the agency of women within families and the consequences of their

choices Lougee traces the lives of the family members who escaped the kin and community members who decided to stay both complying with and resisting the king's will and those who resettled in Britain and Prussia where they adapted culturally and became influential members of society She challenges the narrative Huguenots told over subsequent generations about the deeper faith of those who opted for exile and the venal qualities of those who remained in France A masterful and moving account of the Huguenots Facing the Revocation offers a deeply personal perspective on one of the greatest acts of religious intolerance in history

**The Oxford History of the Reformation** Peter Marshall, 2022-09-08 a vital resource TLS Compelling collection Literary Review The Reformation was a seismic event in history whose consequences are still unfolding in Europe and across the world Martin Luther's protests against the marketing of indulgences in 1517 were part of a long standing pattern of calls for reform in the Christian Church But they rapidly took a radical and unexpected turn engulfing first Germany and then Europe in furious arguments about how God's will was to be saved However these debates did not remain confined to a narrow sphere of theology They came to reshape politics and international relations social cultural and artistic developments relations between the sexes and the patterns and performances of everyday life They were also the stimulus for Christianity's transformation into a truly global religion as agents of the Roman Catholic Church sought to compensate for losses in Europe with new conversions in Asia and the Americas Covering both Protestant and Catholic reform movements in Europe and across the wider world this compact volume tells the story of the Reformation from its immediate explosive beginnings through to its profound longer term consequences and legacy for the modern world The story is not one of an inevitable triumph of liberty over oppression enlightenment over ignorance Rather it tells how a multitude of rival groups and individuals with or without the support of political power strove after visions of reform And how in spite of themselves they laid the foundations for the plural and conflicted world we now inhabit

*Preaching a Dual Identity* Nicholas Must, 2017-08-21 In *Preaching a Dual Identity* Nicholas Must examines seventeenth century Huguenot sermons to study the development of French Reformed confessional identity under the Edict of Nantes Of key concern is how a Huguenot hybrid identity was formulated by balancing a strong sense of religious particularism with an enthusiastic political loyalism Must argues that sermons were an integral part of asserting this unique confessional position in both their preached and printed forms To demonstrate this Must explores a variety of sermon themes to access the range of images and arguments that preachers employed to articulate a particular vision of their community as a religious minority in France

**The Jews and the Reformation** Kenneth Austin, 2020-06-11 Judaism has always been of great significance to Christianity but this relationship has also been marked by complexity and ambivalence The emergence of new Protestant confessions in the Reformation had significant consequences for how Jews were viewed and treated In this wide ranging account Kenneth Austin examines Christian attitudes toward Jews the Hebrew language and Jewish learning arguing that they have much to tell us about the Reformation and its priorities and have

important implications for how we think about religious pluralism today     Archeologies of Confession Carina L. Johnson, David M. Luebke, Marjorie Elizabeth Plummer, Jesse Spohnholz, 2017-05-01 Modern religious identities are rooted in collective memories that are constantly made and remade across generations How do these mutations of memory distort our picture of historical change and the ways that historical actors perceive it Can one give voice to those whom history has forgotten The essays collected here examine the formation of religious identities during the Reformation in Germany through case studies of remembering and forgetting instances in which patterns and practices of religious plurality were excised from historical memory By tracing their ramifications through the centuries Archeologies of Confession carefully reconstructs the often surprising histories of plurality that have otherwise been lost or obscured     Religious Peace, Then and Now Wayne P. Te Brake, 2022-06-03 Religious Peace Then and Now presents a radically new perspective on one of the critical challenges of our time making religious peace in a world afflicted by religious conflict violence and war In a text that is passionate and accessible Wayne Te Brake demonstrates how concerned citizens and political and religious leaders who have learned to recognize religious peace when they see religious diversity can envision and promote a more peaceful world through constructive engagement and nonviolent activism Religious Peace builds on the author's personal experience as well as his academic research on religious war and religious peace during Europe's Age of Religious Wars and applies what we can learn from that history to our understanding of the prevalence and prospect of religious peace today     **Singing the Resurrection** Erin M. Lambert, 2018 Singing the Resurrection brings music to the foreground of Reformation studies as author Erin Lambert explores song as a primary mode for the expression of belief among ordinary Europeans in the sixteenth century for the embodiment of individual piety and the creation of new communities of belief Together resurrection and song reveal how sixteenth century Christians from learned theologians to ordinary artisans and Anabaptist martyrs to Reformed Christians facing exile defined belief not merely as an assertion or affirmation but as a continuous living practice Thus these voices raised in song tell a story of the Reformation that reaches far beyond the transformation from one community of faith to many With case studies drawn from each of the major confessions of the Reformation Lutheran Anabaptist Reformed and Catholic Singing the Resurrection reveals sixteenth century belief in its full complexity     Historical Dictionary of the Reformation and Counter-Reformation Michael Mullett, 2010-04-30 The Protestant Reformation of the 16th century has traditionally been viewed as marking the onset of modernity in Europe It finally broke up the federal Christendom of the middle ages under the leadership of the papacy and substituted for it a continent of autonomous and national states independent of Rome The Historical Dictionary of the Reformation and Counter Reformation provides a comprehensive account of two chains of events the Protestant Reformation and the Catholic Counter Reformation that have left an enduring imprint on Europe America and the world at large This is done through a chronology an introductory essay a bibliography and over 300 cross referenced dictionary entries on persons places countries institutions doctrines ideas and events

**Vincent de Paul, the Lazarist Mission, and French Catholic Reform** Alison Forrestal, 2017-04-28 Vincent de Paul the Lazarist Mission and French Catholic Reform offers a major re assessment of the thought and activities of the most famous figure of the seventeenth century French Catholic Reformation Vincent de Paul Confronting traditional explanations for de Paul s prominence in the d vot reform movement that emerged in the wake of the Wars of Religion the volume explores how he turned a personal vocational desire to evangelize the rural poor of France into a congregation of secular missionaries known as the Congregation of the Mission or the Lazarists with three inter related strands of pastoral responsibility the delivery of missions the formation and training of clergy and the promotion of confraternal welfare Alison Forrestal further demonstrates that the structure ethos and works that de Paul devised for the Congregation placed it at the heart of a significant enterprise of reform that involved a broad set of associates in efforts to transform the character of devotional belief and practice within the church The central questions of the volume therefore concern de Paul s efforts to create characterize and articulate a distinctive and influential vision for missionary life and work both for himself and for the Lazarist Congregation and Forrestal argues that his prominence and achievements depended on his remarkable ability to exploit the potential for association and collaboration within the d vot environment of seventeenth century France in enterprising and systematic ways This is the first study to assess de Paul s activities against the wider backdrop of religious reform and Bourbon rule and to reconstruct the combination of ideas practices resources and relationships that determined his ability to pursue his ambitions A work of forensic detail and complex narrative Vincent de Paul the Lazarist Mission and French Catholic Reform is the product of years of research in ecclesiastical and state archives It offers a wholly fresh perspective on the challenges and opportunities entailed in the promotion of religious reform and renewal in seventeenth century France

Preparing for Death, Remembering the Dead Tarald Rasmussen, Jon Øygarden Flæten, 2015-04-22 Death and dying were not in the main focus of the denominational conflicts of the 16th century However pious literature covered these topics again and again not only before the Reformation but after it as well Here certain denominational differences are clearly visible Partly these differences consist in the use of genres For example funeral sermons are an often used genre among Lutherans while they are much rarer in the Reformed tradition Similar differences can be observed concerning epitaphs In Roman Catholic areas funeral sermons and epitaphs are common in the 16th century too but their religious function is often a different from the one in Lutheranism Beyond such interdenominational differences there are also interesting continuities and connections which the contributors of the volume analyze For example there is a certain continuity between 16th century Lutheran funeral sermons and the late medieval tradition of ars moriendi The volume contains papers presented at the Second RefoRC Conference in Oslo in 2012 and is characterized by a multiconfessional and multidisciplinary approach with contributions from Church History Art History Archaeology History of Literature and Cultural History Within a field of research dominated by specialized contributions e g on ars moriendi traditions or on

specific traditions of funeral monuments and funeral sermons the broad approach of this volume may further stimulate to comparative and cross confessional reflection

**Patrons of the Old Faith** Jaap Geraerts, 2018-09-24 Patrons of the Old Faith is the first full length study on the Catholic nobility in the Dutch Republic Based on a detailed prosopographical analysis and through the examination of their marriage strategies interaction with Protestants religiosity and contributions to the Holland Mission Jaap Geraerts shows how the behaviour of the Catholic nobility was highly distinctive and differed from their co religionists and Protestant peers as it was influenced by a specific set of noble and Catholic values Due to the synthesis of their noble and confessional identities the Dutch Catholic nobility in Utrecht and Guelders acted as patrons of their faith and were instrumental for the survival of Catholicism in the Dutch Republic

**Polemic and Literature**

**Surrounding the French Wars of Religion** Jeff Kendrick, Katherine S. Maynard, 2019-09-23 Polemic and Literature Surrounding the French Wars of Religion demonstrates that literature and polemic interacted constantly in sixteenth century France constructing ideological frameworks that defined the various groups to which individuals belonged and through which they defined their identities Contributions explore both literary texts prose poetry and theater and more intentionally polemical texts that fall outside of the traditional literary genres Engaging the continuous casting and recasting of opposing worldviews this collection of essays examines literature s use of polemic and polemic s use of literature as seminal intellectual developments stemming from the religious and social turmoil that characterized this period in France

**Consciences and the Reformation** Timothy R. Scheuers, 2023-08-01 This book examines the contentious relationship between oath taking confessional subscription and the binding of the conscience in reforms led by John Calvin Calvin and his closest Reformed colleagues routinely distinguished what they believed were impious rules and constitutions in the Roman Church human traditions claiming to bind the consciences of the faithful by putting them in fear of losing their salvation and legitimate church observances such as oaths and formal subscription to Reformed confessional standards Doctrinal and moral reform in the cities became difficult however when friends and foes alike accused Calvin and his partners of burdening consciences with extra Scriptural statements of faith composed by human authorities a claim that if true would necessarily shape our assessment of the integrity of Calvin s Reformation In light of these conflicts author Timothy R Scheuers offers a close reading of the texts and controversies surrounding Calvin s struggle for reform In particular he shows how they reveal the unique challenges Calvin and his colleagues encountered as they attempted to employ oath swearing and formal confession of faith in order to consolidate the reformation of church and society This book demonstrates how oaths and vows were used to shape confessional identity secure social order forge community and promote faithfulness in public and private contracts It also illustrates the complex and difficult task of protecting the individual conscience as Calvin sought to bring his new take on Christian freedom into Reformed communities
