Inalienable Possessions Annette B. Weiner, 1992-05-13 Inalienable Possessions tests anthropology's traditional assumptions about kinship economics power and gender in an exciting challenge to accepted theories of reciprocity and marriage exchange Focusing on Oceania societies from Polynesia to Papua New Guinea and including Australian Aborigine groups Annette Weiner investigates the category of possessions that must not be given or if they are circulated must return finally to the giver Reciprocity she says is only the superficial aspect of exchange which overlays much more politically powerful strategies of keeping while giving The idea of keeping while giving places women at the heart of the political process however much that process may vary in different societies for women possess a wealth of their own that gives them power Power is intimately involved in cultural reproduction and Weiner describes the location of power in each society showing how the degree of control over the production and distribution of cloth wealth coincides with women's rank and the development of hierarchy in the community Other inalienable possessions whether material objects landed property ancestral myths or sacred knowledge bestow social identity and rank as well Calling attention to their presence in Western history Weiner points out that her formulations are not limited to Oceania The paradox of keeping while giving is a concept certain to influence future developments in ethnography and the theoretical study of gender and exchange

Forever Ecstasy. Morning Star knew it was her duty as an Oglala princess to join with a warrior of her tribe. After all she was the granddaughter of the revered Gray Eagle and her father was the great Chief Sun Cloud. But the moment she gazed into the sky blue eyes of Joseph Lawrence she realized he was fated to be in her life circle. For he was the man of legend the white man who would lead her tribe to peace. He was also the lover who would stir her soul with forbidden desires. Together they would know a great destiny and an everlasting love.

Scott, Pauline Maclaran, 2013 This book sheds light on the consumption of spiritual products services experiences and places through state of the art studies by leading and emerging scholars in interpretive consumer research marketing sociology anthropology cultural and religious studies. The collection brings together fresh views and scholarship on a cultural tension that is at the centre of the lives of countless individuals living in postmodern societies the relationship between the material and the spiritual the sacred and the profane. The book examines how a variety of agents religious institutions spiritual leaders marketers and consumers interact and co create spiritual meanings in a post disenchanted society that has been defined as a supermarket of the soul. *Prophets and Ghosts* Samuel J. Redman, 2021-10-26 A searching account of nineteenth century salvage anthropology an effort to preserve the culture of vanishing Indigenous peoples through dispossession of the very communities it was meant to protect In the late nineteenth century anthropologists linguists archaeologists and other chroniclers began amassing Indigenous cultural objects crafts clothing images song recordings by the millions Convinced that Indigenous peoples were doomed to disappear collectors donated these objects to museums and universities that would preserve and exhibit them Samuel Redman dives into the archive to understand what

the collectors deemed the tradition of the vanishing Indian and what we can learn from the complex legacy of salvage anthropology The salvage catalog betrays a vision of Native cultures clouded by racist assumptions a vision that had lasting consequences The collecting practice became an engine of the American museum and significantly shaped public education and preservation as well as popular ideas about Indigenous cultures Prophets and Ghosts teases out the moral challenges inherent in the salvage project Preservationists successfully maintained an important human inheritance sometimes through collaboration with Indigenous people but collectors methods also included outright theft The resulting portrait of Indigenous culture reinforced the public's confidence in the hierarchies of superiority and inferiority invented by scientific racism Today the same salvaged objects are sources of invaluable knowledge for researchers and museum visitors But the question of what should be done with such collections is nonetheless urgent Redman interviews Indigenous artists and curators who offer fresh perspectives on the history and impact of cultural salvage pointing to new ideas on how we might contend with a challenging inheritance
