Contemporary Studies in Environmental and Indigenous Pedagogies Andrejs Kulnieks, Dan Roronhiakewen Longboat, Young Young, 2013-06-13 Contemporary Studies in Environmental and Indigenous Pedagogies A Curricula of Stories and Place Our book is a compilation of the work of experienced educational researchers and practitioners all of whom currently work in educational settings across North America Contributors bring to this discussion an enriched view of diverse ecological perspectives

regarding when and how contemporary environmental and Indigenous curriculum figures into the experiences of curricular theories and practices This work brings together theorists that inform a cultural ecological analysis of the environmental crisis by exploring the ways in which language informs ways of knowing and being as they outline how metaphor plays a major role in human relationships with natural and reconstructed environments This book will be of interest to educational researchers and practitioners who will find the text important for envisioning education as an endeavour that situates learning in relation to and informed by an Indigenous Environmental Studies and Eco justice Education frameworks This integrated collection of theory and practice of environmental and Indigenous education is an essential tool for researchers graduate and undergraduate students in faculties of education environmental studies social studies multicultural education curriculum theory and methods global and comparative education and women s studies Moreover this work documents methods of developing ways of implementing Indigenous and Environmental Studies in classrooms and local communities through a framework that espouses an eco ethical consciousness The proposed book is unique in that it offers a wide variety of perspectives inviting the reader to engage in a broader conversation about the multiple dimensions of the relationship between ecology language culture and education in relation to the cultural roots of the environmental crisis that brings into focus the local and global commons language and identity and environmental justice through pedagogical approaches by faculty across North America who are actively teaching and researching in this burgeoning field **A Strange Mixture**

Sascha T. Scott, 2015-01-21 Attracted to the rich ceremonial life and unique architecture of the New Mexico pueblos many early twentieth century artists depicted Pueblo peoples places and culture in paintings These artists encounters with Pueblo Indians fostered their awareness of Native political struggles and led them to join with Pueblo communities to champion Indian rights In this book art historian Sascha T Scott examines the ways in which non Pueblo and Pueblo artists advocated for American Indian cultures by confronting some of the cultural legal and political issues of the day Scott closely examines the work of five diverse artists exploring how their art was shaped by and helped to shape Indian politics She places the art within the context of the interwar period 1915 30 a time when federal Indian policy shifted away from forced assimilation and toward preservation of Native cultures Through careful analysis of paintings by Ernest L Blumenschein John Sloan Marsden Hartley and Awa Tsireh Alfonso Roybal Scott shows how their depictions of thriving Pueblo life and rituals promoted cultural preservation and challenged the pervasive romanticizing theme of the vanishing Indian Georgia O Keeffe s images of Pueblo dances which connect abstraction with lived experience testify to the legacy of these political and aesthetic transformations Scott makes use of anthropology history and indigenous studies in her art historical narrative She is one of the first scholars to address varied responses to issues of cultural preservation by aesthetically and culturally diverse artists including Pueblo painters Beautifully designed this book features nearly sixty artworks reproduced in full color Wilderness Medicine

Enemies Clifford E. Trafzer, 2019-05-09 Native Americans long resisted Western medicine but had less power to resist the threat posed by Western diseases And so as the Office of Indian Affairs reluctantly entered the business of health and medicine Native peoples reluctantly began to allow Western medicine into their communities Fighting Invisible Enemies traces this transition among inhabitants of the Mission Indian Agency of Southern California from the late nineteenth through the mid twentieth century What historian Clifford E Trafzer describes is not so much a transition from one practice to another as a gradual incorporation of Western medicine into Indian medical practices Melding indigenous and medical history specific to Southern California his book combines statistical information and documents from the federal government with the oral narratives of several tribes Many of these oral histories detailing traditional beliefs about disease causation medical practices and treatment are unique to this work the product of the author s close and trusted relationships with tribal elders Trafzer examines the years of interaction that transpired before Native people allowed elements of Western medicine and health care into their lives homes and communities Among the factors he cites as impelling the change were settler borne diseases the negative effects of federal Indian policies and the sincere desire of both Indians and agency doctors and nurses to combat the spread of disease Here we see how unlike many encounters between Indians and non Indians in Southern California this cooperative effort proved positive and constructive resulting in fewer deaths from infectious diseases especially tuberculosis The first study of its kind Trafzer s work fills gaps in Native American medical and Southern California history It informs our understanding of the working relationship between indigenous and Western medical traditions and practices as it continues to develop today **The Solidarity of Kin** Kenneth M. Morrison, 2012-02-01

Arguing that Native Americans religious life and history have been misinterpreted author Kenneth M Morrison reconstructs the Eastern Algonkians world views and demonstrates the indigenous modes of rationality that shaped not only their encounter with the French but also their self directed process of religious change In reassessing controversial anthropological historical and ethnohistorical scholarship Morrison develops interpretive strategies that are more responsive

to the religious world views of the Eastern Algonkian peoples He concludes that the Eastern Algonkians did not convert to Catholicism but rather applied traditional knowledge and values to achieve a pragmatic and critical sense of Christianity and to preserve and extend kinship solidarity into the future The result was a remarkable intersection of Eastern Algonkian and missionary cosmologies

Gods in the Global Village Lester R. Kurtz,2015-04-01 In a world plagued by religious conflict how can the various religious and secular traditions coexist peacefully on the planet And what role does sociology play in helping us understand the state of religious life in a globalizing world In the Fourth Edition of Gods in the Global Village author Lester Kurtz continues to address these questions This text is an engaging thought provoking examination of the relationships among the major faith traditions that inform the thinking and ethical standards of most people in the

emerging global social order Thoroughly updated to reflect recent events the book discusses the role of religion in our daily lives and global politics and the ways in which religion is both an agent of and barrier to social change **Global**

Indigenous Communities Lavonna L. Lovern,2021-05-15 Global Indigenous Communities is a wide ranging examination of global Indigenous communities that continue to suffer from colonization and assimilation issues including intergenerational trauma The scholarship is interdisciplinary it is not easily categorized as sociology anthropology ethnography or philosophy but cuts across all of these disciplines as well as Indigenous methodologies The book not only presents an academic study of Indigenous issues covering Indigenous community life religion the environment economic matters education and healthcare but also incorporates contributions from Carol Locust EdD that reflect on her lifetime of experience in Indigenous education and healthcare Each studied prism of Indigenous life is revealed to be impacted by the experience of intergenerational trauma that results from continued colonization Ultimately this book aims to bridge the communication gap between Western and Indigenous scholarship and readership artfully combining Indigenous approaches with a traditional academic style
