## **Sacrifice Your Love Psychoanalysis Historicism Chaucer:**

*Sacrifice Your Love* L. O. Aranye Fradenburg, 2002      **Sacrifice your love [electronic resource]** L. O. Aranye Fradenburg, *Sacrifice Your Love* develops the idea that sacrifice is a mode of enjoyment that our willingness to sacrifice our desire is actually a way of pursuing it Fradenburg considers the implications of this idea for various problems important in medieval studies today and beyond      **The Legend of Good Women** Carolyn P. Collette, 2006 Essays re examining the Legend of Good Women placing it in its cultural and historical context      **Reading Chaucer in Time** Kara Gaston, 2020-02-27 The monograph series Oxford Studies in Medieval Literature and Culture showcases the plurilingual and multicultural quality of medieval literature and actively seeks to promote research that not only focuses on the array of subjects medievalists now pursue in literature theology and philosophy in social political jurisprudential and intellectual history the history of art and the history of science but also that combines these subjects productively It offers innovative studies on topics that may include but are not limited to manuscript and book history languages and literatures of the global Middle Ages race and the post colonial the digital humanities media and performance music medicine the history of affect and the emotions the literature and practices of devotion the theory and history of gender and sexuality ecocriticism and the environment theories of aesthetics medievalism Reading for form can mean reading for formation Understanding processes through which a text was created can help us in characterizing its form But what is involved in bringing a diachronic process to bear upon a synchronic work When does literary formation begin and end When does form happen These questions emerge with urgency in the interactions between English poet Geoffrey Chaucer and Italian trecento authors Dante Alighieri Giovanni Boccaccio and Francis Petrarch In fourteenth century Italy new ways were emerging of configuring the relation between author and reader Previously medieval reading was often oriented around the significance of the text to the individual reader In Italy however reading was beginning to be understood as a way of getting back to a work's initial formation This book tracks how concepts of reading developed within Italian texts including Dante's *Vita nova* Boccaccio's *Filostrato* and *Teseida* and Petrarch's *Seniles* impress themselves upon Chaucer's *Troilus* and *Criseyde* and *Canterbury Tales* It argues that Chaucer's poetry reveals the implications of reading for formation above all that it both depends upon and effaces the historical perspective and temporal experience of the individual reader Problems raised within Chaucer's poetry thus inform this book's broader methodological argument that there is no one moment at which the formation of Chaucer's poetry ends rather its form emerges in and through process of reading within time      *The Post-Historical Middle Ages* E. Scala, 2009-05-25 This collection of original essays repositions medieval literary studies after an era of historicism Analyzing the legacy of Marxist and materialist theory on medieval literary criticism the collection offers new ways of reading texts historically Drawing upon aesthetic ethical and cultural vantage points and methods these essays demonstrate that a variety of approaches and theories are historical and can change what it means to historicize medieval literature By defining our

post historical moment in medieval English literary studies in terms of new possibilities this collection will have broad appeal to those interested in the English Middle Ages history culture and reading itself **Chaucer's Visions of Manhood** H. Crocker, 2007-06-25 This book argues that Chaucer challenges his culture's mounting obsession with vision constructing a model of manhood that blurs the distinction between agency and passivity in a traditional gender binary [Making Chaucer's Book of the Duchess](#) Jamie C. Fumo, 2015-09-24 provides the first comprehensive overview of the critical history of Book of the Duchess offers for the first time a thorough analysis of Book of the Duchess's medieval and early modern reception establishes Book of the Duchess's structuring investment in the idea of the book its construction consumption and transmission as it contributes to a poetics of intertextuality **Historians on Chaucer** Alastair Minnis, 2014-12-04 As literary scholars have long insisted an interdisciplinary approach is vital if modern readers are to make sense of works of medieval literature In particular rather than reading the works of medieval authors as addressing us across the centuries about some timeless or ahistorical human condition critics from a wide range of theoretical approaches have in recent years shown how the work of poets such as Chaucer constituted engagements with the power relations and social inequalities of their time Yet perhaps surprisingly medieval historians have played little part in this historical turn in the study of medieval literature The aim of this volume is to allow historians who are experts in the fields of economic social political religious and intellectual history the chance to interpret one of the most famous works of Middle English literature Geoffrey Chaucer's General Prologue to the Canterbury Tales in its contemporary context Rather than resorting to traditional historical attempts to see Chaucer's descriptions of the Canterbury pilgrims as immediate reflections of historical reality or as portraits of real life people whom Chaucer knew the contributors to this volume have sought to show what interpretive frameworks were available to Chaucer in order to make sense of reality and how he adapted his literary and ideological inheritance so as to engage with the controversies and conflicts of his own day Beginning with a survey of recent debates about the social meaning of Chaucer's work the volume then discusses each of the Canterbury pilgrims in turn Historians on Chaucer should be of interest to all scholars and students of medieval culture whether they are specialists in literature or history [The Medieval New](#) Patricia Clare Ingham, 2015-04-07 Despite the prodigious inventiveness of the Middle Ages the era is often characterized as deeply suspicious of novelty But if poets and philosophers urged caution about the new Patricia Clare Ingham contends their apprehension was less the result of a blind devotion to tradition than a response to radical expansions of possibility in diverse realms of art and science Discovery and invention provoked moral questions in the Middle Ages serving as a means to adjudicate the ethics of invention and opening thorny questions of creativity and desire The Medieval New concentrates on the preoccupation with newness and novelty in literary scientific and religious discourses of the twelfth through sixteenth centuries Examining a range of evidence from the writings of Roger Bacon and Geoffrey Chaucer to the letters of Christopher Columbus and attending to histories of children's toys the man made marvels of romance the utopian

aims of alchemists and the definitional precision of the scholastics Ingham analyzes the ethical ambivalence with which medieval thinkers approached the category of the new With its broad reconsideration of what the newfangled meant in the Middle Ages The Medieval New offers an alternative to histories that continue to associate the medieval era with conservation rather than with novelty its benefits and liabilities Calling into question present day assumptions about newness Ingham s study demonstrates the continued relevance of humanistic inquiry in the so called traditional disciplines of contemporary scholarship

*What Kind of a Thing Is a Middle English Lyric?* Cristina Maria Cervone,Nicholas Watson,2022-08-30 What Kind of a Thing Is a Middle English Lyric considers issues pertaining to a corpus of several hundred short poems written in Middle English between the twelfth and early fifteenth centuries The chapters draw on perspectives from varied disciplines including literary criticism musicology art history and cognitive science Since the early 1900s the poems have been categorized as lyrics the term now used for most kinds of short poetry yet neither the difficulties nor the promise of this treatment have received enough attention In one way the book argues considering these poems to be lyrics obscures much of what is interesting about them Since the nineteenth century lyrics have been thought of as subjective and best read without reference to cultural context yet nonetheless they are taken to form a distinct literary tradition Since Middle English short poems are often communal and usually spoken sung and or danced this lyric template is not a good fit In another way however the very differences between these poems and the later ones on which current debates about the lyric still focus suggest they have much to offer those debates and vice versa As its title suggests this book thus goes back to the basics asking fundamental questions about what these poems are how they function formally and culturally how they are and are not related to other bodies of short poetry and how they might illuminate and be illuminated by contemporary lyric scholarship Eleven chapters by medievalists and two responses by modernists all in careful conversation with one another reflect on these questions and suggest very different answers The editors introduction synthesizes these answers by suggesting that these poems can most usefully be read as a kind of play in several senses of that word The book ends with eight new Middle English lyrics by seven contemporary poets
